Plant Department

FOR THOSE WHO WANT THE VERY BEST. There is without doubt a very best in everything. It is also a recognized fact that the very best in any line are those things to which a business house concentrates its undivided attention and efforts. For the past 25 years we have spared no expense in selecting a collection of house and garden plants that will give absolute satisfaction to our customers.

The BIG FOUR Points | LOCATION you should consider | PACKING

EXPRESS RATES QUALITY

Our location is ideal, plants being grown under climatic conditions which insure sturdy and well formed stock. The continual repeat of orders is positive evidence of the careful and systematic packing of our plants.

We sell at the lowest possible price in conjunction with good goods, and being located in the heart of the great Northwest, place our goods in your home at a minimum cost.

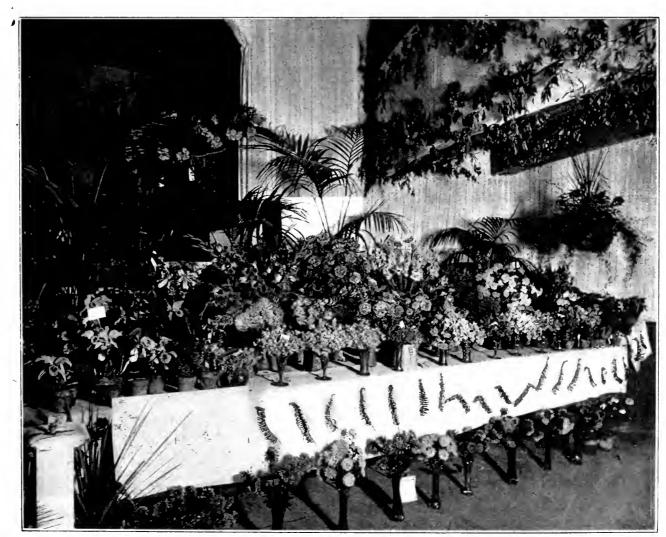

For quality our goods are in a class by themselves, with a distinctiveness that make our customers our interested

PLANTS BY EXPRESS. We always advise express for plants because we can send larger plants this way than by mail. Unless instructed to the contrary, we send pot grown plants in their pots, but it saves expressage to ship without pots, not merely because of the lessened weight, but by reason of the special discount allowed by the express companies on plants out of pots; so if you want plants without pots please say so, and when received, customers should see that they get the special discount of 20 per cent. from the ordinary rate.

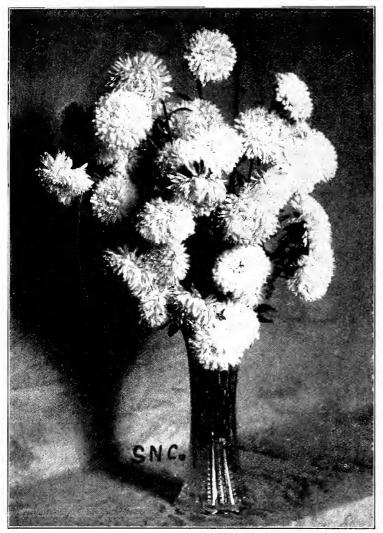

IMPORTANT. PLEASE REMEMBER THAT THE CUSTOMER PAYS THE EXPRESS, FREIGHT OR POSTAGE ON EVERYTHING IN THIS CATALOGUE UNLESS OTHERWISE STATED.

PARCELS POST. The rate on plants, bulbs and seeds remains the same (8c per lb., with the exception that larger and heavier packages may be sent. This will permit us to send plants to our customers who reside some distance from the railroad, which heretofore have been almost prohibitive, owing to the high prices charged by the stage lines.

Part of our **Display** at the Helena **Flower** Show 1913

Asters

Late Branching.

By the most careful and painstaking selection we are enabled to offer the finest specimens and strains, acknowledged by all to be the leaders in Asters. Our selection embraces the newer as well as the standard varieties. Plants ready about May 15th in early, mid-season or late varieties, the latter producing the larger flowers. In colors of pink, red, white, shell pink, lavender or purple.

FROM OUR NEIGHBORING STATE SPENCER, IDAHO
State Nursery Co., Helena.
Sirs: Fern received in fine shape, and was certainly a beauty, wish to thank you for your prompt attention and courtesy.

Yours truly, MRS. T. J. JOHNSON.

ABUTILON (Flowering Maple.)
A very desirable free-flowering plant for house culture. Succeeds under usual care and always presents a fresh appearance.

Santana—Deep Carmine.
Snowdrift—The best white. Arthur Belsham—Orange Red.
Souvenir de Bonn—Variegated leaves.

Pink Beauty—Pale pink.

Savitzi—A variegated foliage Abutilon. Golden Fleece—Pure yellow.

Mrs. Laing—Soft pink.
John Hopkins—Old gold.

Shower of Gold-A charming golden yellow.

Each, 3-inch, 4-inch, 5-inch......10c, 20c, 30c Each (Postpaid) 3-inch, 4-inch, 5-inch, 15c, 25c, 40c

AGAVE—(Century Plant.)
We have a choice stock of this favorite, from

AGERATUM.

The Dwarf Blue variety is an excellent plant for borders.

Each 10c; doz. \$1.00

Each (Postpaid) 15c; doz. \$1.15

ALOYSIA CITRIODORA—(Lemon Verbena).

Each 10c and 20c
Each (Postpaid) 15c and 25c

ANTHURIUM.

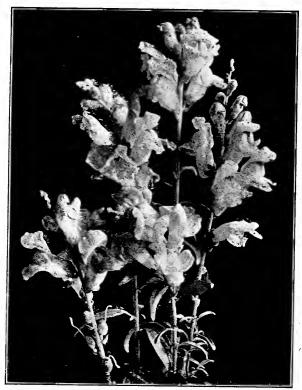

This pretty greenhouse plant would appeal to any one if only for its dark metallic foliage. The leaves when fully developed range from 20 to 30 inches long by 5 to 10 inches wide, which with the light veins and peculiar shaped flowers makes it the ideal decorative plant. The flowers of rich colorings, frequently last on the plant from two to three months.

Each50c to \$3.00

Anthurium.

ANTIRRHINUM—(Snapdragon.)

Antirrhinum.

They are undoubtedly one of the best for cutting purposes, while for beds or borders, being always in bloom, are a constant source of pleasure.

Pot Plants, each10c;	doz. \$1.00
Small Plants	doz. 35c
Pot Plants, each (Postpaid)15c:	doz. \$1.15

ARAUCARIA. (Norfolk Island Pine.)

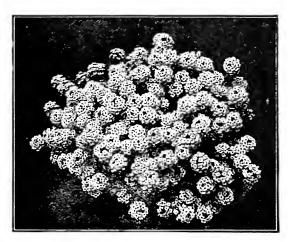

Araucaria.

This is much liked owing to the ease with which it can be grown and moreover it grows to a large size—highly

Nicely grown plants, each.....\$1.00 to \$2.00

ALYSSUM.

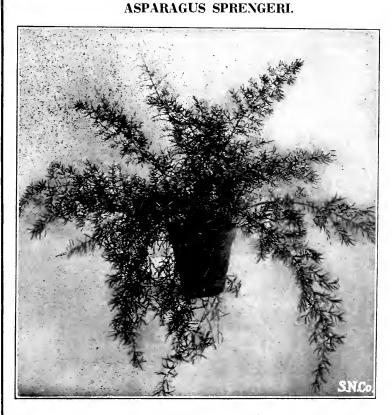

(Little Dorrit.)

Little Dorrit-The single Sweet Alyssum is extensively beds, borders and vases.

AMARYLLIS.

Johnsoni—This is a favorite variety, bearing large trumpet-shaped flowers which measure 6 to 8 inches across. They are of a rich, velvety crimson and each petal has a broad white stripe.

AMETHYST—(See Browallia.)

Asparagus Sprengeri.

BELLIS—(See Daisies.)

BOUGAINVILLEA.

Sanderiana—This variety bears rosy blossoms in abundance. Each, (Postpaid)......30c

CALADIUM.

(Esculentum—Elephant's Ear.)
A very effective plant for borders or for planting out on the lawn. Produces very large leaves of a leathery texture which are borne on long stout stems. Should be planted where it will obtain a good supply of water and an abundance of rich compost.

Each, (Postpaid)......30c, 50c and 75c

CANARYBIRD VINE.

The demand for this lovely climber is always a large one owing to its great suitability for porches and trellises. Most persons prefer plants well started to the uncertainty of seeds planted out of doors.

CANNA.

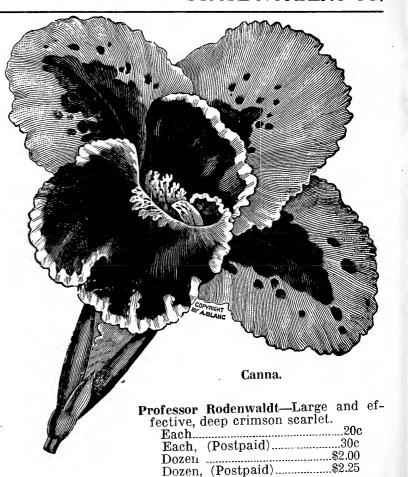

Nothing can excel the beauty and richness of color of this leading bedding plant. Will succeed in any sunny position, but soil should be well prepared before planting. Well-decayed manure of any kind should be used when spading in liberal amounts.

Florence Vaughan—Golden yellow, spotted red. Madame Crozy—Scarlet with golden edge.

Chicago—A pure scarlet.

King Humbert—Orange scarlet; simply magnificent.

Louisiana—A beautiful scarlet, very tall.
Richard Wallace—Yellow, very large blooms.

Carnations

A Section of Our Carnations.

Size, fragrance, wonderful keeping qualities, health and freedom of growth and bloom, with a distinctiveness, is a general claim for our Carnations. The plants sent you are from the same stock from which we get our superior carnations.

New and Standard Varieties. Benora—New variegated variety, white marked with red, long, stiff, erect stems, with large blossoms.

Rosette-The new shade of pink,

Rosette—The new shade of pink, hetween Lawson and Winsor.
White Wonder—"The largest and most productive white," and very popular.
Gloriosa—Pure glistening bright pink and very popular.
White Perfection—One of the property largest of white possess—

very largest of white, possessing a rich fragrance.

White Enchantress—Exact counterpart of famous Enchantress, differing only in color.

Enchantress—A grand Carnation of great size and very pale-pink

Winsor-About two shades lighter pink than the Lawson.

Beacon—One of the best scarlet Carnations we know of.

St. Nicholas-Perfect form and of a brilliant red color.

Commodore—A pleasing shade of

red, blossoms on long stiff stem Mrs. C. W. Ward—Deep pink, but brighter than Lawson.

An excellent border plant and often remains in good condition right to the middle of November.

Chrysanthemums

It is our one great aim to list only varieties which can be successfully grown under ordinary conditions. All the varieties listed here have been especially selected because of their suitability to be grown without any special house facilities.

FANCY SINGLE VARIETIES.

These fill a unique position in that they come between the larger standard varieties and the pompoms. **Emilie—**A soft rose pink and lasts well.

Sylvia Slade-Rosy garnet, with broad white ring around the disc.

Peter Pan-Star shaped, of a delicate fawn color.

Ladysmith-Earliest of all singles, foliage small which is completely covered with a profusion of deep rose pink blossoms. The ideal pot plant.

Merstham White-Blossoms as large as a Shasta Daisy, on beautifully arranged sprays in snow white with yellow

Mary Richardson-Has the color like sunshine on old gold, with a salmon, bronzy tinge.

M. J. Carlisle-Pure white with long, stiff stems.

Eva Reimers-Beautiful terra-cotta shade, with good stiff stems.

CURIOS.

These can be best described as feathery, spidery and thread-like Chrysanthemums.

Cheveaux D'Or-A beautiful golden yellow.

Crimson Tangle—Surface is a velvety crimson. Elegans—Large, blush white single, in narrow florets.

Houppe Fleurie—An oddity in red and yellow.

Mignonette—A lovely frilled yellow.

LARGE FLOWERING VARIETIES.

Pink Gem-A new exhibition variety of a splendid soft, pleasing pink. It is very refined in effect with a splendid finish and foliage.

Virginia Poehlmann—One of the newest and earliest varieties. White with delicate shading of pink in center. Blooms from October.

Golden Glow—A pretty golden shade, flowers from six to eight inches across. October.

Western King—White, November.

Alice Byron—Medium white, November.
White Ivory—Dwarf white, November.
Pink Ivory—Dwarf pink, November.

A. J. Balfour—Dwarf deep pink, November.

Roserie—A very early pink variety, flowering the latter part of September.

Chadwick—Christmas flowering—white, tinged with pink.
Golden Chadwick—Lovely golden

yellow; a new variety; Christmas flowering.

Heston White—Pure white, borne on long, stiff stems: November.

October Sunshine—Yellow and with its sister, October Frost, has proved very popular.

October Frost-A pure glistening

white.

Comoleta—A very clear bright yellow; fine early pot plant. October.

Glory of the Pacific-Very early pink. October.

Pacific Supreme—A very brilliant pink. October.

Advance—One of Smith's earliest of the white varieties. Each, small plants in spring....10c

Larger plants for fall blooming ready about Sept., each 75c, \$1.

Pom - Pom Chrysanthemums —

Small flowering and valuable for cutting. Make dainty and picturesque house plants, the masses of blooms being pink, white, yellow and bronze. They flower in the house from October to November: can be grown and flowered outdoors in summer and roots lifted in fall for the house. We have the following varieties:

Baby-Miniature yellow: flowers half inch in diameter.

Alena—A charming pink.

Elva—Choicest white pom-pom.

Waco-Creamy white.

Acto—Bright rose.

Black Douglas—Rich red.

Klondike—A favorite yellow.

Each, small plants in spring....10c Postpaid.....

Sirs: The trees, currant and strawberry plants received and they are just grand. I am more than pleased with them. I wish to thank you for the complimentary peony plant.

Very respectfully yours,

PHIL. BUCKLEY.

Waterloo, Montana, October 15th, 1913.
Received of the State Nursery Company, the sum of \$15.00, being second premium offered by them for the largest and best display of root crops shown at the Montana State Fair at Helena, 1913.

P. CARNEY. P. CARNEY.

Many thanks.

Dahlias

The varieties of Dahlias listed are the results of a very careful selection as to form and freedom of bloom. with

special pains as to the colors.

We have taken consideration of the varied soils and climates, and the varieties we offer can be depended on to be the leaders for an early and continuous display in the garden. Should our stock of roots be exhausted we supply in their place good, strong 4-inch pot plants. Some people prefer these to the dormant roots.

CULTURE.
Should be planted in a well drained position and where they will receive the greatest amount of sun during the The soil should be made loose and a liberal amount of fertilizer added before planting. Well decayed stable manure is very satisfactory as a fertilizer. Do not set out plants until all danger of frost is over. This should be specially noted in the case of potted plants. Dahlias should be lifted immediately after the first killing frost and stored in a cool place over winter.

SHOW AND DECORATIVE.

Mrs. Winters—Pure snow white; very large. Storm King—White; one of the best.
Gettysburg—Deep glowing scarlet; large and bold.
Penelope—Soft pink.

Mauve—A choice shade of pinkish lavender.
A. D. Livoni—Light pink; very fine for cutting.

Some Specimens.

Type of Show Dahlia.

Oban-Mauve; profuse bloomer. Clifford W. Bruton—Large bright yellow. Esmond—Deep glowing yellow; fine form. Capt. of Maroon—The leader in its color. Red Hussar—A brilliant red with free, long stems. Jack Rose—The best red of all. **Meteor**—Deep red; fine form. Maid of Kent—Cherry red, tipped with white; free.
Lucy Fawcett—Pale yellow, striped with deep pink.
Arabella—Pink, suffused with lemon yellow. Mrs. Dexter—Large orange red.

CACTUS DAHLIAS.

These are of a lighter formation and more suited for use as cut flowers.

CACTUS.

Mt. Blanc—White; very large. Sparkler—Very bright scarlet. Spitfire—A fiery scarlet. Kreimhilda—Free bloomer; pink with white center. Mrs. J. P. Mace—Delicate blush pink and early bloomer. Shooting Star—Pure yellow; very long stems. Jealousy—Clear yellow with very fine form. Earl of Pembroke—Maroon and free bloomer. Brunhilda—Dark maroon. Jamaica—Rich plum color. J. H. Jackson—The best Dahlia yet out; almost black. Reliable—Carmine, suffused with yellow. Standard Bearer—Fiery red and extra free bloomer. Harbor Light—Orange red, overlaid with flame color.

Plants from 3 pots, each......10c; doz. \$1.00 Strong Roots, each 25c Plants from 3-inch pots (Postpaid)15c; doz. \$1.15 Strong Roots, each, (Postpaid) 35c

FROM BASIN, MONTANA State Nursery Co., Helena.
Sirs: The plants received in good condition.
Thanks for extra one sent.
Your struly,
ANNA J. BRIEN. ANNA J. BRIEN.

PEONY-FLOWERED DAHLIAS.

This beautiful type has large artistic flowers, best compared to the semi-double peonies in general form. They all flower very freely and are borne on long, strong stems, making excellent material for cutting.

Queen Wilhelmina—Immense large white, Rheingau—Showy brilliant scarlet.
Andrew Carnegie—Rose pink.

Mrs. Chas. Turner-Large bright yellow.

Geisha—The showiest and most attractive of this type yet introduced; of an effective and rich combination of scarlet and gold.

FERNS

A plant of any kind that does well all the year around is certainly one that finds great popularity. A Fern is a distinct and distinguished plant and if given sufficient attention will always cast an atmosphere of cheerfulness in a room. Our selection is so varied that even the most critical can get satisfaction. Ferns when decorated with a few flowers thrust among their graceful pinnate foliage make a splendid table decoration. The above illustration gives a faint idea of the number we carry, and you can be assured when ordering from us that no better plants are procurable.

.....15c and 25c Each, (Postpaid)......15c and 25c

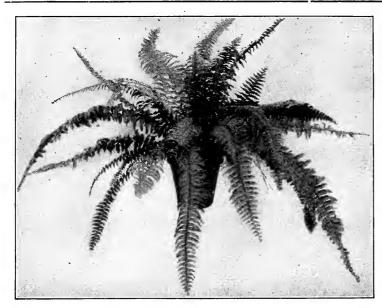

Aspidium Tsussimense.

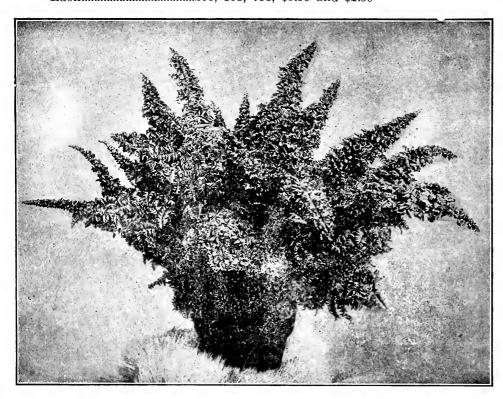

Adiantum Cuneatum.

Boston Fern.

Nephrolepis Bostoniensis (Boston Fern)—Although many new varieties of ferns have been introduced, the Boston Fern still remains the favorite. Each year the demand for this long time favorite is increasing, especially in the larger sizes. It is conceded by all to be the most appropriate fern used for a present, for which purpose we carry a special grade. A fern of any kind, especially the Boston, tends to give an air of refinement to the room. Our stock of Boston Ferns this year is the last word in excellence, and owing to the fact that we are offering nothing but the choicest kinds, expect a heavy demand.

Nephrolepis Elegantissma (The Tarrytown)-Another fancy Boston and a very valuable addition where fine foliage is desired. Each......20c, 35c, 75c, \$1.50 and \$2.50

Nephrolepis Elegantissma.

FEVERFEW.

Bears a mass of double white flowers throughout the season, and lasts well into the fall.

FORGET-ME-NOT.

The old favorite in improved strain.

FUCHSIAS.

The ideal house plant, its beautiful combination of colors and drooping effect One of the early spring

of the blossoms making it a favorite with all. One of the early spring flowering plants for the window. The following varieties will prove very satisfactory for house culture and which we can entirely recommend:

Black Prince—Red single.

Chas. Blanc—Deep red and rose, single.
Col. Marchand—Red and purple, double.

Lustre—White and scarlet, double.

Monstrosa Superba—Double white and red, long flowers.

Mrs. Marshall—White and rose, single.

Mrs. E. G. Hill—White and red, double. Phenomenal—Red and purple, large double. Rifford—Carmine and purplish red, single.

Speciosa—Red tube, corolla dark red, single.

Trophee—Double purple corolla, crimson tube and sepals.

The following four varieties were introduced by us last year and gave complete satisfaction:

Little Beauty—Beautiful red sepals with purple corolla, single.

Lord Byron—Single variety, superb shades of red and deep purple.

Teuner—Very red sepals with light purple corolla.

White Beauty—Red sepals with white corolla, single.

Geraniums

Gen. Wood.

Have you ever tried massing Geraniums as bedding plants in your garden? If not, we strongly advise your Nothing looks finer than a bed of our Geraniums when in bloom. The plants can be lifted in the fall and again fill the need of house plants. As regards beauty in foliage, profuseness of blossoms and strength of plants, our stock is unexcelled. Aside from their use as bedding plants, Geraniums are especially well suited for conservatory decorations or for the winlow garden. For a low table decoration, when used with some fine fern, the blossoms form an exquisite centerpiece.

NEW AND STANDARD VARIETIES.

(Double).

Abbie Schaefer—Red with white eye—flowers in trusses. Banquise—Splendid trusses of white flowers. Berthe de Prisilly—Light pink.

Henry A. Dreer-Clear salmon red, the only one of its shade.

-Rose overlaid violet, white eye.

Hubert Charron—Red shading to white center.

La Favorite-White, one of the best.

Mme. A. Charmet—Bright rose center, petals edged marble. Louis Madeline—A deep pleasing rose color.
M. Jules Dispot—Combination of red, violet and lilac, quite

dark.

Red Wing—Bright scarlet, striking bedder, good for cutting S. A. Nutt-Dark crimson, the best bedder of all. A great demand for this last year.

(Semi-Double).

Divinite—Orange red, thick heavy foliage. Flamme Poitevine-Rose vermilion, large blooms. Jean Viaud-Grand pink bedder.

Jean Madeline-Fine light rose color.

Le Barde—Genuine watermelon color, extraordinary bedder.

Madonna—Snow white, good bedder.

M. Paul Blondeau—Bright rose, very large flower.

(Single).

Col. Gillan—Bright scarlet maroon, markings very brilliant. Gen. Wolseley—Rosy scarlet, showy and effective.

Gen. L. Wood-Bright rose crimson, profuse bloomer.

Mme. L. Moyot—White center, vermilion border. Mme. J. Cibiel—Salmon pink, white eye and border.

Mme. P. Morlan-Rosy salmon, free bloomer.

Mme. Chapeton—Bright rose pink with beautiful white markings.

Michele Savery—Salmon pink, shading to white.

Sentinel—Dark crimson, round flowers. Scavamouche—Salmon, shading to white at tip of petals.

Vermilion—Large brilliant flowers.

Vera Oulianesk—White, clear, round, perfect flowers. **Yvette Prost**—Rosy pink, fine for cutting.

Gladiolus

America.

A very attractive summer flowering bulb and one in which wonderful improvements have been made. To get the very best results they should be planted in a good sandy loam and where they get the most sun possible. Good spreadings of well rotted stable manure is the best of fertilizers. If a succession of blooms are required, make

GLADIOLUS—Continued

the plantings about two weeks apart. Care should be taken in planting, bulbs being set from 4 to 6 inches deep and from 4 to 5 inches apart each way. In the fall, before frost, the bulbs should be lifted, the stems cut off and placed in the cellar or some place away from the frost. The bulbs will then be ready for planting in the spring.

America—Large flower, flesh pink.

Augusta—Pure white, with blue anthers.

Brenchleyensis—Vermilion scarlet.

Childsi Collection—Cannot be beat for garden planting.

Mrs. Francis King—Light scarlet.

Princeps-Rich crimson, with white blotches on lower petals.

Kentia.

ROSES

Radiance.

Our collection of Roses is even larger than it was last year, having introduced those of recent creation, and a careful but wide selection of the standard varieties, with special attention to those embodying delicate shades and peculiar fragrance. The large collection offered enables you to select the superb rich crimson red and pink varieties which make such pleasing contrasts to the yellow and whites.

Tea and Hybrid Tea Roses

Radiance—A hardy ever-blooming. Flowers are a brilliant rosy carmine, borne on long stiff stems with dark green healthy foliage. A very vigorous grower.

My Maryland—A rose of exceptional merit, and has been thoroughly tested. In color it is a brighter pink than the Bridesmaid Rose, and in habit it is more prolific.

Betty—This Irish ever-blooming Hybrid Tea Rose is of a coppery pink shade.

Rhea Reid—Bright red, of strong growth and of purely American origin.

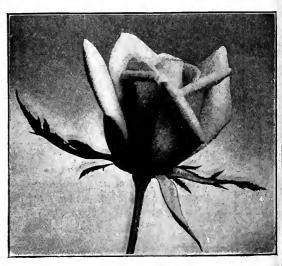

La France—This old variety still maintains its popularity among pink roses.

Bridesmaid—The pink counterpart of the Bride.

Bride—The popular white rose. tince in every respect.

Sunburst—Is extraordinarily vigorous and healthy and belongs to the class of big roses. The color is orange copper or golden orange, all intense shades and extremely brilliant in effect. Does well out of doors and will rank high as a bedder. At the Chicago show, 1910, it was awarded the cup for the best new rose ever before exhibited.

Mrs. Aaron Ward—The habit of this rose is one of the handsomest in the entire rose family, a profusion of bronze green, long pointed foliage, carried quite up to the flower. The color of the bloom is Indian yellow, which lightens, as the rose opens, to a soft fawn color. It is a rose distinct in every respect.

Sunburst.

Sunrise—The foliage of this rose is quite a feature with its autumn coloring. The bloom is a copper yellow.

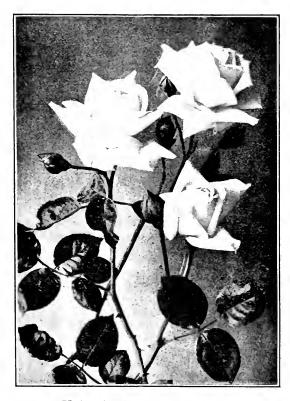

Kate Molton-Soft pink: the Minnesota rose.

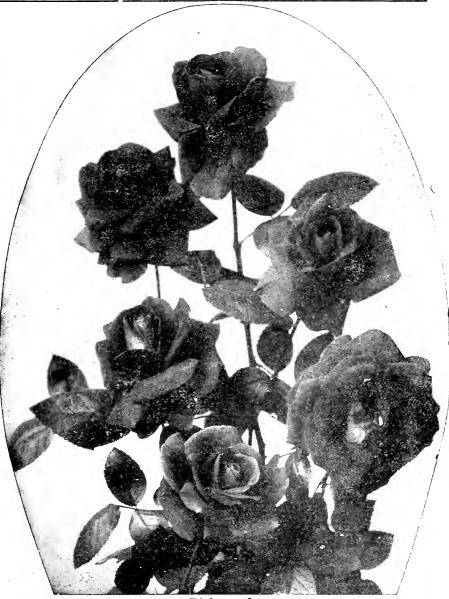

Mrs. Aaron Ward.

Kaiserin Augusta Victoria—Pearly white, fragrant flowers, on long stems; a healthy flower with beautiful foliage.

Perle de Jardins—A perfect yellow rose of exquisite fragrance.

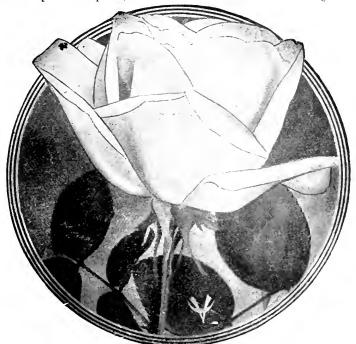

Kaiserin Augusta Victoria.

Richmond.

Richmond—This has proved to be one of our best red roses both indoors and in the garden. It is free-flowering and the color is rich indeed.

Killarney—Pale pink, robust growth, free flowering.

Killarney.

Mme. Chatenay.

Mme. Chatenay—Perpetual bloomer of a delicate pink shade; does well in the open.

Mrs. Geo. Shawyer—The color is of a lovely bright shade of pink.

White Killarney—As an outdoor variety, Killarney (the pink variety) has proved to be one of the very best of roses we know of, plants standing the winter with ordinary protection and producing an abundance of blossoms during the season. White Killarney is identical in habit and growth with the pink.

Each, 3-inch pots	10c; doz. \$1.00

One-year-old plants, each	50c to \$1.00

The Care of Roses

SITUATION.

Best results can be obtained by planting roses where they receive the full benefit of the sun, and sheltered from the north winds. Under no condition should they be planted where they are liable to come into contact with other roots of the larger trees and shrubs.

SOIL.

The best soil for roses is sod from an old pasture, adding some well rotted cow manure.

PLANTING—PREPARATION OF THE BED.

The bed should be prepared a short while before planting, so as to let the soil settle. The depth of the bed depends on the size of the plant, usually about one foot. Fill this with the soil and man-ure, being careful to provide for proper drainage. On receiving the plants, if in a dormant state, the tips of the roots should be cut off about half an inch or more.

if the plants are from pots, they should be set so that the ball of earth is about 1 to 3 inches below the level of the ground.

Great care should be taken to see that the roots are evenly distributed, as upon this detail quantity and quality of blooms will de-A thorough soaking of pend. water should then be given.

PRUNING.

The principal pruning should be done in the spring beginning with the perpetuals first. Climbing roses need no pruning whatever except cutting out the dead wood or cutting back the canes to make the growth conform to some desired effect.

WINTER PROTECTION.
Almost all the roses (the Hardy Yellow varieties are some of the exceptions), should be protected during winter. For this purpose we use long clean straw, bending the rose bushes to the ground and wrapping the straw over them to a thickness of about six inches.

INSECT PESTS.

A weekly application of some insecticide will well repay you in the ultimate growth and health of your roses. It is almost impossible to name any stated mixture. We refer you to our list if Insecticides.

American Beauty

The best of all the outdoor roses and in a class to itself. We suppose we are noted for our stock of this grand rose more than for any other. All our plants of this variety are the acme of strength and healthfulness, and if there is one size more than another on which we pride ourselves, it is the dollar grade. These are very strong and bloom the first are very strong and bloom the lirst season if properly cared for. A light protection in winter is required. Our \$1.00 grade of this rose is unexcelled and strongly advise you to take this size for planting.

(N. B. special price.)

American Beauties.

HARDY PERPETUALS.

Alfred Columb-Clear cherry red, fine flowers. Very fragrant.

Anna de Diesbach-Brilliant rose-a vigorous grower and persistent bloomer.

Black Prince-A deep blackish crimson blossom which comes in profusion. Is surely a beauty, and a welcome addition to its class.

Captain Christy—Delicate pink; very free bloomer.
Coquette des Alps—Pure white, free and fragrant.
Clio—Flesh color flowers with handsome foliage; fragrant.

Frau Karl Druschki-Pure white flowers which often measure 4 to 5 inches across. Perfectly double and extremely fragrant and hardy.

General Jacqueminot-Popularly known as "Gen. Jack."rich scarlet crimson and very satisfactory in the garden. General Washington—Double scarlet flowers; very free. Jubilee—In the front rank of hardy roses; pure red.

Mme. Plantier — The

Persian Yellow.

hardiest rose, requiring no protection in winter. The leading hardy White Rose.

Magna Charta—
Bright pink and carmine. Upright and generally a magnificent rose.

Mrs. John T. Laing— Delicate pink; free bloomer.

Persian Yellow — A hardy yellow rose, bearing hundreds of small yellow roses of great beauty.

Harrison Yellow—The old fashioned hardy yellow.

Paul Neyron—One of the largest roses known; very prolific; deep, clear rose; hardy. Ulrich Brunner—Cherry red—a desirable variety.

Lewistown, Mont. I have used your seeds for three years and am well pleased with them, and expect to give an order soon for small fruits and berries.

MRS. JAS. CRAIG.

BEDDING ROSES.

The three roses following we strongly recommend for bedding purposes:

Dorothy Perkins-Color shell pink.

Crimson Rambler -Glowing crimson: hardy and covered from the ground to the tips with blossoms.

BABY RAMBLERS

Red Baby Rambler— (Mme. Norbert Levavasseur). Dwarf bedding rose of excellent habit: flowers are bright crimson, similar to the Crimson Rambler, but this variety is not a climber. Hardy and very free flower-ing from spring till autumn and then under glass continues the year through.

White Baby Rambler -Identical with the red in habit.

Pink Baby Rambler-Similar to the other two Ramblers save in color.

Madam Cecile Brunner-Blush shaded salmon pink, distinct and very pretty.

Dorothy Perkins.

Gruss an Teplitz—The summer-blooming rose—color a rich velvety crimson. This with the Soupert and Hermosa blossom all the season, even the smallest plants being covered with flowers.

Clothilde Soupert-Very free blooming; pearly white, shad-

ing to rosy pink.

Hermosa—Pink and free flowering.

Baltimore Belle—A splendid climber for Montana, perfectly hardy; bright pink.

Special Request to Our Customers

We would esteem it a great favor if you will kindly let us know if you make any change in your address. Kindly give your new address and also your former address.

This will insure you getting our catalogs regularly.

HARDY PERENNIALS

From a small beginning 25 years ago our Perennial Department has developed into one of the largest Today we are enabled to offer you the widest and largest assortment of Perennials branches of our business. This has been accomplished solely on the broad principal of giving our customers in the Great Northwest. full value for their money and supplying only the very best grade of stock.

Our wide circle of patrons are also at an advantage in that we are GROWERS OF THE PEREN-

NIALS THAT WE SELL and are thus enabled to give better values than if we were simply buyers.

For many years we have been supplying the most critical amateur and professional gardeners in this state with their stock of perennial plants and the steady growth in our business during this period has been conclusive evidence that OUR PLANTS ARE RELIABLE AND OUR CUSTOMERS SATISFIED.

WE ARE THE NORTHWEST LEADERS IN PERENNIALS. No plants are listed in our lists as hardy that have not been thoroughly proved to be adaptable to the Northwest. No lawn of the ornamental kind is complete without a liberal proportion of hardy flowering plants. The rapid growth they make, combined with the small amount of care they require, makes them a general favorite. By judicious selection your garden can have plants in bloom all the summer. Another important factor is their use for indoor decorations, providing exquisite flowers six months out of the year. LOOK THROUGH OUR ASSORTMENT OF PERENNIALS, PLACE YOUR ORDER WITH US AND BE ASSURED OF ENTIRE SATISFACTION

Bascom, Mont., Sept. 21, 1913.

State Nursery Co., Helena, Mont.

State Nursery Co., Helena, Mont.

Dear Sirs: This is to let you know that I was well pleased with the seeds I bought of you this spring, 1913. The New Northwest musk melons were ripe the middle of August, and were a bumper crop. The garden peas flooded us with peas, so I was ashamed to look a pea in the face. Cucumbers, a little million; beets, excellent, both stock and table fine; sweet corn, all kinds did well; lettuce did well. We had a fierce hall that fixed the beans and cabbage and cauliflower. Onion seed and sets did excellent; parsnips and parsley did excellent; pumpkins killed by hail; radishes and salsify excellent; rhubarb seed grew nicely; spinach and rutabagas excellent. All the above were grown on heavy soil. I would have entered my musk melons at the State Fair, but some friend of mine who also had an eye to beauty purloined the prize winners one day while I was away, as the road runs through my ranch. When you get your seed oats for 1914 send me a sample. sample.

Very truly yours,

H. A. LONGSTAFF.

Valley Ranch.

DELPHINIUM (Larkspur).

Delphinium—(Larkspur).

Amos Perry—Semi-double flowers of rich rosy mauve. Amyas Leigh—Rich sky blue, inner petals rosy plum, white center, in large, loosely arranged spikes.

Bella Donna—Turquoise blue.

Cashmerianum—Exquisite celestian blue, blossoms in corymbs of 6 inches or more.

Duke of Connaught—A beautiful Harvard blue.

Formosum—The old popular dark blue.

Madam Violet Geslin—Semi-double, of a clear blue with layender center.

HELIOPSIS.

Pitcheriana (Orange Sun Flower)-Four feet high. Blossoms useful for cut flower purposes.

HEMEROCALLAS—(Lemon or Day Lily). (See Lilies, Hardy).

HOLLYHOCKS.

Hollyhocks in Our Nursery.

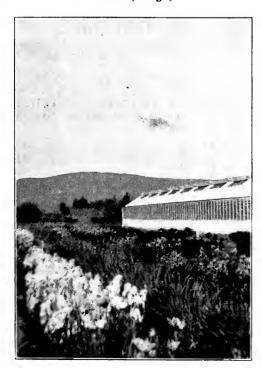

Hollyhocks.

The Hollyhocks are an indispensable border plant because of their peculiar character of breaking up any set effect and giving an air of stateliness to the lawn. As hedge plants they give an admirable effect with their long towering spikes of beautiful flowers. Colors, double white, pink, salmon, yellow, black, red and maroon. A valuable addition to any lawn and well worth the trying.

IBERIS—(Hardy Candytuft). Sempervirens-White, dwarf habit.

Each....15c; doz. \$1.50

IRIS—(Flags).

Iris.

There are very few hardy plants which present such a variety of colors and beauty of flowers as do the Iris. Are most suitable for border plants or massing, the flowers standing well above the thick set foliage.

Celeste—Lavender blue.

Florentina Alba—White. Honorabilis—Red and yellow.

Queen of May-A lovely soft rose lilac.

Mme. Chereau—Pure white edged with light blue.

Mrs. Darwin—White and violet.

Bridesmaid—White faintly stained pale lavender.

Canary Bird—Rich canary yellow.

Sampson—Golden yellow.

S. N. Co.'s "Peerless" Collection of Iris, No. 1-This collection of 12 varieties are the very finest of their particular type and color. Includes the following—Queen Emma, Purple Queen, Flyrica, Mauve Queen, Plicata Chlorus, Benacensis, Emma, Whitmanana, Hamlet, Jennie Lund, Folida, Odarapissima.

S. N. Co.'s "Peerless" Collection of Iris No. 2—The same in quality as No. 1, includes Argus Rochii, Kamuouesis, Horace Darwin, Mme. Trufford, Mme. Gayselle, Van Oldenbornessold, Benacensis, Folad Tupse, Ferer Morell, Khorput, Sampson, Canary Bird.
Either collection, (Postpaid) \$1.75

State Nursery Co., Helena.
Sirs: Received your plants O. K., and am very pleased pleased.

Yours truly, CHAS. CONSONI.

Our Introductory Collection of Hardy Perennials

Many people are not acquainted with all the perennials and we are prepared, for those who would like to try the various sorts, to make up three collections of perennials of our own selection. These collections will include first class plants in varieties that will follow each other in bloom, so that you will have flowers in your garden from the first till the last of the season. THIS IS A UNIQUE OFFER AND AS THE PRICE AND QUALITY ARE BOTH RIGHT, WE ANTICIPATE MANY OF OUR FRIENDS PUTTING THEMSELVES IN OUR HANDS FOR SELECTING THEIR PERENNIALS THIS SEASON. WE KNOW THE STATE AND WE KNOW THE PE-**RENNIALS!**

PENTSTEMON.

A most useful and showy perennial, either for mass planting, the rockery or border work. In some respects they rival Phlox, Petunias, etc., especially for bedding

Barbatus Torryeii—Scarlet spikes, height 3 feet. Digitalis—Purple and white.

Sensation-A beautiful strain, bearing spikes of large gloxinia like flowers in a large variety of colors, including rose, cherry, crimson, purple and lilac.

PHLOX, HARDY.
Among the whole list of perennials there is no plant of more importance than the Phlox, succeeding in almost any soil and requiring the least amount of attention. Have you ever tried a border of Phlox? For example, form the outer border with purple, with occasional bunches of white, and massing the inner border with bunches of the different shades. This will give you a "pride spot" of the garden.

Aglae Adanson—Snow white, red eye. Very large. F. G. Von Lassburg—The purest and largest white known. Geo. A. Strohlein—Bright scarlet with crimson red eye. Louis Blanc—Reddish-violet with purple shadings and

darker eye. One of the best dark varieties.

Edmund Rostand—Reddish violet, shading brighter toward the center of petals.

Mme. Paul Dutrie—Delicate lilac-rose, immense flowers. Prosper Henry—White with bright red center; dwarf growth.

Siebold—Bright scarlet and one of the very best of its class.

Vesuvius—Red with bright purple eye. Quite showy. Von Hochberg—The finest crimson.

Each, (Postpaid).......20c; doz. \$1.75 NEW VARIETIES. Elizabeth Campbell—Very bright salmon pink with dark

Europa—A white variety with a decided crimson carmine

eye. The individual trusses are very large.

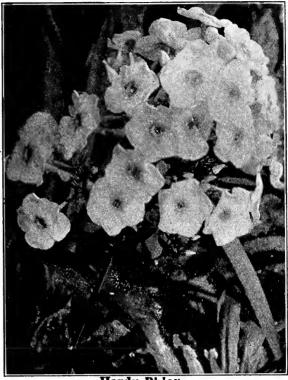

Bridesmaid—Pure white with large crimson carmine eye. Henry Murger-White with crimson carmine center.

Goliath-A perfect giant in height; massive panicles of rich crimson-carmine with deeper eye.

Pantheon-Bright carmine rose.

R. P. Struthers-Bright rosy carmine, with claret red eye. De Miribel—White suffused with rosy scarlet; crimson eye.

Each......20c; doz. \$2.00 Each, (Postpaid) 25c; doz. \$2.25

Hardy Phlox.

PLATYCODON.

The Platycodons are of the same family as the Campanulas, of upright habit and covered with a profusion of blossoms. Do best if planted in a rich soil; should be covered in winter.

Grandiflorum—Deep blue cupped, star shaped flowers. Album—Pure white in the same form as the Grandiflorum.

Ovando, Mont., January 10, 1912.

State Nursery Co.

Dear Sirs: The wheat I got from you was the best in the valley, it yielded 35 bushels to the acre, dry land.

Yours truly,

MRS. GEO. BUERMAN.

PHYSOSTEGIA—(Virginia Heather).
A beautiful flowering perennial forming bushes 3 feet high with spikes of delicate pink flowers.

Each.....15c; doz. \$1.50 Postpaid.....20c; doz. \$1.75

PINKS, HARDY GARDEN.
Abbotsford—Deeply fringed flowers
of a most delicate shade.
Carminia—Bright rose carmine flow-

Elsie-Bright rose, maroon center. Excelsior-Light rose pink, shaded darker.

Her Majesty-Large flowers of purest white.

Mrs. Sinkens-Highly interesting in white.

Red Clove-Bright red flowers and very fragrant.

Hardy Garden Pinks.

POPPY.

Oriental Poppies in Our Nursery.

Poppies still retain their popularity and we sell more of them every season. Iceland-White, yellow and orange flowers. Oriental—The largest of the red poppies. Oriental Hybrids—Various colored poppies of great size.

PYRETHRUM.

A Cluster of Pyrethrum in Our Nursery.

Too much cannot be said about this superb perennial, which will thrive under almost any conditions. Splendid for cutting, lasting a week in good condition.

Hybridum, Mixed (Single)—In the choicest shades of red

and pink. June flowering.

Uliginosum—Grows 4 to 5 feet high, covered with large Marguerite-like flowers. The individual flowers are often 4 to 5 inches across and borne on a good stiff stem.

RUDBECKIA.

Golden Glow—This never seems to lose its popularity—it is very showy and easily managed.

Rudbekia Purpurea—Not as well known as the Golden Glow, but one or more should be grown as a contrast.

SAPONARIA.

Caucasica—Beautifully formed flowers, white, tinted rose color.

SHASTA DAISY—(See Chrysanthemum Maximum).

STOKESIA—(Cornflower Aster). Cyanea—Lavender-blue Cornflower-like blossoms borne on long stiff stems. Does well in a sunny position and is adapted for both border or massing.

SWEET ROCKET—(Hesperis).
Fine for borders, producing strong spikes of showy white, lilac and purple fragrant flowers.

SWEET WILLIAM—(See Dianthus).

TROLLIUS (or Globe Flower).35c Each, (Postpaid)......50c

VINCA (or Periwinkle).

Minor—Also known as Trailing Myrtle. This pretty evergreen is extensively used for covering graves, producing in the spring an abundance of blue flowers.

Each 25c and 50c Each, (Postpaid) 35c and 65c

YUCCA.

Filamentosa—Used for large vases, centers of lawns or any other place where its beautiful broad sword-like foliage and large spikes of fragrant blossoms can be shown to advantage. Extra large plants established in beds in order that they may blossom the first year after planting.

Each ... Each, (Postpaid) \$1.25

Hardy Perennials suitable for shady positions.

There are but few perennials that will thrive in a shady position.

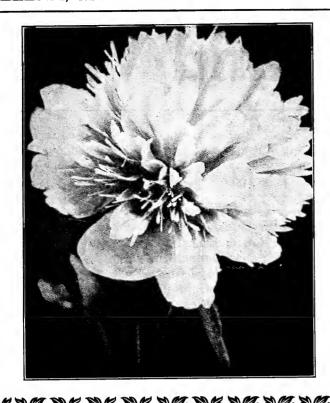

While the sorts listed below are suited for this purpose, they will do equally as well in a sunny position.

DIELYTRA—(Bleeding Heart).

HEMEROCALLIS—(Day Lily).

TROLLIUS—(Globe Flower).

VINCA—(Periwinkle or Trailing Myrtle).

PEONIES.

Peonies have been called the "Queen of Spring Flowers," and if seen massed in beds they fully bear out the name. Their brilliant hues and beautiful shapes make them an essential item in the perennial border.

Lady Leonora Bramwell—A beautiful silvery rose.

Triumph du Nord—Pink, shaded violet.

Officinalis Rubra—The old fashioned crimson Peony, rich

in color and very early.

Felix Crousse—Brilliant red and large—late mid-season.
Chinese Rubra—A pleasing red—very popular.
Louis Renault—Double pink.
Isabelle Karletzhy—A charming rose—large and full.
Princess Mathilde—Clear pink.

Sydonic—An early pale rose.

Imbricata Alba—A favorite white.

Festive Maxima—Creamy white with carmine center. Rosea Grandiflora—Bright rose, fragrant, free bloomer and

of strong growth.

Baron Rothschild—Deep rose, mid-season. Long stem. free bloomer.

Humei—An exquisitely fragrant Peony of deep rose—large bloom.

Daubenton—Purplish lilac-rose.

L'Esperance—Deep rose with white crinkled tips—early. Achille Grandiflora—Delicate rose with flesh-pink center.

A PERSONAL INVITATION TO YOU

Our customers are our friends and we wish that all our friends could visit our Green Houses and Nursery Grounds. When in the Capital City, look for the car marked NURSERY.

The photograph above is a portion of the main entrance, and if seen during the bloom-

ing season is alone well worth the trip. The entire plant is free to inspection.

The Green Houses are always "in order" and hundreds remark on the cleanliness of our plant. We want you to see and be interested in what we are doing for the furtherance of Montana grown stock. We trust that YOU will consider this a personal invitation.

STATE NURSERY CO.

Hardy Shrubs and Vines

To win and hold the confidence of our customers has been our aim for years, our tremendous business success has been due to satisfied patrons, its future depends upon your approval. We aim to give every order, no matter how small or how large, prompt and careful attention. Our 25 years of experience in Montana is at your pleasure and in no business is experience of more value than in ours.

If you are the customer looking for quality in shrubs or vines, we want your trade. We make this department a specialty, and you can be positive that whatever is procured from us is of the best in every respect. Our facilities for growing shrubs or vines is all that could be desired; soil and location makes our stock look the very picture of health and hardiness. WE grow Montana shrubs for Montana people. This class fills rather a unique place in the planting of a lawn, in that it comes between the smaller perennials and the shade trees. shrubby growth and hardiness places them in a special place in landscape work. Unlimited variety of size and color makes them extremely useful in any combination desired. In almost all the varieties we have fine specimens at a little higher price, and if you are looking for something extraordinarily fine, place your order with us.

BERBERIS—(Barberry).

Barberry.

Thunbergii or Japanese—This grows in the form of a dense bush, bearing yellow flowers and then scarlet berries. In Autumn, the foliage assumes a gorgeous coloring of gold and scarlet. In quantity, the variety forms an impenetrable hedge and is exceptionally valuable for this

Common—The well known variety with yellow flowers and red berries. The latter are largely used for jelly.

CHINESE MATRIMONY VINE.
This is a medium sized creeper or trailer, with foliage of a light grayish green. For about four months these masses of foliage variegate from colors of pink to purple.

In the fall its branches are covered with bright fruits.

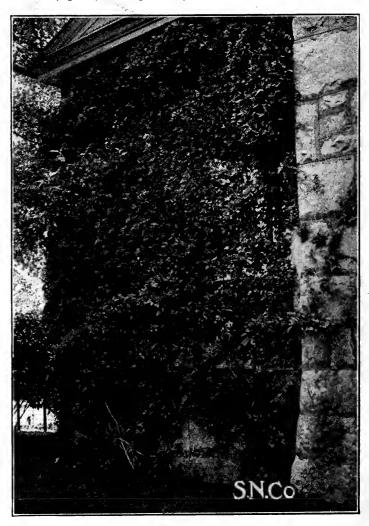

Each 25c and 50c Postpaid......35c and 65c

CLEMATIS.

One of the most popular of all trailing shrubs used for covering house fronts or drooping over retaining walls. When in bloom the dense sheets of blossoms, with their most pleasing fragrance, gives a beauty indescribable. Their variety of size, coupled with a wealth of bloom, puts them in a unique position.

Native—We have propagated this beautiful vine in great quantity, believing that when it is better known it will be grown wherever a vine is needed. It ranks with the Virginia Creeper in worth and bears magnificent foliage and masses of sweet scented flowers.

Each, good, strong roots, 50c; Postpaid

Native Clematis.

Paniculata—White; grows anywhere with rapidity and profuse blooming; flowers very fragrant. Each, field grown, 50c; Postpaid.....

Henryi—White, blossoming in summer and early fall.

Jackmani—Purple. This is the best of the large flowering varieties, being very hardy and prolific.

Madame Edouard Andre—Red.

CORNUS—(Dogwood).
Our Native Dogwood is a very ornamental shrub and in rows it is an effective windbreak. White flowers followed by white berries.

Postpaid......65c

ELDERBERRY—(See Sambucus).

FLOWERING CRAB.

Medium sized tree, perfectly hardy, producing an abundance of delicate pink blossoms of great fragrance.

HONEYSUCKLES.

The Honeysuckles have always been treasured and we have both the climbing and the less well-known bush varieties.

alleana—(Monthly). The old-time sort of climbing habit with white and yellow flowers of delicious scent. Halleana-

Coccinea—The red climbing variety.

Each, either variety......50c and 75c Postpaid65c and 90c

Russian Honeysuckle.

Russian, Bush or Tartarian-One of the best shrubs. Many people think it is a vine, but it is a distinct shrub as much as a Lilac is. If you have not seen this, we strongly recommend it to you. For planting against a wall or anything to be hidden, it is unsurpassed. For hedges it is also of great service. During the Spring months it is entirely covered with white and pink blossoms. It rivals the Lilac in beauty and excels it in hardiness.

Each.......25c, 50c and \$1.00 Large specimens \$2.00

HOP ROOTS.

For quickness in covering residences, fences arbors, etc., the Hop Root leads. Last year our sale was far in excess of any year. peculiar shade of its foliage, extreme hardiness and quick growth makes it a very desirable vine. We grow able vine. We grow these by the thousand to meet an ever increasing demand.

Each......20c; doz. \$2.00 Postpaid..30c; doz. \$2.25

Our Hops.

HYDRANGEA.

Hydrangeas are undoubtedly one of the best known and most popular flowering shrub grown. The flowers, which come in thick masses, have a peculiarity all of their own.

Hydrangea Arborescens—(See also Plant Department).

This is a hardy shrub, but needs a covering of straw in winter.

Paniculata Grandiflora-A profuse bloomer, and very popular. The flowers are borne in pyramidal panicles, which when they first open are white, but make a grad-

Postpaid......65c

Lilacs

These shrubs have been planted for generations, but are as great a favorite today as ever. Our stock of Lilacs in all phases is complete and without rival in the northwest. The shrubs never looked better and the prices, compared with the quality and size of the trees, are unequalled. Our selection includes all the standard varieties and the more recent introductions. The graceful, strong and hardy Lilacs sent out by us cannot be beaten. Our Lilacs are Montana grown and adapted to the Northwest climate.

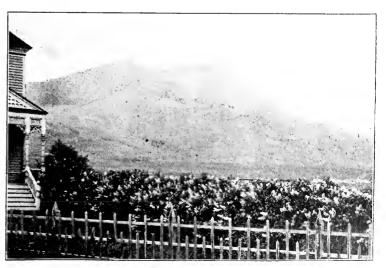

BUSH LILACS.

white blooms.

Each \$1.00

Persian—The preceding picture will give you a good idea of this Lilac. The blooms are a pretty lilac shade.

Each \$1.00

A Hedge of Lilacs.

Japan-A distinct variety, both in bloom and growth; creamy white flowers, late in season. Each, \$1 and \$2.00

Charles X.—Another improved Lilac with reddish purple flowers. (We have this and Madame Lemoine in the tree shape also. Each.....\$1.00

Marie Legraye—Creamy white flowers of great size and beauty. Each....\$1.00

TREE LILAC.

The Tree Lilac is one of the many improvements that have been made on the "old purple" and has permanently set the Lilac in the front rank as an ornamental shrub. The Tree Lilac was introduced to Montana by us seven years ago and has proved a decided success. We are expecting a heavy demand this year and our supply will be the last word in Excellence.

Tree Lilac.

Double Varieties.

Alphonse Lavalee—Blue, shading to violet. Large panicles.
Dr. Troyanowsky—Mauve; enormous panicles.
Lamarck—Rosy lilac, very large panicles.
Leon Simon—Bluish crimson; compact blooms.

Madame Lemoine—Superb double white.

Marc Michaeli—Clear Lilac blue; enormous double flowers.

Michael Buchner—Dwarf; pale lilac; very double.

Single Varieties.
Charles X.—Purplish red.

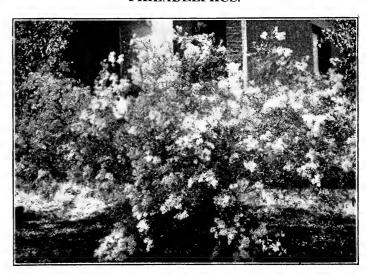

Colmariensis—Large pale blue flowers, fine foliage.

Japonica—A late creamy white variety. Lilarosa—Silvery pink; a favorite.

Souvenir de Ludwig Spaeth—Dark purplish red; large flowers.

Viviand-morels-Light bluish Lilac, white center; good all

PHILADELPHUS.

Philadelphus.

Philadelphus-(Syringa or Mock Orange). A beautiful and well known flowering shrub; a native and therefore quite hardy; very rich fragrance.

Each 25c and 50c Postpaid......35c and 65c

RIBES—(Currant).

A most desirable ornamental shrub. They are easily grown and vigorous, with the most beautiful foliage and

SIBERIAN PEA—(Caragana).

Notwithstanding recent introductions to this and similar shrubs, this favorite holds its own. It bears yellow, pealike blossoms during May and June.

Postpaid......70c

SNOWBERRY.

One of its most valuable features is the succession of pure white berries immediately after the blooming is finished.

SPIREA.

The Spireas are an adornment to any garden. The Bridal Wreath is not absolutely hardy in all parts of the state, but it is so beautiful that we cannot refrain from listing it. It can, however, be easily protected in winter by a light wrapping of burlap or paper.

Bridal Wreath—Bears a profusion of small white flowers and among its many uses, is in considerable vogue for cemeteries.

Sorbifolia (Ash leaved Spirea)—Beautiful foliage and white flowers.

Each 25c and 50c Postpaid 35c and 70c

VIRGINIA CREEPER.

Our sale of this grand climber is more than equal to the total sales of all the rest. Its peculiar hardiness and adaptability in climbing stone or brick places it in the forefront of all our vines. For beauty of foliage nothing can surpass the ornamental shining green leaves of the Virginia Creeper. Helena homes are our greatest advertisement for this vine, and the hardy growth they make in the above city proves their adaptability to Montana. In the Autumn the whole vine is covered with beautifully colored foliage.

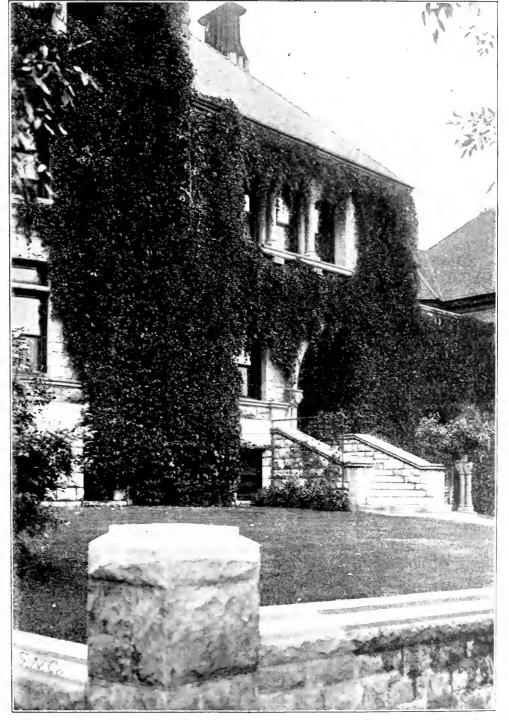

SOLANUM-(German Bittersweet).

A fine scrambling vine of rapid growth and clinging habit. Foliage is a beautiful dark green. In the summer it is covered with violet-purple blossoms and bright green fruits, which turn to a brilliant scarlet. Very hardy.

A BLOCK OF TREES IN OUR NURSERY.

Shade and Ornamental Trees

State Nursery grown trees are emblematic of the best of what the Northwest can produce and the numerous unsolicited testimonials we receive bear out that fact. Our location is ideal, with soil, that gives all our trees the one essential requirement, a good strong fibrous root.

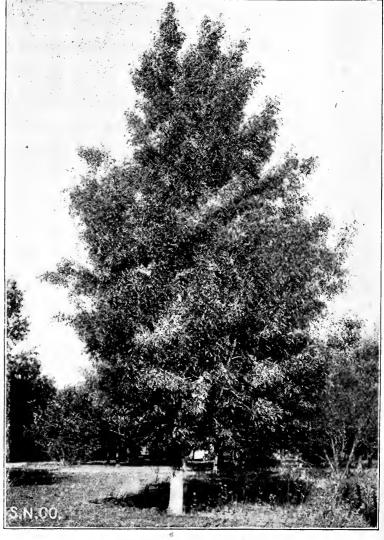

Our trees are being planted for parking not only by private persons but by many of the cities throughout the State.

The ideal packing is our specialty, the trees reaching you in practically the same condition as when they were dug. All the trees are wrapped the full length in burlap and the roots completely covered with wet moss.

For shipping facilities we lead! If any stock will grow in Montana, it is ours.

We guarantee all stock true to name, but accept no responsibility other than replacing, in case we make one of those errors which creep into every busy season.

It is always advisable to ship nursery stock by express because of their reaching you much more quickly than by freight. It costs a little more but it will pay you. Large shipments we are compelled to send by freight, but these shipments are packed with unusual precaution as to the wrapping and moistening of the roots.

American White Ash.

ASH—(American White).
The best hardwood tree for Montana. The 7 to 8 foot tree is generally planted for street parkings and we invite

BALM OF GILEAD.
Well matured trees; have the most exquisite dark and rich shades of foliage. This tree takes root easily and

BOX ELDER.

Often called the Ash Leaved Maple. Requires but moderately rich soil and of a very vigorous growth. Has been so popularly planted that it needs no description.

BIRCH—(Cut Leaved Weeping).

Cut Leaved Weeping Birch.

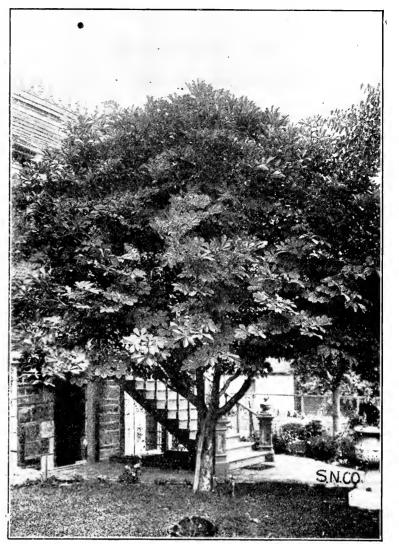

The picturesque beauty of its bark and the delicately thin cut foliage make it very popular. From the above it will be seen that the tree is of a very graceful form, and one we consider well worth possessing.

Each, 4 to 5 ft.................\$1.00; doz. \$10.00

Each, 6 to 7 ft............\$2.00; doz. \$20.00

Its tall, graceful and majestic habit, with long spreading branches, make it a very beautiful tree. We sell large numbers of this tree every year and beautiful specimens can be seen in nearly every city.

Each, 6 to 8 ft......\$1.00 and \$2.00

Horse Chestnut.

HORSE CHESTNUT.

This distinct variety is one of the most beautiful of our trees. Its thickly set foliage, combined with the complete form it takes, makes it well worth trying. Each\$1.00 Dozen\$10.00

MOUNTAIN ASH

(Rowanberry).
These are one of the most beautiful of our ornamental trees. Their luxuriant pinate and beautiful foliage gives them a very soft appearance.

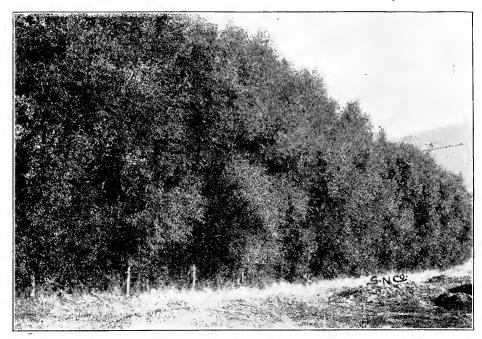

European Mountain Ash — Extremely hardy with a fine soft shade of green foliage. Bears white blossoms in the Spring and red berries in the Fall. making it an ornamental tree throughout season.

Mountain Ash.

Oak Leaved Mountain Ash—A pyramidal growth with foliage resembling that of the oak.

Each, either variety, 5 to 6 ft......50c; doz. \$5.00 Each, either variety, 6 to 8 ft......\$1.00; doz. \$10.00

Russian Willows.

MAPLE.

The Maples seem to be increasing in popularity, partly owing to the profusion of their foliage and quick upright growth.

Norway Maple—An excellent shade tree, the foliage in the Autumn assuming the most striking tints of yellow.

Each, 5 to 6 ft		50c	doz. \$5.00
Each, 6 to 7	`t	75c;	doz. \$8.00
Each, 7 to 9 f	t	\$1.00;	doz. \$10.00

Silver Leaved Maple—Has many admirers. Very slender branches, but uniform.

Each, 6 to 8 ft......\$1.00; doz. \$10.00

Hard Maple—Very graceful.

Each, 6 to 8 ft......\$1.00; doz. \$10.00

POPLARS.

Thriving in almost any soil, completely hardy and of rapid growth, make the Poplar a very distinct and desirable tree. We have a very fine grade of stock this year and expect a heavy demand. We have trees of the Lombardly variety which have been in our Nursery for 30 years, showing their permanency and hardiness.

Canada Poplar—Can be used as a specimen or in groups; a rapid grower and in great demand.

rapid grower and in gre	
Each, 5 to 6 ft	50c; doz. \$5.00
Each, 6 to 8 ft	\$1.00; doz. \$10.00
Each, 8 to 10 ft	\$1.50; doz. \$15.00
	18 ft\$3 to \$6

Carolina Poplar—Large foliage, profusely borne, of a bright and glossy color. A most desirable tree and one of which we have a great sale.

Silver Leaved Poplar—One of the very hardiest shade trees—possibly the hardiest; very pretty.

Lombardy Poplar—Its erect, column-like form and rapid and permanent growth make it an indispensable land-scape tree.

WILLOWS.

We offer these ornamental trees in both variety and quantity of good size and form. Of rapid growth and dependable hardiness, they are fast becoming favorites.

Golden Willow—Its peculiarly bright golden color makes it a striking contrast in any collection.

Each,	4	to	5	ft		25c;	doz	. \$2.50
Each,

Each.	8	t.o	1() ft	\$1.0	00; c	loz.	\$10.00

Laurel Leaved Willow—Of very upright growth with a round head. The foliage is a fine shade of deep, shining green.

Russian Willow—Extensively used in the northern parts of Montana as windbreaks, the above picture depicting the trees in this capacity in our nursery.

Each, 3 to 4 ft......20c; doz. \$2.00; hundred, \$10.00.

Each, 5 to 6 ft.........50e; doz. \$5.00 Each, 6 to 7 ft......75c; doz. \$8.00 Each, 8 to 9 ft......\$1.00; doz. \$10.00

One-Year-Old Willows—Suitable for wind-breaks, 2 to 4 feet high.

Per	100	\$5.00
Per	1,000	\$30.00

TREE CUTTINGS

Two years ago we listed tree cuttings for the first time and met with great success. These cuttings are about six inches long and in bundles of 100. Can be obtained in nearly all the ornamental and shade tree varieties listed.

Per Hundred.....\$1.50; per 1,000, \$10.00

Silver Leaved Poplar.

Evergreens

Very valuable for mixed planting and with the larger shade trees gives the unique "forest air" to the landscape garden. Their low shrub-like growth and dainty shades make them very pleasing to the eye.

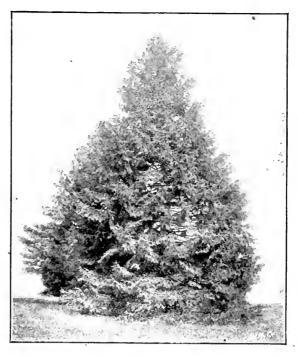

make them very pleasing to the eye.

Arbor Vitae (American)—Its beautiful pyramidal habit and bright healthy green foliage sets it apart as an essential ornamental evergreen.

Spruce

The Spruce is by far the most popularly planted, being thought by many the best of the evergreens. Its dense foliage and conical shape makes it very valuable for both ornamentation and windbreaks.

foliage. Each \$1.00 and \$2.00 Write for special prices on specimen trees. Our prices will be interesting.

Spruce.

PLANTING TREES

Poplars in Our Nursery.

On receiving Trees unpack without delay, cover the roots with earth and water freely.

The roots should never be exposed to the air after wrapping is removed.

All bruised ends of roots should be trimmed. When planting do not expose roots by taking more than one tree at a time.

All Trees should be planted about 2 inches deeper than they were at the nursery. (The mark at the base determines this depth.)

Soil should be firmly packed around the roots. This is an essential point.

Complete by well watering.

Fruit Trees @ Bushes

We are the specialists in Fruit Trees for the Private Individual.

and our stock is grown more especially for this class of trade. Our list is somewhat limited, because we offer only what we consider is essentially adapted to the Montana climate. Montana is a cold state and it is useless as we have proved from our experience—to expect varieties that do well in other milder locations to stand our winters. If, however, you are desirous of getting something we do not list, let us know, and we will supply you, at the same time giving you our candid advice. All the trees listed here we can honestly recommend for hardiness and good value, in all the best of the standard varieties. Our experience is offered to you in this catalog in its entirety.

Our Apple Trees at the prices quoted cannot be beat as regards quality, and the size of the root on our \$1 grade is our great distinguishing feature. Quality counts with us coupled with a minimum price: All our apples from 75c up, are from 2 to 4 years old, but if you desire something larger kindly let us know. We have some very fine speciments at moderate prices.

Our unique and unusual size for the price is the \$1 grade. This grade is something exceptional, and one which will give entire satisfaction.

Remember that a small number of good trees will give more satisfaction than any quantity of inferior stock. It pays to buy the best.

Duchess.

APPLES

Our Apple Trees are the very highest in vigor. Grown in a medium light soil, they have that one essential thing, a strong fibrous root growth.

Wealthy—Does well wherever grown—leading winter variety for Montana. Large red fruit.

Duchess of Oldenburg-One of the hardiest and most productive of our large apples. Fruit streaked red. (Fall variety).

Bismarck-Short stocky tree with thick, healthy foliagefruit large, yellow, with red cheek; flesh tender and pleasantly acid. (Fall variety).

Yellow Transparent—Earliest and of splendid quality, and

does well in any exposed situation. Fruit light yellow. Fameuse (Snow)—A late Fall variety, not large fruit but plenty of it and the quality is grand—dark crimson with snow-white flesh.

McIntosh Red—We have this well-known variety in first class stock.

Alexander—Fall variety—beautifully formed conical fruit and fairly productive. Origin Russia.

W. Greening—Origin Wisconsin. Fruit a yellowish Green. A Winter variety.

Gano-A rival of the well-known Ben Davis. The tree is a very vigorous grower. Origin Tennessee. variety.

Ben Davis—Too well known to need any description. Yellowish green fruit. (Late Winter).

Red Astrachan—Comes into bearing very early. Fruit subacid and medium. Origin Russia. (Summer variety). Jonathan—A delicious and strictly dessert fruit. New York. (Winter variety).

Hibernal—One of the hardiest, and will do splendidly in exposed places. Origin Russia. (Fall variety).

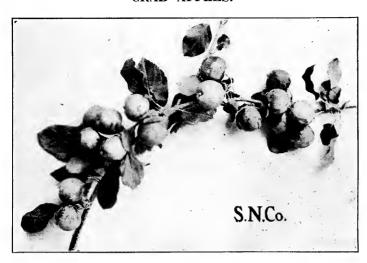

McMahon-Fruit a pale yellow. Origin Wisconsin. (Winter variety.

Our special size......\$1.00; doz. \$10.00

A Transparent Apple in the Fruiting Season.

CRAB APPLES.

A Splendid Sample Branch.

Hyslop—A very beautiful Crab—Large, deep crimson fruit. Martha—Glossy yellow fruit, shaded red.

Transcendent—Very productive; fruit yellow with red cheek. For young trees of this variety, see under "Young Stock" following. Especially adapted for non-irrigated places.

Whitney—Bears quantities of very large fruit. Good both for eating and cooking. Very hardy.

Crab Apple Tree in Blossom.

CHERRIES

Black Tartarian—This finds considerable favor in many quarters; we list it but it is not hardy with us.

Early Richmond—A splendid variety in dark red.

English Morello—A blackish red sort, acid and juicy. Each, any variety......\$1.00; doz. \$10.00

Rocky Mountain—Grows to a height of four feet and its load of white blossoms in spring is followed by quantities of black fruit that ripens late. A distinct bush.

Dychour-Similar to Early Richmond, but earlier.

PEARS

This fruit does not do well in all parts of Montana, although they do splendidly in others.

Flemish Beauty—A fine old variety, large and juicy. Seckel—Small, but of the highest flavor.

Idaho—One of the very hardiest and prolific. Fruit very large and of a handsome golden yellow color with russet spots.

PLUMS

Common Wild Plum—Well known.

50c

Compass Cherry Plum—This cross between a cherry and plum has proved of great worth and we have a large and fine stock. Very hardy.

Lombard-Medium sized fruit, borne in great quantity.

Weaver-Large purple fruit, very abundant.

De Soto—Red, shaded yellow; of enormous productiveness. Bradshaw—Very large dark violet red fruit, juicy and of splendid quality.

Each.....\$1.00; doz. \$10.00 Each, (Postpaid).....\$1.25

Rocky Mountain Cherry.

BUSH FRUITS

Every year this class of fruit cultivation seems to be growing in popularity. New varieties coupled with their adaptability to the Montana climate is giving them a foremost place in fruit planting. Our stock this year is more complete than ever before, and our bushes are the very picture of purity and vigor.

BLACKBERRIES.

To get best possible results, plant in rows six feet apart

about three feet in the row.

Stone's Hardy—Vigorous and upright growth. A very dependable variety, and although its fruit is a little smaller than others of its class, its extreme hardiness will always keep it a favorite.

Snyder-Very productive and hardy; fruit sweet and juicy,

CURRANTS.

Besides being a desirable fruit bush, it also forms a very ornamental bush in landscape work. Last year our sales of currant bushes was far in advance of previous years, a significant proof of their popularity. Our bushes this year are exceptionally vigorous, upright and compact.

Red Variety—Cherry—Very productive, color a bright red,

in profuse clusters.

North Star-Fruit borne on naked stems, quality rich and

Fay's Prolific-Fruit average, bright red color, very thin

Common Red—Berry medium to large.

White Variety—White Grape—Spreading bush and very productive, berries very large.

Black Variety—Black Naples—Fruit varies from small to

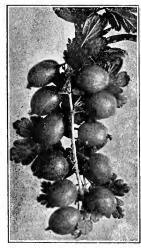

large, well known variety.

great sale. It is a cross between Fay's Prolific and White Grape. Quality superior to any yet on the market. Rich sub-acid flavor with plenty of pulp and few seeds. A valuable addition to the red varieties.

Each......50c; doz. \$5.00 Each, (Postpaid)......75c

DEWBERRIES.

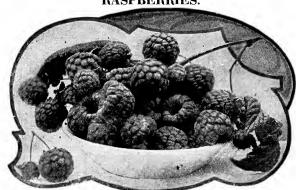

GOOSEBERRIES.

When planted a good distance apart and given good, shallow surface cultivation, the Gooseberry does exceptionally well in this state, and should be more generally planted. American varieties are much more adaptable than English varieties.

Downing—This is one of the most popular and most widely grown of the plants, producing Gooseberries in fairly good size. The berries are of a light green color, tender skinned and have an excellent, mild flavor. The plant is strong and free growing, very productive and free from disease. Valuable for both home and commercial purposes. Columbus-Hardy and large, and we have grown it for years in unsheltered positions.

RASPBERRIES.

Herbert Raspberry.

We have the standard varieties, all good: Cuthbert—Red; hardy; main cropper. King—Red; fine early variety.

Golden Queen—A magnificent yellow sort. Gregg—Large black.

.....5c and 10c; doz. 50c and \$1.00 Each, (Postpaid)......10c and 20c; doz. 65c and \$1.25

Herbert, 2-Year-Old, 51/2 Feet High.

Herbert Raspberry—Is a very strong grower, hardy and very productive. Fruit large to very large, bright to rather deep red, moderately firm, sweet, sub-acid, juicy and of good flavor. Quality very good. Season begins a few days before Cuthbert. Disease-resisting. The best canning berry. Produces 205 bushels to the acre.

......\$1.00 Dozen, (Postpaid).....\$1.25

STRAWBERRIES

Strawberries are either perfect flowered or imperfect. The imperfect varieties should be planted in rows between those having perfect flowers. The best mate for Sample will be Wm. Belt; for Haverland, Buster, or Fendall, Senator Dunlap.

The fruiting plant that stands the severe conditions of Montana's climate with splendid credit to itself is the Strawberry. For the space it occupies in the garden it is hard to find anything to equal it and our patrons show a constantly increasing appreciation of this fact. To meet demands we have plants this year in greater quantity and variety than ever before. They are all fine plants, grown on our own grounds.

For years the Senator Dunlap has stood at the head in this state as a plant sufficiently hardy to endure all climatic vicissitudes. Thorough tests have proven that the Wm. Belt, Splendid, Stevens' Late Champion and Chesapeake are exceptionally hardy and worthy in other respects. We heartily recommend them. Their culture will extend the fruiting season very materially.

Senator Dunlap, P.—Hardy, strong grower, prolific plant-maker, good bearer of firm berries that stand transportation well. The best earrly, midseason berry for Montana and more generally planted than any other.

Wm. Belt, P.—No berry sufficiently hardy to stand our high elevations is equal to this in flavor. Plants are good sized and productive. A splendid midseason berry, sure to please all who grow it who like fine fruit.

Splendid, P.—A new variety in Montana and a very fine one. Plants are hardy and very productive. Berries are irregular in shape, but are of fine flavor. A money-maker for those who grow berries for market.

Stevens' Late Champion, P.—First fruit matures about a week later than Senator Dunlap. Plants are admirably adapted to Montana; they produce quantities of berries of fine size and flavor.

Chesapeake, P.—Not as productive as the above varieties, but later. Unequalled by any other as a very late berry. Plants very large and perfectly hardy. Fruit stems erect, berries large and perfect in shape.

Early Ozark, P.—In the south this variety has made a record for itself as an extra early variety.

Aroma, P.—This is one of the leading shipping berries in the south. Its demonstrated excellence as a late berry makes it worthy of trial.

Good Luck, P.—Plants large and very hardy. If they produce according to size of plant they are all right

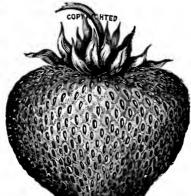

Ruby, P.—Does very well in all parts of the state.

Most of our customers find it a good yielder.

Marshall, P.—A standard variety that has many friends in many parts of the country. It does very nicely in portions of Montana where the climatic conditions are not too severe.

Sharpless, **P.**—A very old favorite, but we advise planting it only in the milder portions of the state, neither plant nor blossoms being as hardy as some of the newer varieties.

Haverland, I.—An old-time favorite. Hardy and productive. Berries uniform and bright red.

Single Specimen.

Buster, I.—Plants vigorous, hardy and fairly productive.

Fendall, I.—Does splendidly in some sections but is not adapted to higher altitudes in Montana.

Jucunda, P.—A great favorite in the western part of the state. No berry grown has a finer flavor. We recommend it heartily, but only for elevations under 4,000 feet.

Glen Mary, P.—Does real well in Montana in the more favored localities, where it produces a good crop of fruit on plants somewhat similar to Senator Dunlap.

Bederwood, P.—Am early variety worthy of trial. Fruit a shade light in color, distinctive in appearance and of fair flavor.

Any variety, (Postpaid)....50. \$1.00; 100, \$1.75 (Not less than 25 of a kind supplied).

A Bunch of Typical Plants.

possible. In this Vegetable Department, half dozens will be supplied at dozen rates and fifties at hundred rates.

S. N. Co.'s Montana Beauty.

Cut Flowers

Catering to the cut flower demand is one of the most important branches of our business. With over 50 houses at our disposal, we offer the finest and most up-to-date cut flower establishment in the west. Our endeavor is to always have a supply of the Standard Flowers to meet all demands in both quantity and quality, at prices to suit all. To produce the highest quality, coupled with efficient and prompt service is our one great attainment, and we never ship inferior grade flowers in order to quote cheaper prices.

STANDARD FLOWERS

Our collection of the standard varieties is unexcelled. For Roses, Carnations, Chrysanthemums, Easter Lilies, Violets, etc., we lead. Besides these we have the various flowers at the different seasons of the year and if you are in need of cut flowers you cannot do better than by placing your order with us.

A Basket of Out-Door Flowers.

HOW TO ORDER

Always state time you wish flowers shipped. So that we may be able to study your special wants, quantity, quality and price should always be given. Owing to the uncertainty of supply or assortment, we should be pleased if patrons would kindly name a substitute in case we have not the exact needs of your order. If possible place your order early, although we can deal with rush orders quite satisfactorily.

HOW WE SHIP

All flowers are shipped by express (occasionally by mail). If no time is stated, flowers are shipped by first train after order is received. The flowers are tastefully packed in waterproof boxes, thus assuring you receiving flowers in the best of condition. Remember that flowers packed by our special system carry for two or three days' journey.

SPECIAL OCCASIONS

There are many occasions when you wish to get a special grade or variety of flowers, either for yourself or presentation purposes. Some of these occasions we enumerate.

Decoration Day, Easter, Thanksgiving, Valentine's Day and Xmas.

These are but few of the days and the ones on which we make special preparations for the retail customer. Frabably you are anxious to send some flowers to a friend, but do not know just what to send. To meet this, we make up special boxes, tastefully arranged, and containing the best only of assorted flowers. Send us your card, or we will write one for you and enclose it with the order. So that your friend may receive the flowers without any cost, we prepay to any point and charge to you.

Flowers for Weddings, Birthdays, Graduating Exercises, Etc.

These form another special line for which we are famed. Bouquet work for weddings we make by the thousands. We ship wedding flowers all over the state. Suitable boxes of flowers for Birthdays and Graduating Exercises forms one of our interesting selection items. Nothing pleases better than flowers on these days, and our long experience places us so that we know just how to please. Special boxes of flowers offer a variety of prices and can be obtained from \$2.50 up.

We draw your special attention to our extraordinary selection of Orchids, the most beautiful flower that grows. Our \$3.00 to \$5.00 Corsage Bouquet of Orchids is certainly something fine. The "young lady" friend will certainly be delighted at any time with one of our Orchid Corsages.

Flowers to Distant Friends.

By special arrangement we are able to accept orders by Telegraph, Telephone or Mail for cut flowers to be delivered to any part of the United States, Canada or Europe. Kindly let us know just what you require, time order is to be delivered and the address of your friend. We will do the rest. Distance is no object with us, so whatever part of the two continents your friends may be, you are still able to send them flowers.

Floral Designs for Funerals.

We are known all over the state for the beauty and finish of our floral designs. The variety of flowers used and the durability of the work are some of our distinguishing features. We list a few of the emblems generally used.

Wreaths Shields Stars Harps Crescents **Broken Columns** Scrolls **Broken Wheels** Gates Ajar Pillows Anchors Crowns Crosses Hearts

Cut flowers sent loose or made into sprays are also very popular. Our blankets or casket covers from \$25 and up are something unusual. The prices on all floral work varies according to the size and grade of flowers. Design prices range from \$3 to \$75, but the general call is from \$5 to \$25. All designs are securely fastened in special heavy corrugated waterproof boxes and arrive to the customer in the best possible condition.

Designs Emblematic of all Fraternal Organizations.

SPRING, 1914, TWENTY-FOURTH YEAR

Seed Department

Suggestions to our Customers in Ordering from this Catalogue, the reading of which will aid you and us.

EARLY ORDERS-Our rush season comes in the months of March and April. Orders sent AT ONCE secure prompt

shipment at the proper time from our full stocks.

HOW TO ORDER—Write your name, postoffice, state and express office and company plainly with ink, on every order, and also when you write us concerning it. Give plain express, mail or freight directions; where none are given, we route goods at buyer's risk.

USE ORDER SHEET-The use of our order sheet enclosed in this catalogue is a great help to us in filling and shipping of orders. Instructions for use are on the sheet. More will be sent on receipt of a postal asking for same. Flower or Vegetable Seed orders should plainly state quantity before the name of the variety. Plant orders should give quantity, variety and size.

KEEP A COPY OF YOUR ORDER and mark off goods as received. Sometimes items may be sold out or will follow

later, in which case a slip is enclosed with other goods, or notice sent.

MISTAKES.—These will happen in spite of all care. Write us at once with copy of original order if possible, and

errors will be promptly rectified. Please do not return goods until you hear from us.

ORDERS ARE PROMPTLY FILLED—Or in case of extreme delay, you are notified by postal card. If you do not hear of an order sent us, within a reasonable time, send us a duplicate of it, giving date of order, amount of same, and form of remittance, your name and full address. If you cover these points in your first letter, a long delay is often

FREIGHT OR EXPRESS.—All express lines in the United States and Canada carry seeds at the special reduced rates of 20 per cent. less than general merchandise rates. Plants come at the same special rate when out of pots and this includes nursery stock. On moderate-sized orders, we advise express shipment rather than freight.

HOW TO SEND MONEY.—Send cash with order (as we do not open book accounts for small amounts) by Draft, Postoffice or Express Money Order whenever possible; these are cheap and safe. Parcel postage stamps are taken as cash for small amounts and we prefer denominations such as 5c, 10c or 15c. Registered letters can be sent from any postoffice, and your receipt sent you by return mail, by which you know it has reached us. Local checks are accounted. Make money orders or checks payable to State Nursery Co. cepted. Make money orders or checks payable to State Nursery Co.

RECOMMENDATIONS.—We tender our sincere thinks to the numerous customers who have been kind enough to recommend us. We are always pleased to mail our catalogue to friends of our customers on request. We catalogue only such seeds as have proved suitable to our climate. We trust that our efforts to simplify the task of selection of seeds will meet the approval of our many friends. Our seeds we believe to be as good as can be obtained anywhere and our facilities for testing same unexcelled.

SEEDS BY WEIGHT. All our seeds are sold by weight, which we believe to be the most satisfactory method. Half pounds and over, at pound rate; less than half-pounds at ounce, two ounce or quarter-pound rates.

All Flower and Vegetable Seeds in pkt., oz., ¼-lb., pint, or quart, sent prepaid to your Railroad Station or Post-office, except where noted. Field Seeds by freight at purchaser's expense.

DISCOUNT ON ORDERS FOR SEEDS IN PACKETS AND OUNCES ONLY:—

Curtainers and line.

Customers sending..... \$1.00 \$2.00 \$3.00 \$4.00

Seeds by weight (1/4 lb. or over), or collections, or bulb and plant orders, nor can it be applied to orders sent at different times during the season.

Bulbs, Seeds, Plants, Roots, Cuttings and Scions are NOT INCLUDED IN THE PARCEL POST LAW of January 1, 1913.

They remain third class matter, which is 8c a lb., two ounces for 1c to any part of the United States.

FARMERS READY REFERENCE BOOK-The most complete farm book on the market. Every department of farm life covered in detail by experts. One book free with \$5.00 order for seeds; one book to a customer. Please mention

OUR RESPONSIBILITY—It is so manifestly impossible for a seller of any perishable article to be responsible for what may happen to it after it leaves his hands, especially one like seeds or plants, which are planted in the ground under varying conditions of soil and climate, that we, in common with all American seed houses, disclaim responsibility as to the crop which may be raised from seeds which we sell. At the same time, in case of any failure to secure proper results caused from some inherent fault in the seeds themselves, the State Nursery Co. accepts responsibility, not for crop, but to the extent of the amount of money paid for the seeds, if immediately advised. (Or seeds may be returned. See below). We wish it understood that all our seeds are sold under the following general non-warranty:

We do not warrant in any way, expressed or implied, the contents or the description, quality, productiveness or any other matter, of any seeds, bulbs, plants, shrubs or trees sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions, we sell at the moderate prices herein quoted.

STATE NURSERY CO., Incorporated.

African Gold Daisy.

Does well in light soil. Annual.

ACROLINIUM..

FLOWER SEEDS

Annuals—Bloom first year from seed and die after one season.

Biennials—Bloom second year from seed and plant dies after second

erennials—Bloom second year from seed and plant lives and blooms for several years. Perennials-

Tender-Means plant will not stand the least frost.

Half-Hardy—Means plant will stand a little frost and needs protection.

Hardy—Means plant will stand con-siderable frost.

Ageratum.

ABRONIA UMBRELLATA—(Sand Verbena)......Per pkt. 5c Very pretty trailing plants with numerous clusters of sweet-scented flowers. Rosy lilac, with white eye.

.....Mixed, pkt. 5c This beautiful everlasting flower is largely used for winter bouquets, for which purpose the flowers should

be cut before they are fully expanded. Half-hardy annual RICAN GOLD DAISY Per pkt. 10c The single daisy-like flowers are 2½ inches in diame-AFRICAN GOLD DAISY.... ter, and of a unique glossy terra cotta orange, which brilliant coloring is rendered the more conspicuous by the dark disc surrounded by a black zone. The plants grow from 12 to 15 inches high and are very profuse flowering, especially in dry situations. Hardy annual.

AGERATUM—(Floss Flower)—Blue perfection. A hardy annual of easy culture, especially valuable for bedding, as it is literally covered with blossoms all Sow the seed early in the spring.

ALYSSUM—(Maritinum. Sweet Alysuum). Oz. 25c; pkt. 5c Six to eight inches high. A fragrant hardy annual, bearing spikes of small white flowers in great profusion throughout the summer and autumn. Useful for border or early bedding flowers. Sow the seed early in spring.

ARANTHUS......Mixed, Per pkt. 5c These plants afford brilliant contrasts of colors, being useful for borders and groups; also, where foliage effects are desired. The leaves and stems are of different shades of red blended with green. Half hardy annual.

handsome and produced in great profusion the entire season. It is not only desirable for beds and groups, but also for pot culture.

ANTIRRHINUM—(Giant Grandiflorum) Pkt. 5c Flowers double the size of older sorts, more closely set on the stems and colors more clear and brilliant, growing about 18 inches high. Grand mixture of many striking colors.

ASPERULA—(Azurea)......Blue, pkt. 5c Grown for its fragrant leaves and step)s, which dried, have a sweet odor, and are used for putting among clothes, etc. Best grown among shrubbery, in semi-shaded positions, where it can remain undisturbed.

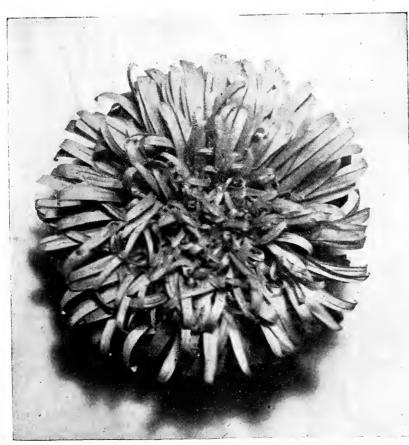

ASTERMUM—(The Glorified Aster).
Pkt. of 500 seeds.......75c

In white, pink, lavender; separate colors. The cut is two-thirds natural size and shows construction of the bloom. The plant itself grows straight up with very strong, sturdy stems, starting near base and reaching from 18 to 24 inches; even the center stems are plenty long for the market. The three colors

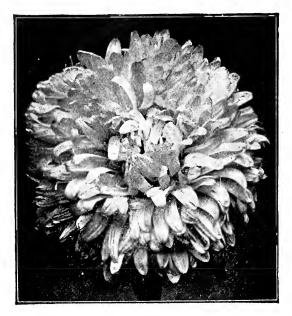

are unsurpassed, the lavender has never been produced before, the pink is the beautiful pink of the rose, and the white is as white as the driven snow. All these qualities of the Astermum are the result of painstaking selection extending over a period Each of eight years. plant yields from ten to fifteen blooms. Full cultural directions are supplied with each or-

Little Gem.

Astermum—(The Glorified Aster).

Late Branching.

Asters

As a popular flower the Aster ranks with Sweet Peas, Pansies and Nasturtiums. No flower is more popular, and few have held so high a place in popular esteem for so many years, and it is still growing in favor. For an autumn show of flowers, we have not its equal. We offer only Asters of superior quality.

Victoria.

Oz. 75c; pkt. 5c ASTER—(Splendid Mixed).....

Double dwarf variety of many colors. quently in July. Of spreading habit, 8 to 10 inches high. Blossoms medium sized, with the petals curved out-

ASTER—(Giant Comet) Pkt. 10c; 6 pkts. your selection, 40c A good bedding variety, with large blossoms, the petals of which are long, narrow, and curled backward. Splendid for cut flowers. These colors are the best: White, Peach Blossom, Pink and White, Deep Rose, Light Blue, Yellow, Carmine, Purple, etc., or Mixed.

ASTER—(Vick's Early Branching) White or Rose, pkt. 10c

This excellent Aster possesses all of the desirable qualitiies of the Late Branching, but comes into bloom about a week or ten days earlier. A vigorous growing and free blooming variety.

ASTER—(Vick's Imperial Purity)..... This snowy-white Aster is similar to Vick's Daybreak except in color.

ASTER—(Vick's Imperial Daybreak)......Pkt. 10c

This beautiful Aster is one of these rare gems that have come to stay. The flowers are round as a ball, very large and full, borne upright on long stiff stems. The color is a delicate sea-shell pink.

ASTER-(Vick's Imperial Sunset)-Per package.....10c

An extremely delicate light pink, shading to a deeper pink in the center. Plant is similar to Daybreak and Purity. Flowers are borne on long stems in the greatest profusion.

ASTER—(Victoria Mixed)......Pkt. 10c Flowers very large and perfectly double, of globular shape and im-bricated; plants of fine pyramidal form, 1½ feet high.

ASTER—(Truffaut's Paeony Flow-ered Perfection)—Mixed Colors

This variety has the most brilliant and showy assortment of colors. Flowers medium sized and almost globular. Plants about 16 inches, of upright growth, and flowers all borne on ASTER—(Semple's Branching) Pkt. 10c; 6 pkts, your selection selection ______40c
The tallest and best variety. The plant grows 18 inches high and about 18 inches in diameter, and the blossoms which are large and full petaled are borne on long stems or branches. Colors: Carmine, Crimson, Laven-der, Light Blue, Pink, Purple, Rose pink, White,

ASTER—(The Crego) Per pkt. 10c From the florists' standpoint this Aster is one of the most valuable to be found; it always maintains its position at the top of the market. A large late bloomer in good, clear, pure white.

ASTER—(Crego's Giant Pink)......Per pkt. 10c
Identical in all respects to the white sort offered
above, but of a beautiful soft shell-pink color.

stems, and personal shade of violet.

ASPARAGUS—(Sprengeri)—Emerald Feather......Pkt. 10c

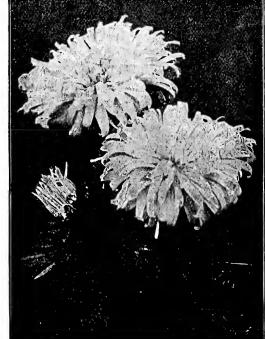

Adapted to suspended baskets; 1

to 4 feet. An excellent trailing house plant, as it withstands a dry atmosphere and succeeds everywhere. Remains fresh a

long time after cutting. ASPARAGUS—(Plumosus Nanus). Pkt. _____10c An indoor perennial climber, of wonderful beauty. It has largely replaced the famous smilax in the floral world. Bright, cheerful green.

BALSAM .. Choice Double, per pkt. 5c
Balsams like hot sun, rich soil
and plenty of water. For perfect development the plants
should be set from 12 to 18 inches apart. Transplanting two or three times has a tendency to dwarf the plants into better shape and to make the flowers more double.

BALSAM APPLE Pkt. 5c
An annual climber, with yellow blossoms and beautiful foliage.
The fruit is egg-shaped; when ripe bursts suddenly open, scattering its seed, and showing a brilliant carmine interior. Fine for trellises, fences, stumps, etc.; half-hardy annual.

Giant Comet.

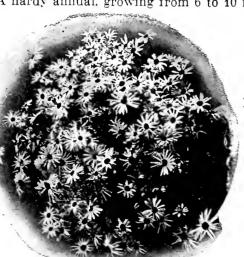

Bachelor's Button.

BALSAM PEAR—

Mixed.......Pkt. 10c Very curious, rapid and dense climbers, with ornamental foliage and golden yellow fruit, which opens when ripe, showing the seed and the blood-red inside.

BACHELOR'S BUT-TON—(Or Bluebottle, or Cornflower) — Mixed colors.Oz. 50c Per pkt 5c

Per pkt.....5c, Of easy culture. Sow the seed where it is to remain and thin plants to 3 or 4 inches apart.

Brachycome or Swan River Daisy.

producing an abundance of pretty blue and white flowers. Excellent for border.

BELLIS - (See Under Daisy) BEAN— (Scar-let Runner) lb. 30c pkt. 5c A favorite old - fashionedclimber One of the very few beans that is both ornamental and useful. It grows rapidly to a height of ten

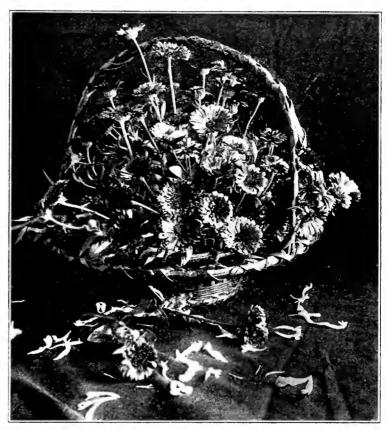

twelve feet, and is covered from July until heavy frost with clusters of beautiful scarlet flowers

CACALIA—(Tassel Flower or Flora's Paint Brush).......Pkt. 5c A neat annual of easy culture, with tassel-shaped flowers; blooms from June to September; fine for borders. Golden yellow and scarlet mixed.

growing in any good garden soil, producing a fine effect in beds or mixed borders, and continuing in bloom until killed by frost. Height 1 foot. Colors orange and lemon yellow.

CALENDULA—(Prince of Orange)—Deep orange. Per oz. 25c; pkt. 5c.

CALIFORNIA POPPY—(See Eschscholtzia).

Calendula.

CANTERBURY BELLS—(Campanula Medium).......Pkt 5c
Handsome hardy biennial, of stately growth, rich color
and profuse bloom. Should be given some protection
in severe winter weather; colors, white and various
shades of violet, rose, lilac and blue. Height, two to
four feet.

CANTERBURY BELLS—(Calycanthemum) Pkt. 10c The new Cup and Saucer. Compared to the old type of Cantlerbury Bells, larger and appear about two weeks earlier than those of the old type. A splendid plant for beds and pot culture.

CARNATION MARGUERITE.....Per pkt. 5c The plants of this wonderfully fine strain may be made to flower in four months. The flowers are large, double and very fragrant and appear in very attractive shades of color. One of the best "pinks" in culti-

CARNATION MARGUERITE—Dark red......Pkt. 10c The old fashioned clove pink, free flowering, spicy and

CARNATION—Extra fine double mixed..........Per pkt. 10c Various colors and types. This strain is remarkable for the variety of colors, about 70 per cent of large double blooms.

CASTOR BEAN—(Ricinus)—Mixed. All sorts.......Pkt. 5c The different varieties included in our mixture have light and dark green leaves and some of coppery bronze, changing to dark green with reddish ribs.

CATCHFLY—Hardy annual. Mixed......Pkt. 5c An easy growing, free flowering, annual plant, producing dense umbels of white, red or rose colored blossoms. The plant is partly covered with a glutinous moisture, hence the name "catchfly."

CENTAUREA IMPERIALIS-Mixed......Oz. 50c; pkt. 10c A beautifully large-flowered type resembling Sweet Sultan, but with a large petaled margin around the blossom. In white, lavender and purple shades; annual.

CENTAURIA—(Ruthenica)Pkt. 10c Tall, deep sulphur yellow.

CHRYSANTHEMUM—(Carinatum Eclipse)......Pkt. 5c Pure golden yellow, with bright purplish-scarlet ring or center on the ray florets, the disc being dark brown, very striking.

CHRYSANTHEMUM MAXIMUM Large white flowered, perennial Marguerite, select stock.

CHRYSANTHEMUM—(Shasty Daisy)......Pkt. 10c The freest blooming variety of the Marguerite Daisy family. Will bloom in six months from seed.

useful for hanging baskets, for vases and as edging plants. Sow outdoors in early spring and grow in partial shade. They bloom through mid-summer to late autumn. Average height 11/2 feet.

COBEA SCANDENS..... A half hardy climbing annual, with large leaves and large trumpet-shaped flowers. The blossom is green until nearly grown, when it turns bright purplish bluegrows about 30 feet high and is very desirable for covering a large lattice. A native of Mexico.

Centauria Imperialis.

COLUMBINE - (Aquilegia. Double Mixed. Pkt.5c

Of the easiest culture and when once established, will furnish for many years a magnificent display o f the handsomest flowers spring **a**nd er. The beds each summer. be should kept clear of weeds and given each year a liberal dressing of well-rotted manure -hardy herbaceous perennials; two to three feet high best and finest colors.

Centauria (Ruthenica).

Chrysanthemum Eclipse,

Carnation Marguerite.

Cobea Scandens.

CONVOLVULUS MINOR—(Finest Mixed)...... Per pkt. 5c Dwarf Morning Glory. Early flowering hardy annual, with bright flowers, of very easy cultivation.

CONVOLVULUS MAJOR—(Morning Glory)—Mixed. Per oz. A hardy climbing annual growing about ten feet high. Flowers are well known and exist in a great variety of colors, tints, and markings. Fully expanded only in the mornings. Of easy culture, quick growth, valuable in every garden.

inence in recent years, the Cosmos leads all. It is a show in the garden and magnificent when cut. Formerly we had to be content with the late-flowering type, which was often killed by early frost. Now that we have a most perfect type of the early flowering class, every garden should contain this exquisite flower. Seed sown in the open ground in the beginning of May will produce blooming plants in July, and they will continue to flower late in the fall.

Cosmos—(Early Flowering Dawn). 1/4-oz. 25c; pkt. 10c

White, slightly tinted with pink.

Cosmos—(Early Flowering Crimson)..........Per pkt. 10c

Cosmos—(Early Flowering Rose)...........Per pkt. 10c

DAHLIA—Single Mixed Pkt. 5c
This strain is a decided advance on the ordinary singles. The plants are of strong robust habits, and produce in great abundance flowers of immense size, of the most bewildering variety of coloring.

DAISY—(Bellis)..... Finest double; very desirable for edgings or low bor-

Pure white: gigantic.

DIANTHUS—(See under Pinks). ECHINACYSIS LOBATA—(Wild, or California Cucumber) The fastest growing annual vine in existence: will grow 20 feet in six weeks. Pretty foliage with inconspicuous white flowers. Soak seed in water 24 hours

ESCHSCHOLTZIA—(California Poppy). Mixed. oz. 25c:

before planting.

California Poppy.

The state flower of California. genus of the Poppy family, fully as valuable as the common Poppy for garden ornamentation, as it blooms almost continuously throughout the season. A bed of these in full bloom is most handsome and beautiful in color. Hardy annuals: height, one foot.

ESCHSCHOLTZIA—(Peerless Mixed)60c: pkt. 10c A grand strain of the well known California Poppies. The flowers have large overlapping petals. which are often delicately waved at the edges, showing beautiful and varied forms.

ESCHSCHOLTZIA—(Crimson Flowering)...... This Eschscholtzia is a decidedly new addition to the list, and while we have had red and pink varieties. there have been none that had the intense brilliant red of this one. Like all of our California Poppies, it is

easly grown and blooms profusely.

EUTOCA—(Viscida). Intense blue...... Foliage dull green, covered with hairs; blossoms blue and striped. ¾ of an inch across, produced in terminal racemes. Succeeds best in warm, sandy soil, not over rich. Sow in open ground early in spring, and thin to one foot apart. Hardy annuals one foot high.

iage fine cut and feathery. Blossoms beautifully cup-shaped, bright yellow, and about three to four inches across. Stems, long and smooth. There are few more satisfactory flowers in the garden than the Hunnemannia.

Bush Eschscholtzia—(Or Hunnemannia).

FORGET-ME-NOT-(See Myosotis). FOXGLOVE—(Digitalis). Mixed Pkt. 5c Grows to the height of three or four feet, with dense spikes of brilliantly colored flowers which are terminal and half as long as height of plant. Colors white, lavender and rose. A valuable flower in every per-ennial garden; does not usually blossom until the sec-

ond year. Hardy biennials or perennials. FOUR O'CLOCK—(Marvel of Peru). Mixed......Pkt. 5c These flowers are funnel-shaped, white, red, yellow or striped with these colors, and open about four o'clock in the afternoon, remain open all night and generally perish about noon the next day. The abundance of new flowers produced daily afford a constant succession of fine blooms. Sow seed in open ground. Hardy annual; two feet high.

Gaillardia.

Geranium.

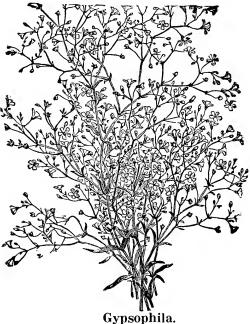

GERANIUM—Zonale, Mixed—

A superb strain of the largest and finest red varieties. GODETIA—Finest mixed......Pkt. 5c

ODETIA—Finest mixed......Pkt. 5c A hardy annual growing from 6 to 10 inches high. Of compact growth with a profusion of satiny cup-shaped flowers in deep red, pink and white, shaded and blended. Valuable for bedding or massing.

Globe-shaped flowers, in red or white. The plant makes a good border, and the flowers are very pretty, and are attractive, either while growing or dried.

fruit. Being of rapid growth they are fine to cover old fences, trellises, stumps, etc. Tender annual; ten to twenty feet high.

GYPSOPHILA— (Perennial)—

GYPSOPHILA-

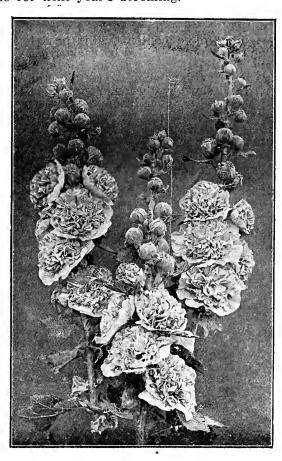

flowers. Well adapted for hanging baskets or edgings and valuable in conjunction with other flowers for making bouquets. Will thrive anywhere. An annual that should be in every garden.

Heliotrope.

HELIOTROPE.......Pkt. 40c
Blooms from seed the
first year and as early as
Sweet Peas or balsams.
Heliotrope will bloom as
easily from seed as any
of the common annuals.

when partly open and dry in the shade.

Hollyhock-(Chaters).

HUMULUS—(Jap. Var.) Pkt. 10c Variegated Japanese Hops. Quick growing vine for veranda or trellis. Annual; not subject to insect pests; very handsome; stand drought well.

KUDZA VINE—(Japanese Jack in the Beanstalk).....Pkt. 10
To this must be awarded first place as the fastest growing hardy climbing plant. It will grow 8 to 10 feet the first year from seed, and after it becomes established there seems to be no limit to its growth. 50 feet in a single season being not unusual. Its foliage is large and covers well; bears small racemes of rosypurple, pea-shaped blossoms towards the close of August. A splendid subject for covering permanently verandas, dead trees, etc.

Black Prince-Velvety black, purplish-crimson, dark

Queen—Variegated leaves and various colored flowers. Aurora—Terra Cotta.

LOBB'S NASTURTIUM.

NASTURTIUMS Tall Hybrids Madame Gunther).-¼-lb. 40c; 2 oz. 25c; grand mixture, containing many novel colors, such as, odd shades of salmon pink, rose, reds, yellow, etc. Strong growing and free flowering variety.

ASTURTIUMS (Lobb's Tall Prize Mixed). Price, 1 lb. \$1.00; 4-lb. 40c; 2 oz. 25c; 1 oz, 15c; pkt. 5c For richness and variety of color these no have equal among Nasturtiums. It is impossible to describe all the different colors, but some of the most striking are as fol-

White, shaded carmine with deep maroon throat; golden-yellow, shaded brown on edges; yellow, shaded and mottled with carmine; white, with red blotches; shrimp pink with deep maroon throat; bright rose, bright yellow, orange, etc.

NASTURTIUMS—(Dwarf Varieties). Named colors.

.....50c; 1 oz. 20c; ½-oz. pkt. 10c Aurora—Terra Cotta.

Chameleon—Many different colored flowers on the same plant, dark-leaved.

Empress of India—Brilliant dark scarlet purplish green leaves.

King Theodore—Deep crimson maroon with dark

King of Tom Thumb-Glowing scarlet, dark foliage. Prince Henry-Cream spotted and tipped with red. Ruby King-Rich crimson rose.

Vesuvius—Salmony-Rose, dark foliage; an extremely bright color.

Cloth of Gold-Scarlet flowers and yellow foliage. Golden Midnight-Dark purple.

Queen of Tom Thumb—Brilliant crimson.

NASTURTIUMS—(S. N. Co.'s Dwarf Prize Mixture). Price....1 lb. \$1.00; ¼-lb. 40c; 2 oz. 25c; 1 oz. 15c; pkt. 5c This is undoubtedly the finest mixture of Dwarf Nasturtiums offered anywhere. Every shade is grown separately, and we blend this mixture on our own premises under our personal supervision.

NEMOPHILA—(Love Grove).... Or dwarf, spreading habit, it is well adapted for border

or pot culture. The flowers are exquisitely colored, blotched and spotted; they are quite apt to sport into an endless variety of shades, from black and blue to the lighter shades. Sow in spring and thin to 1 foot apart. Hardy annual; 6 inches high. NICOTIANA—(Affinis). Pkt. 5c

large, white, and full expanded only in evening or cloudy days. Deliciously fragrant.

NICOTIANA —(Sanderae, Mixed)-Pkt. ______10c
Handsome garden
plants of the tobacco family, valuable for the long durations and freedom of their bloom. Flowers

white, carmine-rose or violet, a little smaller than Affinis, and, unlike it, is in full bloom during the day. Very floriferous.

PANSIES

Nieotiana Sanuerae.

These popular flowers thrive best on a cool moist but well-drained soil, enriched with well-rotted barnyard manure or fine ground bone. Seeds sown early will produce fine plants for autumn bloom-The proper method though is to sow in July or August and protect the plants during the winter, when they will flower continuously next spring and summer. Our Pansies spring are renowned for size, quality and color.

of large size. colorings; contains an almost endless variety of shades.

PANSY—S. N. Co.'s Premium Mixture......Pkt. 20c Is saved from exhibition flowers, including almost every shade of color, exquisitely spotted and blotched, veined, mottled and margined, all fancy varieties. This ' strain is so beautiful that no description or praise can do it justice, being unsurpassed for rich and varied colors and immense size.

PANSIES—In Separate Colors or Named Varieties. Per Pkt. 10c; Pkts. contain about 300 seeds.

Adonis-Light blue ground, white face with dark

Dark Blue-Or black blue.

61

Emperor William-Dark ultramarine eyes.

Fire King-Red and yellow with brown eyes.

Golden Queen—Golden yellow with small dark stripes instead of eyes in center.

King of the Blacks-Almost coal black.

Lord Beaconsfield—Deep purple violet shading off in

top petals to white.

Masterpiece—(New Giant).—The flowers are perfectly round and contain the richest combination of colors, each petal being distinctly marked with a dark blotch; most of the flowers are margined with white or yellow edge and have long stems.

Marmorata—Beautiful marbled varieties, on purple and

and crimson ground with fine margin.

Mercury—A distinct deep blackish purple without any blotches or spots. The largest self color Pansy in existence.

Prince Bismark—New beautiful yellowish bronze color

with well defined eyes of dark brown.

Quadricolor—(Rainbow)—Reddish steel blue with white edge, sometimes pink and white, also yellow marbled with red and steel blue, margined white.

PETUNIA—Fine Mixed....Pkt. 5c Good mixture of all free blooming colors.

Petunia—Single Grandiflora.

PETUNIA—Large flowering, Grandiflora, Mixed....Pkt. 10c

secured from any source at any price.

Miles City, Montana, October 15th, 1913.
Received of the State Nursery Company, the sum of \$25.00, being first premium offered by them for the largest and best display of root crops shown at the Montana State Fair at Helena, 1913.

JOSEPH EICHHORN.

PHLOX

Phlox Drummondii.

PHLOX-(Superb Mixture) Pkt. 5c The annual Phlox is a native of Texas, where it is called "Texas It occupies first place as a garden annual, being one of the most brilliant and at the same time one of the easiest and most satisfactory plants which can readily be grown from seed. will grow and thrive in any kind of soil if given a sunny position, but prefers a light, rich loam. Seed may be sown in the open ground, any time after danger of frost is past.

PHLOX DRUMMONDI—Peerless Mixed.....Pkt. 10c Contains fine, select varieties of this showy annual.

PHLOX DRUMMONDII—(Grandiflora)......Pkt. 10c

In separate colors.

Alba—Pure white, extra large.

Intense Scarlet.

White Scarlet Striped.—Beautiful.

PINKS

Pinks-Single.

PINKS—(Dianthus)—Hardy and half hardy biennials and perennials but nearly all blooming the first year from seed; of easy culture. Seeds may be sown in the open ground where they are to remain, but better results are obtained, at least in the north, if plants are started in the house. white and dark crimson selfs, also white tipped light purple and shades of red with darker blotchings.

PINKS—(Heddewig's Double Mixed) Pkt. 10c. Flowers very large and double and of various shades of brilliant colors.

PINKS—(Heddewig's Single Mixed) Pkt. 10c Flowers of the best shades and beautifully marked.

PINKS—Dark Red Pkt. 10c
The old-fashioned clove pink, delightfully fragrant and hardy.

POPPIES

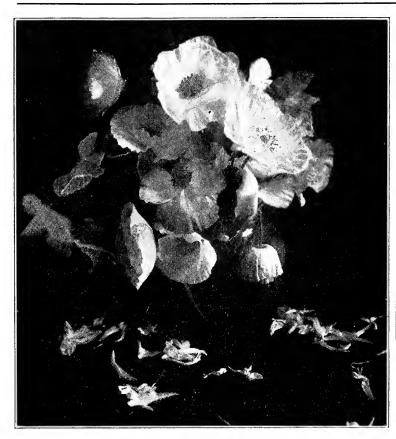

Annual poppies should be sown as early in the spring as possible; they do not stand transplanting. Sow very thinly, barely covering the seed. Press down firmly, and they will come up in a few days. It is well to make several sowings at intervals to keep up a succession of bloom. If picked just before expanded, the flowers will last several days.

SINGLE ANNUAL VARIETIES.

POPPY—(Select Shirley). Mixed colors......Oz. 50c; pkt. 10c This is an extra fine strain of these charming Poppies. They are single and occasionally semi-double and range in color from the purest white through the delicate shades of pale pink, rose and carmine to the deepest crimson and blood-red, while many are daintily edged and striped. In fact, so varied are they that scarcely any two flowers are alike.

POPPY—(Miss Sherwood). Sating white...Oz. 50c; pkt. 10c Shaded on fringed margin with salmon rose. Height

21/2 feet.

Poppy—Shirley Mixed.

A new Poppy of exceptional merit, a large magnificent flower and particularly showy in color, it is a beautiful white with a well defined carmine edge.

POPPY—(Single Annual). Mixed colors......Oz. 25c; pkt. 5c Gorgeous colorings, easily grown from seed sown in the open ground where they are to remain.

of all Poppies.

Poppy-Peony Flowered.

POPPY—(Danebrog, or Danish Cross)..........Oz. 25c; pkt. 5c Very showy variety, producing large flowers of brilliant scarlet, with a silvery-white spot on each petal, forming a white cross.

DOUBLE ANNUAL VARIETIES.

These Poppies are very handsome. The flowers grow to an enormous size, from 6 to 7 inches in diameter, are as double as Peonies and the colors are very rich and striking. POPPY—(Cardinal Scarlet)......Oz. 30c; pkt. 10c Splendid double fringed flowers.

POPPY—(White Fringed).....Oz. 30c; pkt. 10c

Large double fringed.

A beautiful shade and a favorite with all.

POPPY—(Double Carnation Flowered, Mixed).

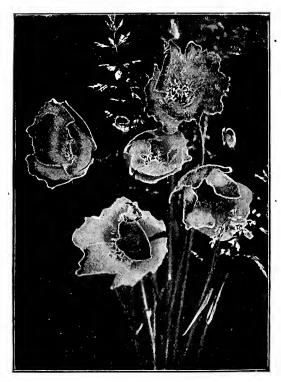

new color.

snow-white, bordered with scarlet.

POPPY—(Peony Flowered, Mixed)......Oz. 25c; pkt. 5c Large, showy, double globular flowers.

PERENNIAL VARIETIES.

Hardy perennials of easy culture; in bright, glowing colors, bloom first year from seed.

Iceland Poppies.

shades of white, yellow and vermillion, with satiny, crinkled petals, beautiful flowers in greatest variety of colors.

in June and July, with enormous blossoms often measuring 5 to 7 inches across, mostly shades of red. Transplanting should be done carefully. The best time to lift plants is in August.

POPPY—(Oriental Hybrids). Excelsior Strain......Pkt. 10c Beautiful hybrids of the Oriental Poppy, producing flowers of immense size, 6 inches and over in diameter, and of many novel colors, ranging from delicate shades of salmon to deep crimson.

PORTULACA—(Single Varieties). Fine mixed......Pkt. 5c PORTULACA—(Double Varieties). Fine mixed......Pkt. 5c

Oriental Poppy.

Pyrethrum Comet Flowered.

(2 to 3 inches across), either single or semi-double, and of the most bizarre form, the petals being rolled, twisted or sometimes tangled together. A similar range of color will be found in these fine Comet-flowered Pyrethrums as among the ordinary type, i. e. from pure white flesh color and rose to brilliant carmine and blood red.

RICINUS—(See Castor Bean).

SALVIA—(Flowering Sage).....Pkt. 5c A tender perennial, blooming the first season from seed. The blossoms are borne on long stems in racemes or spikes and are fragrant. The plant blooms profusely.

SCABIOSA—(Mourning Bride). Improved Large Flowering. Mixed colors.....Pkt. 5c They grow about 2½ feet high, and come into bloom early in July, and continue without interruption until hard frost. The beautiful flowers in exquisite shades are borne on long stems, and when cut, keep in perfect condition for the best part of a week. They make effective borders or beds, and no garden is complete without Scabiosa, especially where flowers are wanted for cutting.

SALPIGLOSSIS-Finest mixed, all colors......Pkt. 5c One of the greatest favorites among annuals, partly because of its easy culture, but principally for its beautiful, almost orchid-like flowers, which it produces from early summer until late fall. Seed should be sown early in spring in a hot bed or window and transplanted when weather is settled or directly out of doors after danger of frost.

SCARLET RUNNER BEANS————————Per lb. 30c; pkt. 5c A great favorite not only as an ornamental climber but for the delicious edible beans which suceed the bright scarlet sprays of pea-shaped blossoms.

SCHIZANTHUS—(Butterfly or Fringe Flower). Mixed. The Schizanthus has been called the "poor man's or-chid" on account of their easy culture and resemblance in form and variety of coloring to in form and variety of coloring to some of the floral aristocrats. May be sown out of doors in spring where they are to remain, or started inside and transplanted when the weather is suitable. A sowing made in spring will give an abundance of bloom through the summer.

SHAMROCK—True small leaved......Pkt. 10c

SNAPDRAGON—(See Antirrhinum).

STATICE—(Sea Lavender). Hybrids, mixed.........Pkt. 10c These useful plants bear everlasting flowers that last a long time after cutting, and are very easy of culture.

STOCKS—(Large Flowering German, Ten Weeks' Double) light blue, canary yellow.

Scabiosa—Mourning Bride.

STOCKS—(Ten Weeks). Mixed.

These popular plants are generally grown both for the brilliance and profusion of their blossoms and their fragrance. They are quite indispensable; easily cultivated.

OCKS—(Virginia). Mixed Pkt. 5c Beautifully fragrant dwarf annuals with bright colored flowers, making the garden gay in early summer. Height 6 inches. TRAWFLOWERS—(Everlastings)

These are mostly annuals with straw-like flowers that keep their form and color for years. German Double.

Acrolinium-1 foot. Graceful and pretty, half-hardy

annuals, pretty in beds or pots.

Ammobium Alatum—2 feet. Large flowered, with handsome double white flowers; useful either in the garden or for winter bouquets; cut before the buds open.

Helichrysum—Showy, easily grown annuals for the border; fine for winter bouquets; cut before the

buds expand. Mixed colors.

Xeranthemum—A hardy annual, I foot high, bearing handsome, double flowers on long stems; colors mostly white, blue and purple; cut when fully developed. One of our best everlastings, and easily grown.

SUNFLOWER..... Pound, 25c; pkt. 5c The common large flowering variety with great brown centers and an edge of yellow petals. The seed is used for bird and chicken feed.

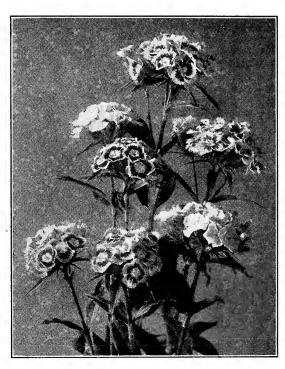

SUNFLOWER—(Helianthus Miniature)......Oz. 25c; pkt. 5c Chrysanthemum flowered. Hardy annuals, growing from 3 to 6 feet. Of the easiest culture and suitable

Salpiglossis—(Painted Tongue).

for a stately row or background, or even for bedding. Large densely double, bright golden flowers. plant branches and affords fine, long stout stems for cutting.

bushy, and attains a height of about three feet. It is covered with finely formed flowers, which are about three inches across, of golden yellow, having black discs, and borne on long stems, which rise well above the foliage.

Sweet William.

SWEET WILLIAM—(Single Varieties). Mixed.......Pkt. 5c More attractive than the double.

SWEET WILLIAM—(New Hybrids). Mixed......Pkt. 10c SWEET—ALYSSUM—(See Alyysum).

SWEET ROCKET—(Hesperis). Mixed Pkt. 10c A hardy perennial, growing 2 to 3 feet high. An old-fashioned, fragrent flower, of the easiest culture, and bearing clusters of white and purple blossoms.

SWEET PEAS—See pages 66, 67, 68 and 69.

THUNBERGIA—(Black-Eyed Susan)..... A beautiful tender climber, 3 to 5 feet high, with pale yellow or orange-yellow flowers, having a distinct black center. Tender annual.

VERBENA—(Fine Mixed)......Pkt. 5c

Embraces all colors.

VERBENA—(Peerless Mixed).

10c Embraces a wide range of the most beautiful colors, the clusters being of large size.

ERBENA—(White, Pink, Striped, Purple, Scarlet)......Pkt. 10c Verbena seed should be soaked in luke-warm water before planting and care taken that the soil be very rich. Half hardy perennial trailer

WALLFLOWER—(Gold Lack).

.....Pkt. 5c Single, mixed..... Wallflowers should be better known, their adaptibility for pot culture and out-door bedding and

Verbena.

their very sweet odor, should win favor.

WALLFLOWER—(Early Paris Market)......Per pkt. 10c This variety, if sown in March, will bloom in July.

plants.

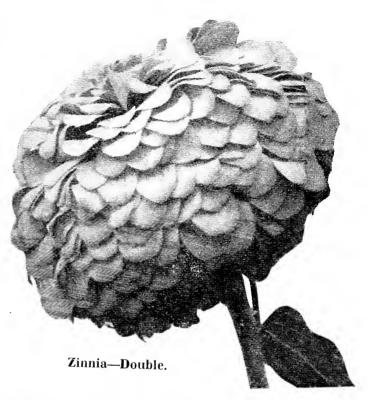

WISTARIA—(Chinese Flowering, Tall Blue)—————Pkt. 5c One of our most popular hardy climbers, growing to a height of fifty feet. The flowers are abundantly borne in spring on long drooping racemes of light blue before the leaves appear.

150 different varieties.

XERANTHEMUM—(Everlasting or Immortelle)......Pkt. 5c
One of the prettiest and most satisfactory of the Everlastings, bearing an abundance of bright rose, purple and white flowers, which are not only showy in the garden, but very useful as dried flowers in winter bouquets. Grows about 3 feet high, and can be sown in the open ground early in May, growing readily in any open, sunny position, remaining in bloom from early summer till frost. Mixed colors.

ZINNIA

A half hardy annual growing from 1 to 2 feet high. The colors are in great variety and very bright. Probably no flower has such an assortment of shades, tints and colors, and no bedding plant is more effective for a brilliant show. Sow in boxes early and transplant.

General List of Vegetable Seeds

Beans—(Refugee Wax).

Beans-(Golden Wax).

ARTICHOKE ROOTS—(Dry Farmed).
1 lb., postpaid......20c; 10 lbs. 80c; 100 lbs. \$6.50 Most valuable food for hogs that can be grown. Every hog raiser should plant them. After one acre is planted their value will be so appreciated that larger areas will be devoted to them. They are not only very healthful, but as a fattening agent are unexcelled. They yield very heavily, 300 to 350 bushels to the acre being realized on good soil. It is not necessary to dig them, for if given an opportunity, the hogs will help themselves.

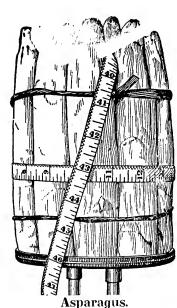

Not only are they valuable for hogs, but are an excellent food for cattle, sheep and horses. Fed to milch cows, they are for the production of milk equal if not superior

Artichokes need planting but once, and little or no culture after the first year. Cut as potatoes, only smaller; plant in rows three and one-half feet apart. Plow deep, plant shallow, say two inches. The second year, break up the ground as for corn; they will come up thickly all over the surface.

Those wishing to purchase should place orders very early, to be shipped as soon as favorable weather arrives.

By freight or express at purchaser's expense.

ASPARAGUS

One of the earliest spring vegetables. It requires a deep, rich, mellow soil. Sow early in the spring in drills 2 inches deep and 12 inches apart if to be cultivated by hand. One ounce of seed will about 500 plants. When the plants are one or two years old (one is best, as a better crown will form) transplant to rows 5 feet apart and 18 inches apart in the row. Cover the soil 4 to 5 inches deep with well rotted manure and disc well then plow as deep as possible and fine with harrow.

Turn furrows 5 feet apart, about 6 inches deep. plants in these about 18 inches apart, with the roots well spread out. Turn a light furrow back over them and level with the harrow by cross harrowing.

ASPARAGUS—(Conover's Colossal). Pkt. 5c; oz. 10c; lb. 75c The favorite in our western market, having a pink tinge, and very fine flavor, of vigorous growth, none better.

The plants are strong and vigorous in growth, producing large, thick, dark-green shoots, with a distinctly pointed head or tip, as contrasted with the rounded head of the other large-stalked varieties.

BEANS

(2 lbs. to 100 ft, in drills, or 150 hills; 120 lbs. to the acre, in drills).

A succession of sowing can be made from the first week in May until July. Plant in drills about 2 inches deep, and from 18 inches to 2 feet apart, according to the richness of the soil; the poorer the soil, the closer they can be planted. The seed should be dropped about 2 inches apart.

BEANS—(Dwarf Wax Sorts)

5 inches long, meaty, brittle and stringless; will withstand a frost better than other wax varieties.

BEANS—(Improved Golden Wax). ½ pint carton 10c; (1 lb. ideal Wax Bean. Very prolific. Thick fleshed and

stringless.

BEANS—(Improved Black Wax). ½ pint carton, 10c; (lb. 30c, postpaid); 10 lbs......\$1.65 An old favorite, which is universally popular. Round, full, fleshy pods of excellent flavor. The earliest wax beans.

BEANS—Wardwell Kidney Wax) ½ pint carton 10c; (1 lb. 25c, postpaid); 10 lbs \$1.65 For market the best wax bean to grow early is Wardwell's Kidney Wax. It is the most prolific, very tender and entirely stringless; also a good shipper. The pods are nearly straight, so that they pack nicely and always look well.

BEANS—(Davis' White Wax) ½ pint carton......10c

Very early, productive, free from blight and rust. Pods long, flat, tender and of fine quality.

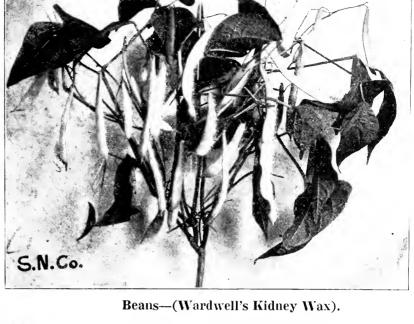

N. B.—Deduct 8c. per lb. if ordering Beans, Peas, or Corn by Express at Postpaid Prices.

BEANS—(Dwarf or Snap Green Podded)

BEANS—(Peerless Long Yellow Six Weeeks) ½ pint cartons, 10c; ,lb. 30c postpaid); 10 lbs.......\$1.65 Early, full, flat, green pod, an old favorite, improved.

Beans-(Kentucky Wonder).

BEANS—(Dwarf or Bush)

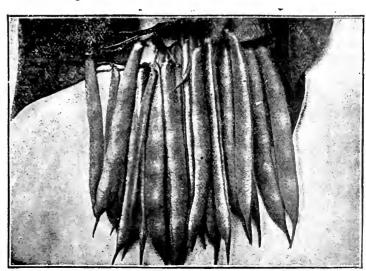

BEANS—(Dwarf Lima). (Per lb. 30c, postpaid); 10 lbs, \$2.25 Large white; is the earliest Lima Bean in cultivation;

a great favorite for the family garden.

BEANS—(Broad Windsor). ½ lb. 15c; (lb. 30c, postpaid)

This class is very hardy, and should be planted as soon as the soil-is in good state in the spring. Plant four inches apart and 2 inches deep, in drills three feet apart. To insure well filled pods, pinch off the tops as soon as pods begin to set.

Beans-(Scarlet Runner).

Green

Longfellow.

Six Weeks Long Yellow

FIELD BEANS

IMPROVED WHITE NAVY BEAN—(Per lb. 20c postpaid); Far superior in both quality and productiveness to the common sorts. The vine is of medium size, erect, bearing a profusion of long pods well up from the ground. The dry beans are small, round, pure white, and of fine appearance. For this reason they are the most profitable for the farmer to grow, as they will always bring an extra price.

BOSTON YELLOW EYE—(Lb. 20c, postpaid); 10 lbs. \$1.10 Almost every one who has lived in New England knows the Boston Yellow Eye Bean. While much larger quantities of white beans of the Navy type are used than of all other varieties combined, those who know about the Boston Yellow Eye prefer them to any other bean for cooking, as they possess a richness and flavor known to no other variety. As a shell bean they have no superior, and for cooking in a dry state, no equal. We strongly recommend the planting of the Boston Yellow Eye. Once used they are always wante.d

BEANS—(In 5c Lithographed Packages). Golden Wax Wardwell's Kidney Wax Davis Wax Early Six Weeks

Red Valentine Refugee Green Mohawk Stringless Green Bush Lima

BROCCOLI.

(One ounce will sow a bed of 40 square feet and produce about 3,000 plants).

Sow the first week in May in drills 3 or 4 inches apart, covering seeds lightly. When the leaves are about three inches broad, transplant to prepared beds 2 feet apart each Much resembles Cauliflower; cultivation the same.

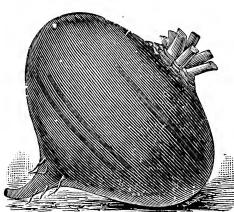

BROCCOLI—(Snow White)....Pkt. 5c; oz. 50c; ¼ lb. \$1.50 Pure white color; heads medium size, close and

BROCCOLI—(Purple Cape).......Pkt. 5c; oz. 50c; ¼ lb. \$1.50 Same as above, excepting color.

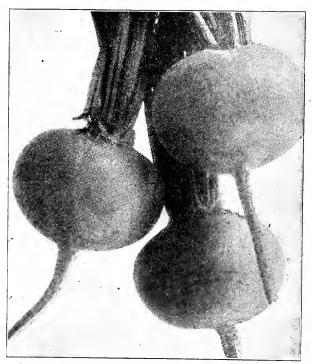

TABLE BEETS

HOW TO PLANT—The soil should be rich and deeply plowed, say 8 to 10 inches. Sow in rows from 14 to 20 inches apart and about 1 to 1½ inches deep. About 6 pounds of seed to the acre for garden or stock feed and for sugar about 20 pounds of seed to the acre. As soon as the plants have the fifth and sixth leaf, thin to one plant each

8 inches. If under irrigation, water as soon as thinned. Cultivate often and do not water again until absolutely necessary, as the soil will dry from the surface down and the tap roots will follow. Careful tests have proven that one cultivation a week will give the best results. Keep clean and remember that cultivation is the next thing necessary after the best seed and the two are necessary for success.

Beet—(Dark Red Egyptian).

Beet—(Crimson Globe).

BEET—(Crimson Globe). Per oz. 10c; ¼ lb. 40c; lb. \$1.50 Beets may come and Beets may go, but still the Crimson Globe retains its position as the best Beet for the market gardener, as well as for the private garden. A constant steady demand from the same gardeners year after year should be sufficient indorsement for this Beet. It is very symmetrical with small tap root and but few fibrous roots; color outside is deep blood-red; inside layers of blood-red and light-red alternately. When cooked are a beautiful dark red throughout, fine-grained and unsurpassed in quality. It continues to grow until late in the fall. One sowing only is necessary to produce early beets for market and main crop for winter use.

BEET—(Half Long Blood). Per oz. 10c; ¼ lb. 30c; lb. \$1.00 An excellent main crop beet. A great favorite as a table or field sort. Roots are deep red in color, and always symmetrical and smooth. The flesh is of a rich dark red color. In quality it is sweet, crisp and tender, and is an enormous cropper and a reliable winter keeper. It is a heavy beet without being hard to pull. It never becomes woody, and is always good for table use or stock food, whether pulled young or old. Becoming very popular with market men and stock owners.

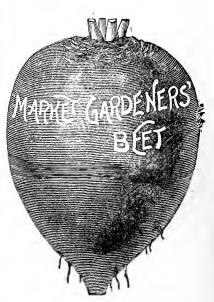

BEET—(Extra Early Dark Red Montana Strain). Per oz. 10c; ¼ lb. 35c; lb. \$1.20 The market gardeners' beet. For richness of color and exquisite flavor this new strain cannot be equalled. Early, rich and sweet.

of the best.

BEET-(Dark Red Egyptian). ½ pint carton, 45c; oz. 10c; 4 lb. 40c; 1 lb. \$1.20 Has more good qualities than any other beet, extra early, sweet, small-leaved; color dark crimson.

BEET—(Market Gardeners') Oz. 15c; ¼ lb. 50c; 1 lb. \$1.50 Always Good. Never past its prime. This grand beet is one of the best for general cultivation by market gardeners and farmers. Makes a very rapid growth from the start, often larger than Egyptian, age for age. It continues to grow for a long period, making a heavy root for autumn or winter use. Only one sowing is necessary to produce early beets for market and a main crop for winter use. It is symmetrical in form and of decidedly handsome appearance.

there are but few fibrous roots and the top is small. It should appeal strongly to business gardeners and to everybody wanting an all season's table beet.

How about "Phoning

your neighbor and hav-

ing him join

you when sending

your order.

Oz. 10c; ¼ lb. 30c; lb. \$1.00 BEET—(Eclipse)... Best variety for main crop; good keeper, clear blood red, sweet and tender.

BEET—(Detroit Dark Red Turnip).....Oz. 10c: 1/4 lb. 30c: 1 lb. \$1.00 One of the best early beets either for table or market: small top, early maturing, splendid shape and color, very crisp. tender and sweet.

feeder, being rich in sugar.

acre; an invaluable variety for the stock

Crimson Globe Wanzleben Sugar Long Red Mangold

MANGOLD WURZELS

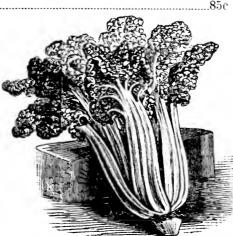

MANGOLD-(Mammoth Long Red). (See Cut). ½ pint carton, 10c; (lb. postpaid, 40c): (Write for prices on Mangolds and Sugar Beets in larger quantities An especially good variety to grow if one has a limited supply of water; a great favorite for dairymen, making a wonderful increase in milk; easy to pull and harvest: tops are small.

SWISS CHARD—(Or Sea Kale Beet). Pkt. 5c; oz. 10c: 1/4 lb. 25c; 1 lb.....

Although little known in America, vegetable is worthy of a place every garden. The leaf and the leaf stem are the parts used and they are much superior to those of other beets to use as green. Later in the season the broad. flat, beautiful, waxlike leaf stems are cooked as a salad or pickled.

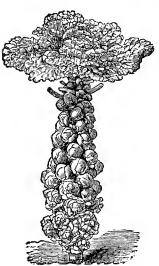

Swiss Chard.

BRUSSELS SPROUTS

Brussels Sprouts.

BRUSSELS SPROUTS—(Species of Cabbage; cultivation the same. One ounce will grow a bed of 40 square feet, and produce about 3,000 plants). This is a delicious vegetable superior to either Broccoli or Spinach. The small, cabbage-like heads which grow upon the stem are much improved by a moderate frost. Sow in hot-beds in March or April, and in the open ground in May; cultivate same as Broccoli.

Reduce the high cost of living by enlarging your garden this year. A few dollars more than usual invested in seeds may mean the saving of a hundred dollars or more this summer.

CABBAGE

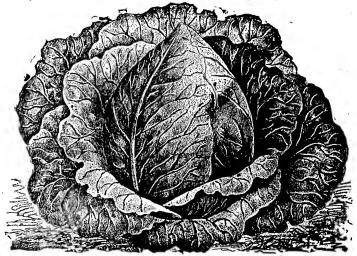

(One ounce will produce 1,500 plants; half pound will

produce plants for one acre).

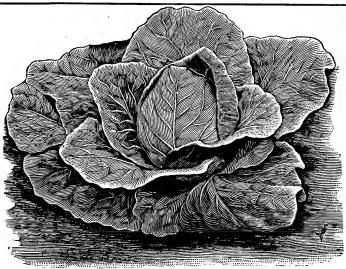

The soil should be deep and rich. For early crop, grow plants in hot beds, transplanting to cold frames and then as early as possible after danger of freezing to the open ground. Cultivate often and keep well watered if under irrigation. For late crops sow seed in open ground and transplant, or some succeed finely by sowing seeds in hills where wanted and thinning to one. This avoids the necessity of waiting for a damp time to transplant.

CABBAGE—(Extra Early Express). Pkt. 5c; oz. 30c; ¹4

CABBAGE—(Large Flat Dutch). Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.50
Flat Dutch is comparatively free from a disposition to burst, and is one of the most reliable winter keepers. This strain will do better under partial neglect than any other in the world, possibly excepting Surehead.

Cabbage—(Extra Early Express).

Cabbage—(Peerless Wakefield).

CABBAGE—(Charleston Wakefield). Pkt. 10c; oz. 30c; ¼ lb. 75c; 1 lb. \$2.50

The Charleston Wakefield is an improved and larger form of Wakefield. It requires rather more time to reach maturity, but it yields fully twice the crop of the original Wakefield Cabbage. It is about a week or 10 days later than its parent, and comes along in a close succession to the earliest Cabbage crop. It is a strain which cannot be profitably overlooked by any gardener whether it is intended for a private garden or to be sent to market.

Cabbage—(Large Flat Dutch).

CABBAGE—(Early Winningstadt). Pkt. 5c; oz. 20c; 1/4 lb. 70c; 1 lb. \$2.25 Ib. 70c; 1 lb. \$2.25 This is another old and famous type of early Cabbage, but as in the case of Wakefield, the main difficulty is to get a strain of seed representing the highest grade of excellence. Such a strain will be found in our Winningstadt. It is almost as early as Wakefield. It is a sure header, even where other sorts may fail, and seems to be less liable to the attack of the Cabbage worm than many other varieties.

CABBAGE—(Early Summer). Pkt. 5c; oz. 20c; ¼ lb, 60c: The deep flat heads are remarkably uniform in shape, size and color. Good quality and tenderness

are marked features.

CABBAGE—(Surehead). Pkt. 5c; oz. 25c; ¼ lb. 65c; lb. \$2.25
For main crop is unexcelled; large flattish round heads fine and solid; always "heads."

CABBAGE—(Houser). Pkt. 10c; oz. 30c; ¼ lb......\$1.00 A distinct variety of winter Cabbage. For a solid, shapely, heavy, sweet cabbage, it cannot be beaten, and by reason of its compact growth and freedom from loose leaves, fully 500 to 600 more plants can be grown to the acre.

CABBAGE-(Peerless Holland). Pkt. 5c; oz. 30c; 1/4 lb. 80c; lb..... heads, very heavy, fine grain, small stem and the best keeper known; always commands the best price; those who know this Cabbage will have no other for a long keeper. Sow early for best results.

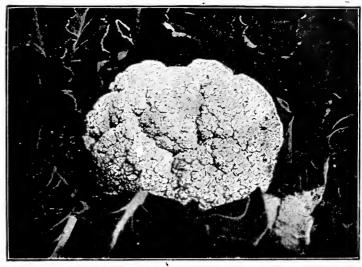

CABBAGE—(Red Dutch). Pkt. 5c; oz. 25c; ¼ lb. 75c;

Used principally for pickling: solid heads, good color. CABBAGE—(Peerless Drumhead Savoy). Pkt. 5c; oz. 30c: 1/4 lb. 85c; lb...... When better known will be more generally grown: delicious after slightly frosted.

CABBAGE—In 5c Lithographed Packages.

Early Jersey Wakefield, Extra Early Express, Surehead (main crop), Holland (winter), Drumhead Savoy, Red Dutch, Winningstadt, Large Flat Dutch, Danish Ballhead.

Big Timber, Montana, October 15th, 1913.
Received of the State Nursery Company, the sum of \$10.00, being third premium offered by them for the largest and best display of root crops shown at the Montana State Fair at Helena, 1913.
Your struly,
N. B. Gents, I wish to thank you very much for your liberality in encouraging good exhibits; your work is commendable.
R. MILNE.

Cauliflower—(Snowball).

CAULIFLOWER

(One ounce for 5,000 plants).

Culture.—A gross feeder, and well repays heavy manuring and high culture. It succeeds best on well drained soil. For spring crop, plant the seed in protected beds early in February, and the plants will be ready to transplant probably early in April. The young plants should be thinned, since they become very spindly if allowed to grow too thick in seed beed.

CAULIFLOWER—(S. N. Co.'s Peerless Snowball). Pkt of about 350 seeds, 25c: ¼ oz. 80c; oz. \$2.25; ¼ lb.......\$8.00 Is the best all-round Cauliflower on the market—early or late—for the family or the market garden. It heads where others fail. Its close and compact growing habit permits one-third more to be planted on the same quantity of ground than can be done with other varieties.

CAULIFLOWER—(Early Erfurt). Pkt. of 350 seeds, 15c: 4 oz. 60c; 1 oz. \$2.00; 4 lb. \$7.00 An extra early variety; scarcely a plant fails to produce a head.

pact, sure heading, pure white.

CAULIFLOWER-(Giant Danish). Pkt. of about 350 seeds Is more resistant to unfavorable seasons than other sorts, particularly to dry weather.

CAULIFLOWER—(Early Paris). Pkt. 10c; ¼ oz. 60c; 1

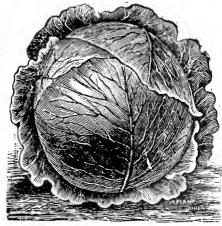

A compact, short-stemmed variety of exceptional merit, especially adapted to the family garden.

Cauliflower—(Early Model).

Carrot—(Peerless Shorthorn).

some.

CARROTS

(One ounce to 100 feet drill; 4 pounds to an acre). Good, sandy loam is best adapted for carrots of all varieties. The shorter varieties, however, can be sown in heavier lands with good results.

CARROT—(French Forcing). Pkt. 5c; oz. 20c; lb. 75c; lb.... good name for it is the radish carrot, for it certainly matures as quickly as a radish. It has a very fine neck and a rather hollow crown. We highly recommend it to all our customers who desire a small, early, delicious Carrot that will mature as soon as many varieties of radish, but must be sown in very rich soil.

CARROT—(Peerless Shorthorn). Pkt. 5c; oz. 10c; ¼ lb. 30c; lb..... Earliest and best table variety, short top, sweet and tender.

CARROT—(Guerande). Pkt. 5c; oz. 10c; ¼ lb. 25c 1 lb. ______80c (Half Long Stump Rooted).
The finest carrot for table use, being free from hard core; very like the Oxheart, but more highly colored, both skin and flesh; roots attain a diameter of 4 inches at the top, tapering to 2

inches in a stump root. CARROT—(Danvers Half Long). Pkt. 5c; oz. 10c; ½ pint carton, 25c; lb..........90c An old favorite of superior quality; deep orange color; smooth and hand-

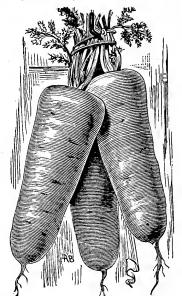

CARROT—(Half Long Scarlet Stump Rooted). Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00 A variety about as large as Danvers, but not so thick. It is of uniform thickness from shoulder to root and very stump-rooted.

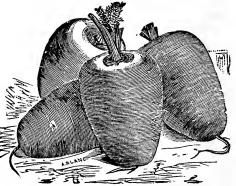

tains large size.

CARROT—(Peerless Oxheart). Pkt. 5c. oz. 10c; ½ pint carton, 25c; ¼ lb. 30c; lb...... Medium early, bright orange color, fine grained and sweet; one of the best table varieties. Can be pulled by hand; well suited to heavy soils, but will thrive equally well in other situations.

CARROT—(White Belgian). Oz. 10c; 1/4 lb. 30c; lb. ______85c Grown extensively for stock feeding. Very heavy cropper.

count of its sweetness and heavy yield.

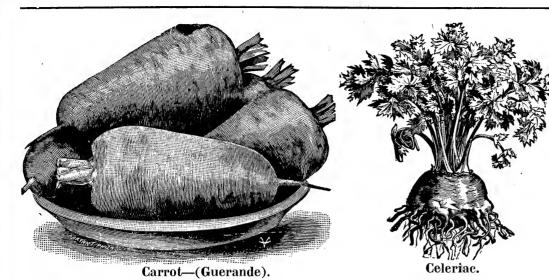

Carrot—(S. N. Co.'s Oxheart).

Carrot-(French Forcing).

CARROTS—In 5c Lithographed Packages.

Danvers Half Long, Improved Long Orange, Early
Scarlet Horn, Oxheart, Guerande, French Forcing.

CELERY

(One ounce will produce 7,000 plants). Sow seeds in a hot bed or cold frame. As soon as the plants are about 3 inches high, transplant to a nicely prepared bed in the border, setting them 4 or 5 inches apart. When some 8 inches high, and fine stock plants, set them in the trenches. Earth up a little during the summer, keeping the leaf stalks close together, so that the soil cannot get between them. Finish earthing up in autumn, and never hoe or earth up in moist weather.

Keep the seed bed moist to insure quick germination

and vigorous growth.

CELERY—("Paris Golden Self-Blanching"). Pkt. 10c; oz. 80c A remarkable early sort, entirely self-blanching, with beautiful large golden yellow heart, crisp, solid and nutty. CELERY—(White Plume). Pkt. 5c oz. 40c; ¼ lb. \$1.00; lb...........\$2.75 Handsome, crisp, self-blanching, easily cultivated; the most popular with Montana growers; keeps well up to January.

CELERY—(Montana Perfection). Per pkt. 5c; oz. 40c; ¼ lb. \$1.00 Finest and largest winter variety; the best keeper known;

solid, crisp, tender, and of an exceedingly fine flavor; more largely grown here than all other varieties put together.

New readers of this Catalogue have no doubt noticed that we have no pages devoted to Novelties

but they are all in their proper places through this book. The Cabbages are all together, as well as the Onions, Radishes, etc. etc. As a rule this is not the custom of the seed trade, but our customers prefer each variety listed together in this way, as it is much more convenient for reference, and saves them a lot of trouble when making out their orders.

Celery-(White Plume).

Celery-(Giant Golden).

Celery— (Montana Perfection).

CORN (Sweet)

(One pound for 100 hills; 15 lbs. for 1 acre).

Corn thrives best in warm, rich soil. The smaller varieties may be planted in drills two and a half feet apart and ten inches apart in the rows. The larger kinds may be planted in hills three and a half feet apart each way, allowing three or four stalks to remain in a hill.

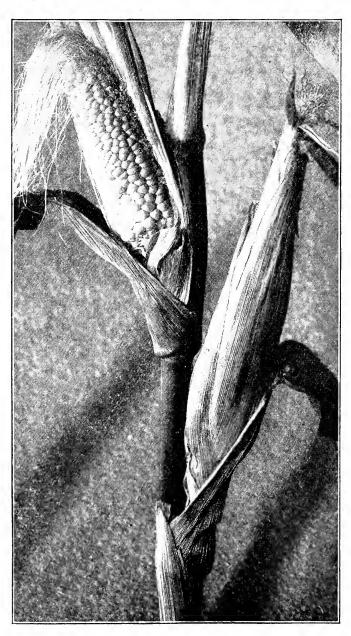

SWEET CORN—(Golden Cream). ½ pint carton, 15c; (lb. postpaid, 40c); by exp. or freight, lb. 30c; 10 lb. \$2.50 The stalks grow about four to five feet high and bear from two to four ears. The shucks are tinged with brown and the tip of the silk is also lightly brown. The ears vary in size but average about five inches in length. The flavor is delicious and in sweetness and tenderness resembles both parents, Golden Bantam and Country Gentleman. It is as early as the former, being one of the first of the main crop varieties. We hope everyone of our customers who has a spot in his garden will try it.

den will try it.

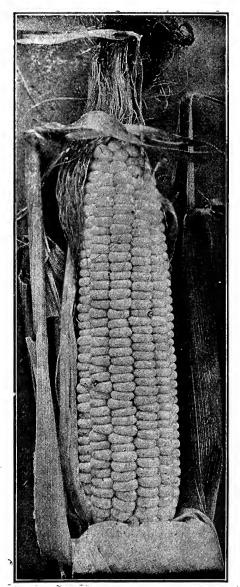

SWEET CORN—(Premo). ½ pint carton, 10c; (1 lb. postpaid, 25c;) 10 lbs. \$1.80

The new Premo matures 4 or 5 days ahead of Cory.

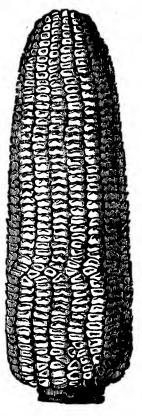

This is a very important gain of time, especially in view of the fact that Premo is a superior Corn with larger and sweeter ears of better appearance. The ear

lettuce in salads, or may be cooked like spinach for greens. It does well in the fall and spring. On rich soil the leaves grow rapidly after being

CUCUMBERS

It is a new variety, and since its introduction, has jumped into such prominence that it may rightfully be regarded as the most popular variety of its type today. The Davis Perfect has been most carefully selected by a veteran outdoor and greenhouse grower of cucumbers, for

A long White Spine variety, growing from 10 to 12 inches. Fully as long as Long Green and of equally good quality.

CUCUMBER—(Cool and Crisp). Oz. 10c; 1/4 lb. 35c; 1 lb. \$1.25

A fine garden variety, deep green and crisp, and is of the White Spine type, pure white when ripe.

Sweet Corn—(Golden Cream).

A very productive variety having fruits of good length and handsome form. Desirable for producing pickles of medium size and fine quality when sliced for table.

CUCUMBER—(White Spined Evergreen). Oz. 10c; ¼ lb. 30c; 1 lb.........\$1.00 Deep green color; early; one of the best shipping varieties.

CUCUMBER—(Early Russian). Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb..........\$1.00 Bright green, crisp and tender flesh; excellent for table use or pickling.

CUCUMBER—(S. N. Co's Long Green). Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00 Not quite so early as the above named sorts, but admitted by all to be the best general crop cucumber for this climate; good

color, very prolific, crisp and tender.

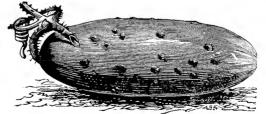

CUCUMBERS—(White Wonder). Pkt. 10; ½ oz. 20c; oz. 35c When only half grown is exceedingly fine in quality. Its beautiful white skin is very smooth; entirely free from Spines. They are solid, tender and crisp, with very small seed cavity; splendid for slicing. Its enormous size, beauty and oddity make it one of the best cucumbers for exhibition at fairs, never failing to capture first prize. The vines are quite vigorous in growth and immensely productive. A desirable home garden sort, or for exhibition purposes it is unsurpassed.

CUCUMBER—(Thorburn's Everbearing). Pkt. 5c; oz. 10c; Small size, very early and enormously productive, and valuable as a green pickler. It continues to flower and produce fruit until killed by frost, whether the cucumbers are picked off or not. Remarkably solid with very few seeds, and of fine quality. Invariably of perfect form even when small.

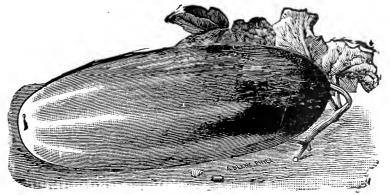

CUCUMBER-(Rollinson's Telegraph). Pkt. of 20 seeds 25c For forcing. Long green cucumbers of excellent flavor; very tender and solid. We have grown this variety under glass to a length of 25 inches.

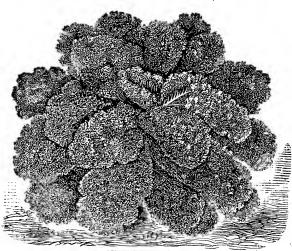

Cucumber—(Long Green).

Cucumber—(Early Russian).

Cucumber—(S. N. Co.'s Early Frame).

Leek-(S. N. Co.'s London Frag).

Endive-(Green Curled).

CUCUMBER—(In 5c Lithographed Packages). Long Green, Early Russian, Early Frame, Early White Spine, Everbearing, Cumberland, Davis Perfect, Cool and Crisp.

CHERVIL

CHERVIL—(Curled). Pkt. 5c; oz. 15c; ¼ lb..................35c An aromatic herb. The young leaves are used in soups and salads.

CHIVES .

A vegetable of the onion tribe, quite hardy everywhere. The leaves are slender and appear very early in the spring, and may be shorn several times during the season. They are propagated by divisions of the root, or sowing of seed. The chives make the very best border for beds in the vegetable garden, and are not only ornamental, bearing pink flowers and a mass of green leaves, but equal to the onion for flavoring soups and salads.

CRESS

EGG PLANT

EGG PLANT—(Improved New York). Pkt. 5c; oz. 40c This selection is vastly superior to the old type. The habit of the plant is low and branching, and is quite free from spines. The fruits are of the largest size and perfect form; eight to ten are produced on a plant. It is extremely early, of splendid quality and great productiveness.

ENDIVE

ENDIVE—(White Curled). Pkt. 5c; oz. 20c; ¼ lb. 60c; 1 lb. \$2.00 Leaves pale green; should be used when young.

ENDIVE—(Green Curled). Pkt. 5c; oz. 20c; ¼ lb. 60c; 1 lb. \$2.00 For fall and winter use; also largely used for garnishing; crisp and curly; easily blanched.

GARLIC

GARLIC—(Lb. 35c postpaid); express, lb. 30c; 10 lbs. \$1.80. The garlic is the most pungent of all the onion family. The root or bulb is composed of many small bulbs called "cloves," which are planted in the spring six to eight inches apart, and in August the tops will die; when the bulbs are ready to gather. They do best in; light rich soil.

HERBS

HERBS—(Sweet, Pot and Medicinal). The seeds should be sown in spring, in shallow drills, 12 inches apart, and ; the young plants thinned out or transplanted to about They should be harvested on a dry day, just before the blossoms develop, dried quickly and bottled, or closely packed in dry boxes, with the air entirely excluded. Always a favorite.

LEEK

LEEK—(London Flag). Pkt. 5c: oz. 15c: ¼ lb. 50c: lb....\$1.50 strong growing variety, producing large, thick stems of sweet flavor when properly blanched. Leeks are hardy and flavor is improved by frost.

LETTUCE

(14 oz. to 100 feet of drill).

Lettuce is represented by four distinct classes or types —by the thick-leaved, smooth-edged cabbage-heading type: the curly and thin-leaved tight-heading, crisp type; the curly and thin-leaved bunching or non-heading type, and the cos or celery type. There are early, medium early and late varieties of each type, as well as those especially adapted for greenhouse, hot-bed, winter, spring, summer and autumn uses. There is so great a difference in localities in regard to the value of lettuce, that a uniform rule for culture cannot be adopted. For the ordinary house garden, it is desirable to use one variety of each type and several plantings should be made to secure a succession. The seed should be planted in rows eighteen inches apart, as early as possible, and the young plants of cabbage varieties should be thinned to four inches apart. Varieties that do not head may be left quite thick, and when fairly well grown those thinned out may be used,

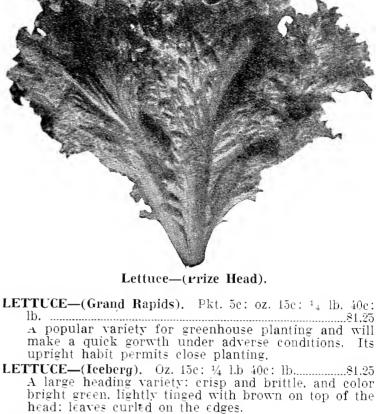

Lettuce—(S. N. Co.'s Curled Silesia).

LETTUCE—(Curled Silesia).
Pkt. 5c; oz. 10c; 1/4 lb. 30c: Produces the earliest lettuce from outdoor sowing: a very popular German variety; sweet and tender.

Forms a compact bunch of yellowish green leaves, rapid grower, desirable for forcing.

sirable variety for either forcing or outdoor culture.

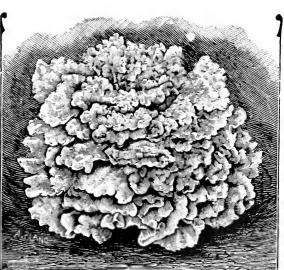

head: leaves curled on the edges. LETTUCE—(Hanson Head). Pkt. 5c; oz. 10c; ¼ lb. 30c; A large summer heading lettuce: very crisp and tender and slow to run to seed: is tender at any stage of

growth. LETTUCE—(Prize Head). Pkt. 5c: oz. 10c; 14 lb. 35c: White seed, large, loose, heading variety of exquisite flavor: leaves curly, tipped reddish brown. The great German favorite.

LETTUCE—(California Cream Butter or Royal Summer Forms a very large head, which is very buttery, and of rich golden-yellow inside. The leaves are thick and of bright green, slightly tinged with brown on top of head, and the outer leaves are slightly spotted with inconspicuous brown spots. Easy to grow and a good shipping variety.

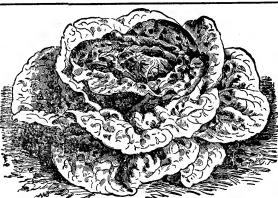

Lettuce—(S. N. Co.'s Montana Market).

Lettuce—(S. N. Co.'s Big Boston).

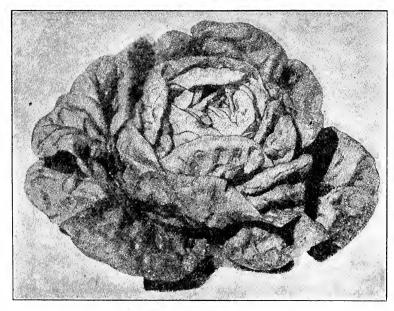

Lettuce—(Hanson Head).

LETTUCE—(May King). Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25 It is astonishing how quickly this new lettuce from Germany has made its way into popular favor. Three years ago it was hardly known in America, now it is found in the gardens of nearly every up-to-date grower. It simply forced its way to the front on the basis of its sterling merits. It grows very quickly, even in the cold weather of early spring. The habit of growth is very compact and close; in fact, the plant is about all head. Outer leaves light green, inner leaves bright yellow and of a fine rich, buttery flavor. Heads weigh from 12 to 16 ozs., and are so solid that they carry to market in perfect condition.

LETTUCE—(The Morse). Per oz. 45c; ¼ lb. 40c; lb.....\$1.25 A large loose-bunching or non-heading variety. Invaluable for forcing. Very crisp and of fine flavor. In color it is a light green and very attractice. LETTUCE—(S. N. Co.'s Tennisball). Pkt. 5c; oz. 10c; ¼

LETTUCE—(S. N. Co.'s Tennisball). Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00 Smooth-leaved heading variety for late summer use or will stand forcing very well. Its solid compact habit and good flavor are much sought for.

LETTUCE—(Salamander). Per oz. 10c; ¼ lb. 35c; lb. \$1.25 One of the most popular summer varieties for withstanding heat. Medium size, light green and forms a hard, buttery head of fine quality.

Lettuce—(May King).

LETTUCE—(Paris White Cos). Pkt. 10c; oz. 20c; ¼ lb. 50c An upright growing variety of self-folding habit, crisp and tender as celery.

LETTUCE—(White Cos). Pkt. 10c; oz. 20c; ¼ lb..........50c Distinct variety of upright growth; leaves should be tied together near top when they soon become crisp and delicious as celery stalks, and are eaten in the same manner.

LETTUCE—(In 5c Lithographed Packages).

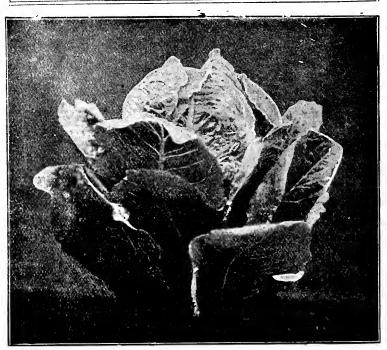

Early White Seeded Simpson, Big Boston, Montana Market, Prize Head, Grand Rapids, Tennisball, Early Curled Silesia, Hanson Head, White Cos. California Cream Butter.

Why Not Parcel Post on Seeds?

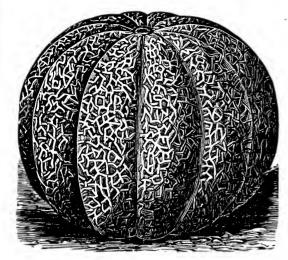

For some unexplained reason seeds, bulbs and plants are not included in the Parcel Post rates, but take a flat rate of 8c per lb. anywhere in the country. Parcel Post rates would in most cases be much cheaper. It is you who have to pay the difference. Write a letter to the Third Assistant Postmaster General, Washington, D. C., and ask why. If enough of you do this it may be righted.

Zone 11c per pound plus 4c.
Zone 21c per pound plus 4c.
Zone 3
Zone 44c per pound plus 3c.
Zone 56c per pound plus 2c.
Zone 6
Zone 7
Zone 812c per pound flat.

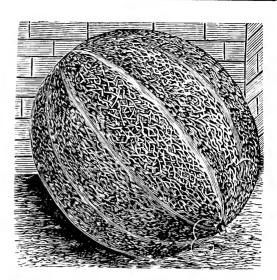

These rates apply to practically all merchandise except seeds, plants and bulbs.
Weight limit on zones 1 and 2 is 50 lbs. On the rest 20 lbs.

Lettuce—(S. N. Co.'s White Cos).

MELONS (Musk)

Muskmelon—(Extra Early Hackensack).

Maule's Model.

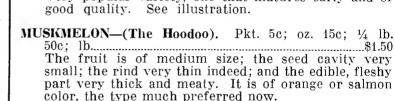

Culture—A rich, deep, sand loam, well worked and highly manured with old rotten compost is of the first importance. Plant when all danger of frost is over, in hills 5 to 6 feet apart each way; scatter a dozen seeds to a hill, and after they are out of danger from bugs, thin to 3 or 4 plants. When they have 4 or 5 rough leaves pinch off the end of the main shoot, which will cause the lateral branches to put forth fruit sooner.

(One ounce will plant about 80 hills).

THE FAMOUS MUSKMELON—(Maule's Model). (Montana Grown Seed). Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.75 (Green Flesh). A paragon of merit—in size, shape, netting, appearance, aroma, flavor. depth of flesh smallness of seed cavity, cropping ability and shipping quality. It leaves nothing to be desired. In delicacy and quality of flavor it is unexcelled by any variety on our list.

MUSKMELON—(The Grand). Pkt. 5c; oz. 15c; ¼ lb. 50c Has a vigorous vine and because of its vigorous growth is a great yielder. The fruit is round or slightly elongated, slightly ribbed. Color a peculiar pea green with nettings a lighter shade. The flesh is firm, fine grained, of a rich salmon or red color. In flavor it even surpasses the best grown Osage or Emerald Gem. The flesh extends to the rind and retains its color and quality quite to the outer shell, which, though thin, is very hard and firm. and

very hard and firm, and because of this bears shipment remarkably well. The flesh is thick, very thick, considering the size of the melon, leaving a small seed cavity.

MUSKMELON—(Jenny Lind). Oz. 10c; ¼ lb. 30c; lb. \$1.50 This is the earliest of the green fleshed sorts and one of the sweetest. It is round or flattened. In size it is small, being from three to five inches in diameter—a very convenient size for serving in halves. It is more largely grown in the great melon producing state of New Jersey than any other sort, and is used in enormous quantities in the eastern cities and at the seashore resorts.

Very popular variety, one that matures early and of

MUSKMELON—(Emerald Gem). Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.40

This has become one of the most popular of small or basket melons. The fruit is oval, slightly ribbed, densely covered with coarse netting. Flesh thick, very sweet and highly flavored. We offer an exceptionally fine stock of this sort.

MUSKMELON—(The Rockyford). Pkt.. 5c; oz. 45c; ¼ lb. 40c; lb. \$1.25

Is a valuable introduction, and has attained in an incredibly short time a national reputation. It is of the Emerald Gem type, ovel in shape, averaging from four and one-half to five inches in length, of a delicious

flavor very fine and smooth grained flesh of a light green color throughout when ripe.

MUSKMELON—(Burrell's Gem). Pkt. 5c. oz. 20c; ¼ lb. 50c; lb.........\$1.50 A medium-sized oval deeply netted and having salmon or red flesh. It is larger than Rockyford and of an entirely distinct flavor. There is a growing demand for the fine grained. Smooth salmon-red fleshed muskmelons and Burrell's Gem seems to be one of the best in cultivation.

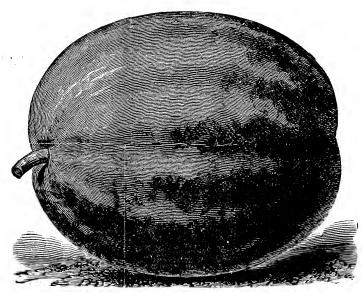

MUSKMELONS—(In 5c Lithographed Packages).

Emerald Gem, Extra Early Hackensack. The Grand, Rockyford, Maule Model, Hoodoo.

MELONS (Water)

(One ounce will plant 50 hills).

Fordhook Early.

The hills should be dug about 2 feet square, 18 inches deep, and half filled with well-rotted manure, which must be thoroughly incorporated with the soil. Plant in May, 10 seeds to a hill, and when the plants are well up, thin out to three, and pinch the ends of the growing shoots to induce early fruiting. While the watermelon is, generally speaking, a southern product, yet the cultivation of same is not confined to the south. Some of the sweetest and best melons we have seen were produced in the latitude of 45 degrees north; consequently, while the watermelon is a tropical fruit, yet our northern friends can grow them successfully.

WATERMELON—(Fordhook Early). Montana Grown Seed. Oz. 10c; ¼ lb. 30c; 1 lb. 90c
One of the largest varieties, and claimed to be the earliest of all. Shape nearly round. Color a medium shade of green. Flesh bright red and of deliciously sweet flavor. The rind is sufficiently hard to make it a good shipper. Its originator, who lives in Delaware, says that this variety always matures first in competitive trials with other sorts.

WATERMELON—(Cole's Early). Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. ______\$1.00
This is a fine variety for the family and market and

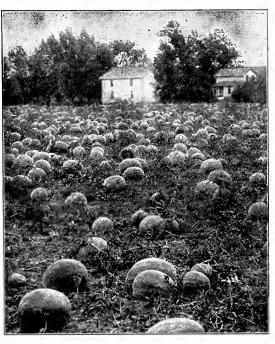

is particularly adapted on account of its earliness, to northern latitudes. For early marketing there is no superior. The bright red flesh is cool, crisp and sweet. The melons are of medium size, and produced in generous numbers. The heart is surprisingly large in proportion to size of melon.

WATERMELON — (Rocky Mountain Sweet). Pkt. 5c; oz. 10c; ¼ lb. 30c; Watermelon Rocky Mountain Sweet.

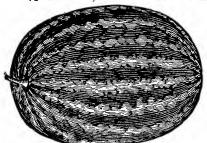

skin with mottled and dark green stripes. Flesh light red, deliciously sweet.

WATERMELON—(Kleckley's Sweet). Oz. 10c; ¼ lb. 30c; lb. \$1.00
The best quality of all watermelons. Large oblong melon, 20 inches in length by 10 to 12 inches in diameter. The skin is dark green, flesh bright scarlet, the rind only about one-half inch in thickness. The scarlet flesh is sweet and sugary and is of such texture that it leaves no strings of pulp whatever in eating. The melon is better for home use than for shipping, and we believe it is the best table melon today.

Watermelon—(Cole's Early).

WATERMELON—(Phinney's Early). Pkt. 5c; oz. 10c; 1/4

Watermelon—(Kolb's Gem).

Shape nearly round m oblong, striped and mottled, dark green. The melons grow very large and the tough, though thin rind, permits considerable handling and shipping. Our improved strain is a week earlier than the ordinary Kolb's Gem, grows larger and is a heavier yielder.

Citron—(For Preserves.

WATERMELON—(Peerless or Cream). Oz. 10c; ¼ lb. 25c; lb. 75c popular home-market variety, with dark green, mottled skin. Flesh

a very clear, transparent preserve of peculiarly fine flavor. Flesh, white and solid.

WATERMELON—(In 5c Lithographed Packages). Phinney's Early, Early Peerless, Citron for Preserves, Rocky Mountain Sweet, Cole's Early, Kolb's Gem.

MUSTARD

inches high. If sown in a warm place or in a hotbed will be ready to cut in a few days; sow frequently for a succession of crops.

MUSTARD—(Chinese). Pkt. 5c; oz. 10c; ¼ lb. 15c; lb. 40c a very hardy, broad-leaved variety. Leaves are thick and deeply savoyed, with broad white midrib.

MUSTARD—(Giant Southern Curled). Oz. 10c; 1/4 lb. 15c; large variety, forming great mass of beautiful leaves, ruffled and finely curled on edges; used for salads. Hardy, vigorous, and highly recommended.

MUSHROOMS

MUSHROOM SPAWN—(Lambert's Pure Culture). Per brick, postpaid, 40c; by express, 7 bricks, sufficient for 50 square feet......\$2.00

Mushroom.

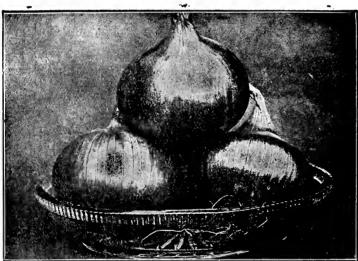

Practically no capital is required in the mushroom business, and the profits are most satisfactory. All that is required to grow mushrooms is most any building or cellar, some manure, loam, and last and above all, good spawn. Our Pure Culture Mushroom Spawn is full of vigor, the kind used by the best commercial growers in the United States.

Booklet, "How to Grow Mushrooms," free for the asking.

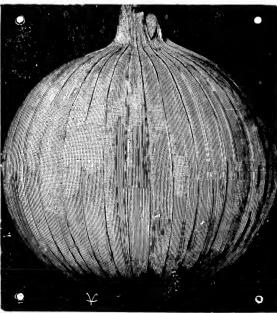

OKRA, OR GUMBO

The long tender poos of Okra are very delicious when sliced and cooked in soups. While this is its chief use, it is also boiled and served like other vegetables. The dwarf sorts may be planted in hills or in rows about three feet apart. Plant in any good soil about May 15. The pods should be gathered when very young, as they are then very tender.

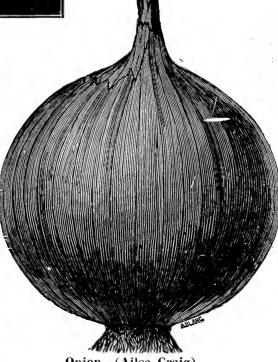

OKRA—(White Velvet). Oz. 10c; ¼ lb. 20c; lb............60c Very tender pods, long, smooth and white.

Onion—(Ohio Yellow Globe).

Union-(Australian Brown).

Onion—(Ailsa Craig).

ONION SEEDS

(One ounce for 100 feet of drill; 5 or 6 pounds in drills for an acre).

The best onions are grown on low, sandy, or mucky lands, with natural moisture and plenty of it.

The most essential item in growing onions for market is good seed—seed that will come up and seed that will produce the variety you want—cheap seed is very poor economy.

The crop must always be kept free from weeds, and it is usually necessary to weed out in the row by hand once or twice. Hoeing between the rows may be done oftener. It is not necessary to thin the plants in the row, since some thinning is naturally done during the hand weeding.

Steady, even growth is necessary to good onions, and a check in the growth, whether from disease or drought causes them to run to seed badly.

Different markets and localities prefer different onions. Globe onions are generally most popular and yield better than the other sorts. Flat onions are the earliest and the large sized kinds have the best flavor. The most critical planters can rely uopn our seed. Every bag of

seed is tested as to vitality.

ONION—(Ailsa Craig). Pkt. 15c; oz. 30c; ¼ lb. \$1.00; lb. \$3.50 A very large, yellow-fleshed variety of onion which is popular with gardeners. It resembles the variety, "Prizetaker," but will grow much larger and more globular in form. The skin is an attractive straw-color, flesh is mild, and the onions keep remarkably well for such large size. For producing the largest and best onions, it is best to sow seed in the hotbed early in spring and transplant when of sufficient size. We grew onions of this variety in our trial grounds weighing 2½ lbs.

ONION—(Ox Blood Red Wethersfield). Pkt. 5c; oz. 45c; 2 oz. 25c; 4 lb. 40c; 1 lb. \$1.40; by express, 5 lbs. \$6.00 This strain of the Red Wethersfield has been especially selected for its fine color. It is the darkest red onion

in existence and where a market demands a dark red onion, it has no superior. Inclined to run a small percentage of thick necks on moist, strong soils. The very best for dry, rather poor places.

ONION — (Ohio Yellow Globe). Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; 1 lb. \$1.50; by exp. 5 lbs. \$7.00 Finest shaped, best colored and largest cropper of any yellow onion. this is an extra fine se-lection of the best colored, finest shaped and heaviest yielding bulbs, entirely distinct from the old type of Yellow Globe Danvers. It is earlier, has a smaller neck, is of perfect globe shape and uniform in size and color. Its small neck and solid flesh make it a very fine keeper.

to raise where the seasons are short. Excellent quality. Needs to be harvested as soon as it dies down and handled carefully.

dium size, skin coppery yellow, flesh solid, white and mild flavored. Our strain is remarkable for its freeness from thick necks and is especially adapted to the growing of Yellow Bottom Onion Sets. A very fine sort for most locations.

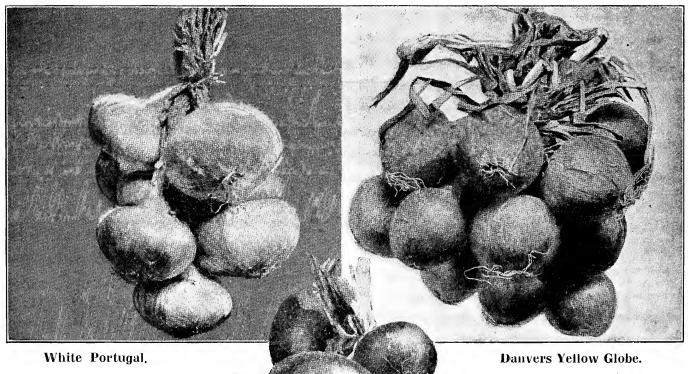

ONION—(Fancy Yellow Globe Danvers). Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; lb. \$1.50; by express, 5 lbs.......\$7.00 This onion is the standard winter sort in many markets. The shape is almost globe form and the bulbs are quite large, with thin necks, ripening down well. The skin is a fine brown, orange yellow, while the flesh is pure white, solid and of good quality. Its keeping qualities are of the best. This strain is so nearly globe shaped that it passes for a globe, and its realization makes it yellouble for market. earliness makes it valuable for market. The crop is very uniform and ripens at one time. Our seed is the very best selection that care can make it. gardener can afford to experiment with doubtful seed. ONION—(White Pickling). Pkt. 5c; oz. 25c; ¼ lb. 75c;

1 lb. ______\$2.50
For early bunching, pickling, etc. Small, hard, round; keeps well; does not turn green when exposed to sun.

ONION—(Prizetaker). oz. 15c; 2 oz. 25c; ¼ lb. 50c; lb. \$1.70; onion. Excellent keeper, of finest flavor, handsome shape and enormous size, many single onions having been raised to weigh five pounds and over from seeds the first year. It is of the same type as those immense imported onions which can be seen in stores and always command a very high price.

the color is a rich brown. Is especially noted as a long keeper, as it keeps well into spring, and much longer than other varieties.

ONION—(White Welsh). Pkt. 10c; oz. 25c; ¼ lb...........75c This is one of the best green bunch onions known. Pearly white in appearance and mild in flavor, it is a most desirable bunch onion for market sardeners or the home garden. It does not form a bulb, but very early in the spring, before seeds or sets are planted, it produces a fine bunch onion or scallion, which are quite attractive and coming in a season when green stuff is scarce. It is a money maker, and will be appreciated where an early green bunch onion is in demand. Being very hardy, requiring no winter mulching. Authorities every where recommend this variety, and market gardeners will find it an exceedingly profitable crop.

ONION-(White Portugal or Silver-Skin). Pkt. 5c; oz. 25c; ¼ lb. 70c; lb. \$2.40; by express, 5 lb...\$11.50 The best known and most largely used white onion. Is flat on the bottom and thick toward the top. very hard and firm and an excellent keeper.

ONION—(Mammoth Silver King).
Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00; by express, 5 lbs.........\$9.25
An early, large, white, flat variety. Is not a keeping sort nor a good shipping variety, but is valuable for home use and nearby markets. Is very mild and of fine flavor.

Red Wethersfield.

S. N. Co.'s White Pickling.

WELSH ONION CULTURE.

Sow the seed thinly in rows 12 to 16 inches apart; using 10 to 12 pounds of seed per acre on rich land, preferably in the early spring, but not later than the latter part of July, so as to have plants well established before winter sets in.

ONION—(Southport White Globe). Oz. 25c; 1/4 lb. 75c;

A very desirable variety which yields an abundant crop of fine large onions. Pure white color, mild flavor, and equally good for keeping as the Yellow Globe. It is an enormous yielder, and always sells at high prices. It is best to dry these onions in a shady place and give plenty of air.

ONIONS—(In 5c Lithographed Packages). Large Red Wethersfield, Extra Early Flat Red, White Pickling, Yellow Danvers Flat, Yellow Globe, Silver King, Australian Brown, White Globe.

Parcels Post on Seeds.

They don't get it. We don't know why. The ways of politicians are beyond us. They have the same weight limit but pay the old flat rate of 8c per lb. or more strictly speaking, 1c for each 2 ozs. We price all small seeds propaid seeds prepaid.

ONION SETS

The Importance of Using Northern Grown Onion Sets.

The planting of Onion Sets is increasing rapidly year after year. They year after year. They are used for several purposes. The Bottom Onion Sets produce a large onion ready for market from four to six weeks earlier than can be had by sowing the seed. This enables the grower to sell his entire crop earlier in the season, at which time prices usually are higher than when the bulk of the crop reaches market. It also permits the sowing of another crop on the land the same year. Bottom Sets also produce good green

onions on most any soil in half the time it takes to raise

them from seed.

Bottom Onion Sets are produced by sowing seed very thickly and they are harvested before they have reached full development.

Multiplier Onion Sets are formed through the division of the bulbs into many smaller ones; they are not grown

Top sets are produced like seed on the top of the ks. Top sets make large bulbs one year and top sets the next.

ONION SETS-(White Bottom). Lb. 20, (postpaid 30c); 10 These are small, solid and of a beautiful silvery white a favorite sort in private and market gardens.

ONION SETS—(Red Bottom) Lb. 15c; (postpaid, 25c); 10 lbs. \$1.40; bu. (32 lbs.) \$4.00 Bright deep red in color, even and dry. The most popular variety.

ONION SETS-(Yellow Rottom). Lb. 45c; (postpaid, 25c); 10 lbs. \$1.40; bu (32 lbs.) \$3.75 produced from seed which makes the finest yel-

low sets.

ONION SETS—(Yellow Multiplier). Per lb. 20c; (postpaid, 30c); 10 lbs. \$1.50; bu. (32 lbs)....\$3.75

Often preferred on account of their earliness.

Late in June they are fully ripe, and can be gathered. They are very productive, five to fifteen bulbs growing from one bulb set out.

PARSLEY

(One ounce for 150 feet of drill).

Parsley—(Moss Curled).

Parsley succeeds best in rich, mellow soil. As the seed germinates very slowly, it should be sown quite in early the spring, previously soaking the seed for a few hours in tepid water. Sow thickly in rows a foot apart and half an inch deep. For winter use protect in a frame or

light cellar, or a few plants may be placed in pots or boxes, and kept in the house.

PARSLEY—(Peerless Moss Curled). Pkt. 5c; oz. 15c; 1/4 well grown; it is hardy and slow to run to seed; every gardener's favorite.

PARSLEY—("Ideal" Extra Curled). Oz. 20c; ¼ lb. 75c; In shape of leaf, color and taste this new variety is the

Turnip rooted variety. The roots as well as the leaves are used for flavoring soups, etc.

PARSNIPS

(One oz. for 200 feet of drill, 5 to 6 lbs. in drills for an acre)
Sow as early in spring as the weather will admit, in drills 15 inches apart, covering half an inch deep. It is usual to take up in the fall a certain quantity for winter use, leaving the rest in the ground till spring, to be dug up as required.

PARSNIP—(Shick Shoulder. Hollow Crown). Pkt. 5c; oz.

PARSNIP—(Improved Guernsey). Oz. 10c; ¼ lb. 25c; lb. 90c For those who like an early Parsnip this variety will be found very useful; not as large as the longer varieties.

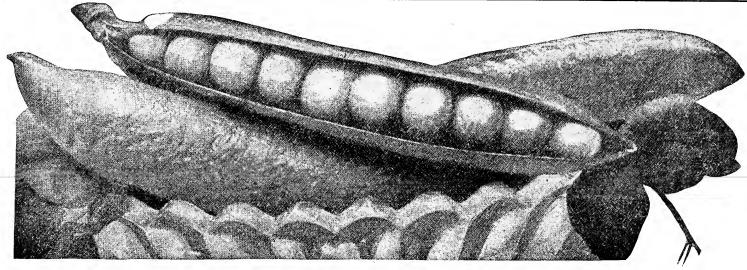

PARSNIP—Improved RSNIP—Improved Marrow). Oz. 10c; ¼ lb. 35c; 1 lb.....\$1.50 A new Parsnip from Europe of especial merit. A fine-grained, sweet table variety.

Parsnip—(Hollow Crown).

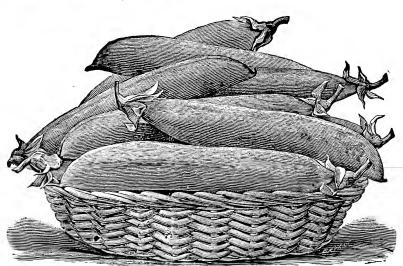

Parsnip-(Improved Guernsey).

Peas—(Roosevelt).

Pea-(Premium Gem).

Peas-(Gradus).

PEAS

(1 lb. to 100 feet of drill; 80 to 100 lbs. to the acre).

When grown as a market crop, peas are never stalked; for private use they are generally sown in double rows, and the tall varieties staked up by brush. For an early crop sow as soon as the ground can be worked, and make repeated sowings every two weeks for succession. After the first of June, sowing should be discontinued until the first of August, when a good crop may sometimes be secured by sowing an extra early sort for fall use.

equally good for the home garden. The medium sized pods are borne in pairs, and are easily and quickly picked. This variety is said to have yielded more shelled peas to the acre than any other American sort.

PEAS—(Montana Market). ½ pint cartons, 10c; 1 pint, 20c; (per lb., postpaid, 40c); 10 lbs. by express, \$2.00 Height 24 inches. Early, large, well filled pods, very prolific and sweet, vigorous grower and sure to please. Beady for use in 55 days from sowing.

please. Ready for use in 55 days from sowing.

PEAS—(Gradus). ½ pint carton, 15c; pint carton, 20c; (per lb. postpaid, 35e); by express, 10 lbs.........\$2.40

The most popular high quality, extra early, wrinkled pea. This remarkable pea is not only large and of the best quality, but is within two or three days as early as the small, round, extra early sorts. Gradus is a wrinkled pea, growing about 30 inches high; the pods are of a bright green color, measuring 4 inches or more in length, as large as Telephone, well filled with luscious peas, 8 to 10 or more in a pod. The peas are of the highest table quality and retain in a remarkable manner their color and attractive appearance after cooking. A grand pea in all respects.

Tall branching variety, medium size pods with large peas of good quality. Ripens evenly and is used largely for canning.

the tall, wrinkled sorts. Prolific, hardy and of fine

PEAS—(Carter's Daisy—Early Dwarf Telephone). ½ pint carton, 15c; (1 lb. postpaid, 30c); by exp., 10 lbs, \$2.25 Dwarf, large podded, needs no brush. The striking features of the Daisy pea are its large pods and the way in which they are heaped up in ridges on the short, strong vines. The pods are nearly double the size of American Wonder or Little Gem, and are always well filled with large peas of most excellent quality. The vines are 16 to 18 inches high, and being strong and thrifty, require no support, making it an ideal variety for use where brush or stakes are not available. This pea is desirable on account of the fine appearance of the pods, and always finds a ready sale.

PEAS—(Advancer). (1 lb. postpaid, 25c): 10 lb. by exp. \$1.50 Vines upright and vigorous in growth, hardy and productive. Height about 30 inches foliage dark green: pods 2½ to 25 inches long; round, dark-colored and blunt. Fit for picking 61 days from planting. A very fine pea for market gardeners or canners.

PEAS-(Notts Excelsior). ½ pint carton, 10c: (lb. postnaid, 30c): 10 lbs. by express..... Resembles the Gem in habit, but more dwarf and uniform in growth. Height from 12 to 17 inches. Pods are light in color, round, about 21/2 inches long. Fit

Medium tall. wrinkled variety, broad pods, large peas.

PEAS—(Improved Strategem). ½ pint carton, 10c: per lb. quality it is unsurpassed, the peas when cooked being of the most delicious sweetness. Vines grow 18 inches to 2 feet, so they do not have to be brushed: nevertheless, they hear many very large pods packed with immense dark green peas. Fine for home and

The peas are large and of fine quality, and variety. the pods, which are broad and medium sized, remain in condition for a long time. It bears immense crops, both of pods and dried peas, and is the variety most largely planted by gardeners.

PEAS—(Telephone). (Per lb., postpaid, 35c): 10 lbs., by

acquisition: vines vigorous, growing about four feet high and producing an abundance of large pods filled with immense peas, which are tender, sweet and of excellent flavor. It has sterling merit, which gardeners

appreciate.

PEAS—(Colossus). (Per lb., postpaid. 40c); 10 lbs., \$2.85 This splendid pea is of the same large podded type as the Telephone, but the pods are larger and the peas sweeter. The Colossus pea surpasses all other largepodded varieties in another particular, that of productiveness. In other words, a pint of Colossus pea pods will yield as many shelled peas as a quart of most other sorts. Quality is always to be preferred to quantity, but a pea which will give better quality and larger quantity is the pea to plant: that pea is the Colossus.

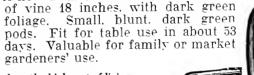

PEAS—(White Marrowfat). Pint cartons, 15c: (1 lb. post-past, 25c'; by express, 10 lbs, \$1.00. Write for prices past. 25c': by express. 10 lbs. \$1.00.

on larger quantities.

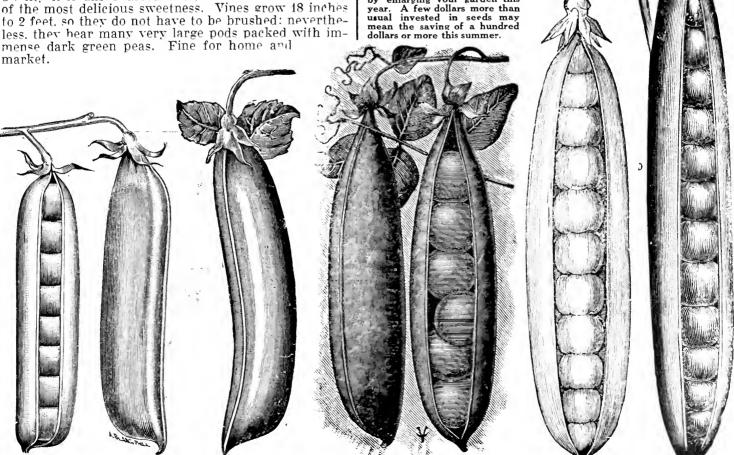

Large peas of good flavor: grown as a field crop. they are very profitable feed for stock or hog feed: our stock is the true Marrowfat: smoot hseeded.

PEAS—(Little Marvel). (1 lb. postpaid, 30c': 10 lbs. by

express A new dwarf, first early Pea of unusual value. Height

(Horsford's Market Garden). (Improved Strategem).

Pea—(Yorkshire Hero).

(Telephone).

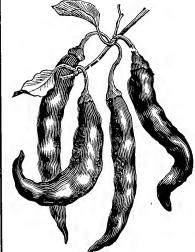

(Colossus.)

PEAS—(British Wonder). (1 lb. postpaid, 30c); 10 lb. by express \$2.40

We cannot too highly recommend this new sort introduced last year. Briefly, its a dwarf Pea with extra large pods and peas of finest quality. British Wonder will soon supersede all other dwarf peas. Give them a place in your garden.

PEAS—(In 5c Lithographed Packages).
First and Best, Gradus, Abundance, Montana Market.
American Wonder, Telephone, Premium Gem.

N. B.—Deduct 8c per lb. if ordering Peas, Beans or Corn by Express at Postpaid Prices.

Pepper—(Long Red).

PEPPERS

PEPPER—(Sweet Mountain)
Pkt. 5c; oz. 25c; ¼ lb. 75c
Fine flavor, very large,
bright color.

PUMPKINS

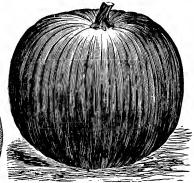

(One pound will plant from 200 to 300 hills).

PUMPKIN — (Early Sugar). Pkt. 50c; oz. 10c; ¼ lb. 25c; lb. 75c Fine grained, sweet and prolific; small in size, but the best pumpkin known.

PUMPKIN — (Quaker)
Pie). Pkt. 5c; oz. 10c;
1/4 lb. 30c; lb.......85c
A small, round yellow sort, with fine pinkish netting.
Flesh is thick, sweet and of excellent quality.

Pumpkin—Early Sugar).

Pumpkin—(Connecticut Field)

PUMPKIN— (Connecticut Field). Pkt. 5c; oz. 10c; ¼ lb. 15c; lb.......50c Standard variety for field culture and stock feeding, large, hardy and productive.

PUMPKIN—(King of the Mammoths). Pkt. 5c. oz. 45c; ¼ lb. 35c; lb.......\$1.00 The largest of all the Pumpkins.

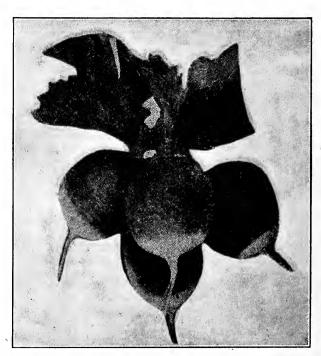

PUMPKIN—(Japanese Pie).
Oz. 10c; ¼ lb. 30c; lb. 95c
A crookneck variety.
Early seeds are marked very curiously. Flesh

Culture—The common practice is to drop two or three seeds in every third or fourth hill in the cornfield, but if cultivated on a large scale, the seed may be sown in hills 8 feet apart each way, four plants to each hill.

RADISHES

Being a root crop, good brittle radishes require light, well worked soil, made very rich and mellow to insure quick growth. If permitted to grow slowly, they become tough and pithy. They are easy to grow and frequent plantings will insure a constant supply for the table. Use two-thirds ounce for 100 feet of row, and thin the very young plants somewhat to prevent crowding. Summer varieties can be sown all spring and well into summer. Winter varieties, however, require some time to mature; the seed of these should be planted in July.

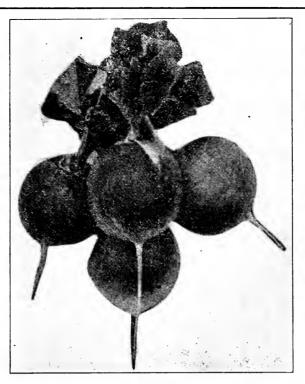

RADISH—(Montana Market). Pkt. 5c; oz. 10c; ¼ lb. 25c; lb............60c Early scarlet turnip-rooted variety, leads all others for first outdoor crop. Sow at intervals of 10 days for a succession of crops.

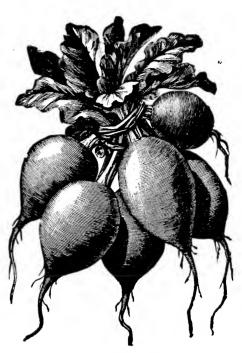

Radish-(Scarlet Globe).

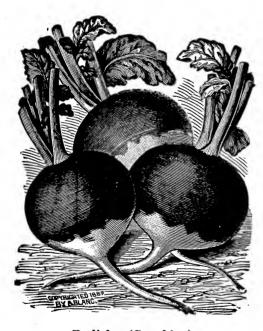

Radish—(Peerless Family).

Radish—(Non Plus Ultra).

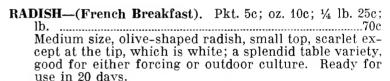

Radish—(Sparkler).

leaves are small, they are sufficiently large for bunching.

RADISH—(Strasburg). Pkt. 5c; Oz. 10c; ¼ lb. 25c; lb..........70c In our opinion there is no better radish grown; the roots are white and grow to a large size, four to five inches thick; for sweetness, tenderness and flavor it is unequaled by any other radish for summer use.

Radish—(Strasburg).

RADISH—(Early White Turnip). Oz. 10c; ¼ lb. 25c; lb. 85c A very quick-growing, small, turnip-shaped variety. Color, clear white; very mild flavor.

RADISH—(China Rose-Winter). Oz. 10c: ¼ lb. 20c; lb. 60c One of the best fall and winter varieties, firm, white flesh.

are of transparent whiteness with short leaves, and make their growth very quickly. It is of excellent flavor and equally valuable for home use and market

RADISHES—(In 5c Lithographed Packages).
Early Bird, Sparkler, Montana Market; Early Scarlet Turnip, French Breakfast, Early Scarlet Turnip White Tip, Long White Strasburg, Icicle, Long Scarlet Short Top. White Turnip, Long Black Spanish, China Rose.

RHUBARB

RHUBARB — (Monarch).

Pkt. 5c; oz.....20c Largest and most productive variety known. Will grow 15 to 20 inches long and fully 1½ inches broad. Sow Rhubarb seed in drills one inch deep and thin out to six inches apart; transplant in the fall to deep, manured setting the plants four to six feet apart each

RHUBARB — (Victoria). Pkt. 10c; oz.....25c Very large, highly colored and of good flavor

RHUBARB ROOTS—(See under Vegetable Plants).

SSALSIFY OR OYSTER PLANT

(One ounce will sow 50 feet of drill). Culture— Sow the seed in light, deep soil, early in spring, in drills 12 inches apart and 1 inch deep, thinning out the young plants to 4 or 5 inches. The roots will be ready for use in October, when a supply should be taken up and stored like carrots. Those remaining will suffer no injury by being left in the ground till spring, but should be dug before commencing their growth.

SALSIFY—(Mammoth Sandwich Island). Pkt. 5c; oz. 15c; ¼ lb. 40c; lb.............\$1.25 We consider this the largest and most profitable salsify in cultivation; roots are two to three times the size of the ordinary salsify, and of more agreeable flavor. It is pure white in color, and invaluable to market gardeners.

SPINACH

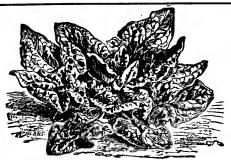

(One ounce for 100 feet of drill; 10 to 12 pounds in drills for one acre).

The main crop is sown in September. It is sometimes covered up in exposed places with straw or salt hay dur-

Spinach—S. N. Co.'s Improved Thick Leaved).

ing winter, which prevents it from being cut with frosts; but in sheltered fields there is no necessity for covering. For summer use it may be sown at intervals of two or three weeks, from April to August. Spinach is best developed and most tender and succulent when grown in rich soil.

Spinach—(Long Standing).

SPINACH — (Long Standing). Pkt. 5c; oz. 10c; ¼ lb. 15c; family use, as the plants remain condition longer without running to seed than round-leaved the sorts. Thick, well flavored leaves.

SPINACH—(Improved Thick Leaved). Pkt. 5c; oz. 10c; 1/4 This variety grows very quickly, forming a cluster of slightly wrinkled leaves of fine color and quality. Especially recommended for market gardeners. Sow in rich ground—the richer the better. If for early spring use, sow in the fall and protect the young plants with a covering of light manure or straw.

SPINACH—(New Zealand). Oz. 10c; ¼ lb. 30c; lb..........\$1.00 The stems and leaves of this variety are soft, thick, fleshy and crystalline in appearance. Started early in the springs, the plants will resist heat and make strong growth during the summer.

Chester, Mont., Nov. 1st, 1912.

State Nursery Co., Helena, Mont.:

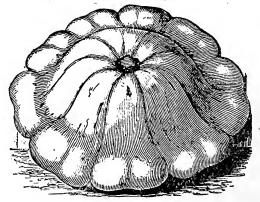

From the Peerless Snowball Cauliflower seed received from you last Spring I raised the finest Cauliflowers of this section. Seven heads weighing 9 lbs. each and a fraction over and four of them sold for 45c per head. The Celery seed also gave excellent satisfaction. We have the celery now trenched in the cellar where it is bleaching nicely and all who taste it pronounce it of superior flavor. Trusting that the present order may be as satisfactory as former orders. I remain,

Yours Respectfully

MRS. CARRIE HEATON.

SQUASH

(One ounce to 10 hills; 2 lbs. to the acre). There are two distinct types. The Summer is cultivated for the tender young fruits which are used in the green or growing stage during the summer months. Winter squashes produce larger, hard-shell fruits, which are gathered in the fall before there is danger of their being injured by frost, and stored in a warm, dry place for winter use. A few of the varieties, notably Fordhook, may be used in either state.

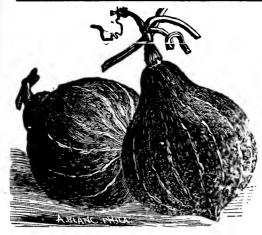

Squash-(White Bush).

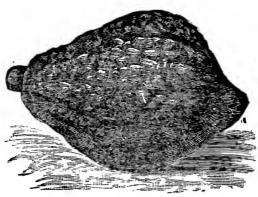

SQUASH—(White Bush Scallop). Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb.` The fruit is a beautifully waxy white of superior quality; the best early squash.

SQUASH—(Giant Summer Crookneck). Pkt. 5c; oz. 10c;

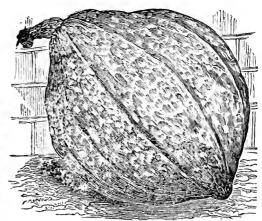

½ lb. 30c; lb..... As early as the common Summer Crookneck, and much larger, often measuring from 15 to 18 inches in length, of bright golden color and very best quality. Commands an extra price in market.

Squash—(Hubbard—Superior Strain).

Squash—(Warted Hubbard).

Squash—(Boston Marrow).

SQUASH—(Chicago Warted Hubbard). Oz. 10c; ½ lb. 30c; lb. \$1.00 It is similar in size and quality to the Hubbard. The vines are vigorous and productive, while the large, dark olive-green fruits are rather more heavily warted. Very handsome in appearance; an excellent keeper and of splendid quality.

squash—(Italian Cocozelle or Vegetable Marrow). Oz. 20c; ¼ lb.....75c A favorite English sort. The fruit is very variable in size, from 9 to 18 inches in length, and from 4 to 6 inches in diameter. Skin a greenish yellow, flesh white, soft and of rich flavor. This is entirely distinct from all other varieties of squash. Plant 8 feet apart.

SQUASH—(In 5c Lithographed Packages).

Early White Bush, Improved Hubbard, Summer Crookneck, Boston Marrow, Vegetable Marrow.

SUNFLOWER

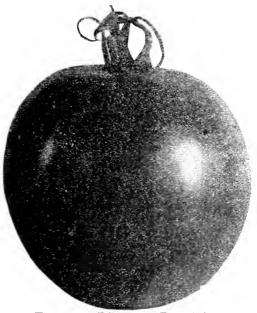

SUNFLOWER—(Mammoth Russian)
Oz. 5c; (lb. postpaid, 25c); 10
lbs. \$1.25
The standard large-growing variety, which is used largely for feeding poultry.

SWISS CHARD

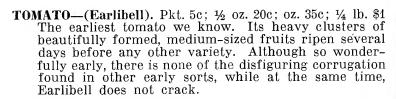

TOMATOES

Tomato—(Dwarf Champion).

Tomato—(Montana Beauty).

TOMATO—(Atlantic Prize). Pkt. 5c; oz. 20c; ¼ lb......60c This is the largest, smoothest, best flavored and brightest colored extra early tomato. Vine medium size, with few leaves, very hardy, bearing the fruit low down on the stem and in enormous clusters, which ripen all together.

TOMATO—(Acme). Pkt. 5c; oz. 25c; ¼ lb......80c An old variety of delicious flavor, dark red, tinged with purple.

TOMATO—(Dwarf Champion). Pkt. 5c; oz. 25c; ¼ lb. 75c On account of its dwarf, compact habit, it can be planted quite close. Wonderfully productive, the dark reddish purple fruit being very solid and firm. Of medium size. Very desirable for the home garden.

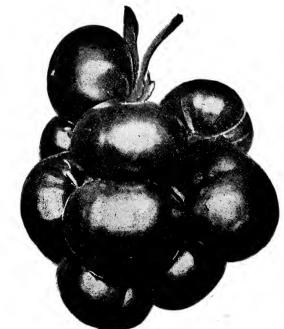

Yellow Cherry—Pkt. 5c; oz.......30c For pickles and preserves.

Yellow Peach—Pkt. 5c; oz. _____25c Beautiful clear yellow; perfectly resembles a peach. Yellow Pear—Pkt. 5c; oz. ____25c Handsome, yellow, pear-shaped fruits.

TOMATOES—(In 5c Lithographed Packages).
Early Minnesota, Earliana, Early Acme, Red Cherry,
Montana Globe Beauty, Yellow Pear, Golden Queen, Dwarf
Champion, Earlibell, Atlantic prize.

Tomatoes—(Earlibell).

Tomato—(Earliana).

Fort Benton, Montana, January 17th, 1913.

State Nursery Co., Helena, Mont.

Dear Sirs: I wish to express my appreciation for the nice flowers you sent this time. They were splendid.

Yours very truly,

JERE J. SULLIVAN.

TURNIPS

(One ounce will sow 150 feet of drill; 2 pounds will sow an acre).

Culture—For early use, sow as soon as the ground can be worked in spring, in drills 15 inches apart, and thin to 8 inches apart as soon as plants are large enough to handle. The sowing should be made just before rain, if possible,

a rapid growth being important.

For feeding stock in fall and winter there is nothing superior to turnips and rutabagas, as they are much liked by all kinds of stock and serve to keep them in good condition. We cannot too earnestly recommend farmers to increase their sowings largely, for we are sure the crop will prove remunerative.

There are a great many varieties, but our list com-

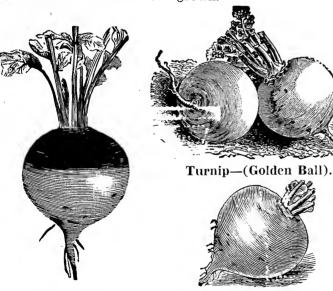

prises the best for the garden or farm.

Turnip—(S. N. Co.'s Milan).

TURNIP—(White Milan —Extra Early). Oz. 15c; 1/4 lb. 35c; lb......\$1.00 Very small top, upright and compact; the clear white roots are very smooth, symmetrical and beautiful; there is no better turnip for early bunching; fine grained, tender sweet.

TURNIP—Purple Milan—Extra Early). Oz. 10c; ¼ lb. 30c; lb. 90c Very similar to the White Milan except that the roots are a little more flat, and the top of root is purple red. TURNIP—(Early Flat Dutch). Oz. 10c; ¼ lb. 20c; lb....60c Roots medium sized, flat, color white, very early, sweet and tender. Is is desirable for table use, but is spongy and inferior when overgrown.

(White Globe).

Turnip-(White Egg).

TURNIP—(Montana Snowball). Pkt. 5c; oz. 10c; 1/4 lb. 25c; Sweet, early, solid; favorite for early market bunching.

TURNIP—(Purple Top White Globe). Pkt. 5c; oz. 10c; 1/4

TURNIP—(Purple Top Strap Leaf). Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c
The most generally planted of any variety. It is a quick grower, the flesh is very fine grained and sweet flavored. The red top of the bulb extends down to where

it rests in the soil. TURNIP—(Yellowstone). Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c Medium size, round and smooth; pale yellow color,

flesh solid, tender and excellent keeper.

TURNIP—(Golden Ball). Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 65c The most delicate yellow-fleshed turnip; of medium size form hard and of superior flavor. Valued highly as a table variety.

TURNIPS—(In 5c Lithographed Packages).
White Milan, White Egg, Montana Snowball, Purple Top Globe, Purple Top Strap Leaf, Golden Ball, German Sweet Rutabaga, Purple Top Rutabaga.

RUTABAGA

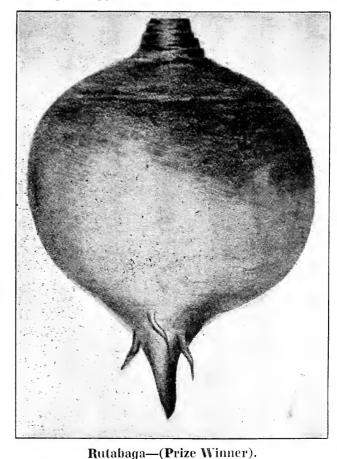

Rutabaga—(American Purple Top).

These require a longer season in which to grow than do other turnips; the seeds should be sown about the first to the middle of June.

RUTABAGA —(American Purple Top). Pkt. 5c; oz. 10c; ¼ lb. 20c; lb...........60c
This strain is of American origin and is a purple top, yellow variety. It has been selected to produce a smaller top and a shorter neck than is usually found. The roots grow to a large size and are of the finest quality and excellent both for the table and for stock raising.

which is tender and sweet.

RUTABAGA—(Prize Winner). Oz. 10c; ¼ lb. 30c; 1 lb. 70c Short neck, small top, firm flesh, symmetrical shape, united with high feeding value, great productiveness, hardiness and long keeping qualities, describes the perfect Rutabaga. Every root of the Prize Winner more nearly approaches ideal than any other strain.

Rocky Mountain Lawn Grass Seed

View of C. B. Power, Esq.'s New Lawn (Helena) Seeded Sept. 1st, 1913 by the Krogman Co. (Landscape Gardeners), With Seed Supplied by Us. A Wonderful Showing in 30 Days—(Photo Taken Oct. 1st).

One of the greatest essentials of the country place and suburban home is a properly-made and well-kept lawn. We have made careful study of the grasses required for best results and the formulas of our various Grass Mixtures are based upon these experiments. The combination of varieties of grasses used is the best for quickly producing permanent lawns.

To Make a Handsome Lawn—The ground must be well dug, raked and leveled, and where the soil is composed mostly of sand and gravel, a top dressing of about four inches of black soil should be applied, and every semblance of weed roots removed. If rich soil cannot be secured, well decomposed stable manure or a good fertilizer may be used. After the seed is sown, which should be done on a calm, dry day, rake the seed in and roll well, or in the absence of a roller, pat the ground well with the back of a spade or shovel. Much of the fine appearance of a lawn depends upon the regularity in mowing. If not closely mown the stronger grasses will overgrow the weaker, thus rendering the whole patchy and unsightly. For forming new lawns, not less than sixty to one hundred pounds of seed are required per acre, and for the renovation of old ones, half that quantity will give good results.

The most important thing to consider in selecting seed for lawn grass is to obtain a proper mixture of several varieties for the reason that each variety is at its best during a certain part of the season. By properly choosing early, medium and late grasses, a smooth, even, green lawn is assured from early spring to late autumn.

ROCKY MOUNTAIN LAWN GRASS MIXTURE-1 quart pkg. postpaid, for 200 square feet of lawn, 35c; 5 lbs. \$1.15

With the above facts in mind, our Lawn Grass Mixture is scientifically combined. Our experience of many years has given us an intimate knowledge of grasses, their habits and requirements. In our Rocky Mountain Lawn Grass Mixture are included only the very best varieties—pure, clean and free from foul seec.

ROCKY MOUNTAIN LAWN GRASS MIXTURE, WITH WHITE DUTCH CLOVER-1 quart pkg. postpaid, 35c; 5 lbs. \$1.15; 10 lbs.....

many friends, and it is increasing in popularity. Write for prices in large quantities.

SHADY PLACE LAWN GRASS—1 lb. postpaid, 45c; 10 lbs..... Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are those that are well adapted for growing in shade.

Helena, Mont., October 2, 1913.

Helena, Mont., October 2, 1913.

State Nursery Co., City.

Gentlemen: In reply to your inquiry as to what success we have had with your Rocky Mountain Lawn Grass Seed, will say that we are enclosing herewith a photo showing a portion of a residence lawn in this city. This, we think, will be of interest to you, as this is one of our Fall seeding. This was sown the first day of September this year and the picture was taken thirty days later. As you will notice in the picture there is a luxuriant growth and the grass is ready for the first mowing. It is our belief that this mixture is the best for lawn purposes in the Northwest.

Thanking you and wishing you continued success, we are,

we are,

Your very truly, THE KROGMAN COMPANY, By Herman Krogman, Mgr.

нк. с

KENTUCKY BLUE GRASS—(Peerless Grade). (Lb. postpaid, 40c); 10 lbs. \$3.00 We wish to call particular attention to the cleanliness of our Blue Grass. As usually sold by most seedsmen it weighs 19 to 20 lbs. to the measured bushel. Our seed is so thoroughly recleaned that a measured bushel weighs 25 lbs.

KENTUCKY BLUE GRASS—(Fancy Recleaned). (Lb. postpaid, 30c): 10 lbs. \$2.00. Used extensively for lawns and parking streets; also makes excellent pasture or hay. Weight of seed

21 pounds per measured bushel.

WHITE CLOVER—(Fancy Recleaned). (½ lb. carton. postpaid, 30c); (1 lb. carton, postpaid. 55c; 10 lbs, \$4.50; 25 lbs, \$10.50 This is frequently sown to cut green for chicks and fowls; also used largely in making lawns for which this variety is especially adapted.

Evergreen Brand FLOWER AND LAWN FERTILIZER

1/2-lb. Cans, 25c. and 12-lb. Cans, \$2.00 each.

Is specially prepared for growing Flowers, Ferns, Palms and Lawns.

It is a highly concentrated homogenous mixture, contains all the food elements necessary to plant and grass growth and is compounded in proper proportion to get the best results.

Its recommendation is based upon careful, extended and disinterested experiments, showing that this material

is a nourishing, easy-available food for crops.

It can be used on any kind of soil, for it is a combination of all plant foods, such as are taken from the ground by the crops mentioned, thus it provides digestible food for the roots when they require it, regardless of climate or

Its composition consists of about half Animal matter and half Minerals, treated and refined, thus it is free from all deleterious substance and will not burn or injure the most delicate plant root, unless an extraordinary amount is applied.

GUARANTEED ANALYSIS.

Per	cent.	*	Per cent.
Nitrogen Available	8.00	Equal to Available Bone Phos	31.65
Equal to Ammonia	9.72	Potash (K20)	15.00
Phosphoric Acid Available	14.50	Equal to Potassium (K)	12.45

Contains no "filler." The plants can use it all. It is immediately available, and its effect upon most crops may be noticed within six days after its application.

HAMMOND'S WEED KILLER-The method of killing weeds thoroughly by application of this liquid has become general. It is a great labor-saver. It is to be used only on paths, drives, gutters and places where no growth is wanted. Best time to apply is after rain, while the ground is moist, and will absorb the liquid to the roots of grass and weeds. One gallon will make 20 gallons of treating liquid, sufficient to cover 100 square yards of surface.

Alfalfa.

Timothy.

Prices quoted on Field Seeds are those in effect at the time this catalog goes to press. We will maintain these prices as long as possible, but cannot guarantee them throughout the season. Order early before our stocks are exhausted. Current Price of Field and Grass Seeds during the season will be quoted on request.

About Montana Alfalfa—Montana produces a very fine grade of Alfalfa. The seed is usually exceptionally large and of high germination. Montana grown Alfalfa is extremely hardy, and we prefer it to seed from any other locality. Our seed is obtained in those sections where plants have endured the extreme cold of winter, and thrive in high alti-i tures. Not only has our experience of several seasons demonstrated the superiority of this seed under adverse climatic conditions throughout the entire Northwest, but more recent experiments of both the Minnesota and North Dakota Agricultural Stations have established, without a doubt, the superior hardiness of Montana grown Alfalfa over that produced elsewhere.

About Ordering Early—It may seem that we are unduly urgent in respect to sending orders early in the season, but we are compelled to disappoint so many of our customers who wait until stocks are exhausted, that we can see the great importance of attending to this matter as soon after the catalog is received as possible.

FACTS ABOUT ALFALFA.

Alfalfa produces from 3 to 7 tons of hay to the acre. It has as much protein as Wheat bran; 360 stalks have been grown from one seed. It does not exhaust the soil, but enriches it. It can be ground into meal to feed hogs and chickens. It will grow 2 to 3 crops a year.

Alfalfa in money value is worth 45 per cent more than other Clovers and 60 per cent more than Timothy. Ten milch cows can be fed on less than 2 acres by soiling. One acre will pasture 20 hogs for six months.

Three pounds a day makes a full feed for fattening lambs. Four to five pounds makes full feed for fattening aged sheep. Thirty-five pounds makes a full feed for fattening steers.

A lamb will winter and thrive on 3 pounds a day. Sheep fed with Alfalfa will gain from 8 to 15 pounds in 75 days and will double, with samll grain ration added. Lambs wintered on Alfalfa will produce one to two pounds more of wool than when on the range.

Alfalfa is a fine poultry feed when cut fine, and this is also a good way to feed it to hogs in winter. Fed to dairy cows, Alfalfa maintains the flow of milk equal to June grass for nearly a whole year. It can be

chopped fine with corn meal. Such a mixture is worth more per pound than the original corn meal.

Many interesting facts in addition to the above might be cited about Alfalfa. It would hardly be possible to say too much about Alfalfa; it is a working plant which is changing the destiny of many fariming sections.

Its long branching roots penetrate far down, push and crowd the earth this way and that, and thus constitute a gigantic subsoiler. These become an immense magazine of fertilety. As soon as cut, they begin to decay and liberate the vast reservoir of fertilizing matter below the plow, to be drawn upon by other crops for years to come.

Quantity of Alfalfa Seed to use per acre is governed by the method of seeding. If drilled in, use about 12 lbs.; if broadcast, use 15 to 20 lbs.

A sample of our "Peerless Alfalfa" Seed assisted in securing the First Prize at the National Land Show in New York City.

ALFALFA (Medicazo Sativa)

(State Fair First Premium Seed). 60 lb sealed bags..... ALFALFA—(Peerless). This exceptionally fine lot of seed was grown by Roberts and Brown at their ranch near Chinook, Blaine County, Montana, and captured first premium against all Montana at the State Fair. Realizing that quality counts first

the extreme cold of winter and thrive at high altitudes. Our experience of several seasons has demonstrated the superiority of this seed under adverse climatic conditions throughout the entire Northwest. We have several

cars of seed, from which orders will be filled until the stock is exhausted.

ALFALFA—(No. 1 Montana).. (Lb. 35c postpaid); 25 lbs, \$5.50: 100 lbs..... Experiments of many agricultural stations have established without a doubt the superior hardiness of Montana grown alfalfa seed over that produced elsewhere. This grade is selected from among the best that grows, and is next only to our "Peerless." Samples cheerfully sent to intending purchasers; when writing for sample, please state what quantity you expect to use, so that we may quote you the best possible price on the quantity you need

or Peerless grade. Samples on request, with purity and germination.

ALFALFA—(Turkeston Alfalfa). (Lb. 35c, postpaid); 25 lbs. \$5.25: 100 lbs..... Many of the biggest ranches are using this variety, preferring it on account of its producing a finer hay. We have secured a stock of this variety of high germination and purity, and warrant our seed to be the genuine Turkestan, grown in Asia.

ALFALF 4—(Montana Dry Lard). (Lb. postpaid 40c); 25 lbs. \$6.50: 100 lbs. \$24.00

The extension of Alfalfa growing into the regions of limited rainfall has created a demand for Alfalfa seed especially adapted to those conditions. Seed which has been produced from Alfalfa grown on dry land and without irrigation is, of course, much preferable for dry land culture to seed produced under irrigation or normal rainfall. It is not always possible to obtain seed grown under these conditions, but we have succeeded in purchasing a limited amount of fine seed which is offered only until our stock is exhausted. In case we do not have Dry Land Alfalfa when your order is received, we suggest that you state on your order as to what variety we may substitute in its place, of equal quality, to the value of the money you send us.

ALFALFA—(Kansas). Per 100 lbs..... Owing to the very dry season in Kansas last year, there were some very fine lots of alfalfa seed saved, in order to have a low price high grade seed to offer, we secured some of the finest grown for our customers. Write

us for sample of this Seed, with germination and purity tests, stating quantity you can use. **FA—(Grimm's).** Per lb, (Postpaid)...... This is claimed by many to be the hardiest of all Alfalfa.

CLOVER

CLOVER—(Medium Red). (Lb. postpaid, 40c); 25 lbs. \$5.50:\$20.00 Looking to the future, no time should be lost in introducing the bacilli of the Red and Alfalfa Clovers. The use of nitro cultures may tend to hasten their estab-Irshment, but nature's way, and the best way, is to use a small quantity of seed, say a pound or two each of Red and Alfalfa Clover to the acre with whatever crop you are seeding. After a little you have the prized bacilli in your land, then you may safely call your farm doubled in value from a producing standpoint. Red Clover is regarded as the most important of the whole genus for practical agriculture; valuable not only for forage, but also as a fertilizer for the soil. Long, powerful tap-roots, which in decaying add largely to that black mass of matter we call soil. Makes excellent hay, and can be cut twice a year. Sow 12 to 15 pounds to the acre.

CLOVER—(Alsike or Swedish). (Lb. postpaid, 40c); 25 lbs. \$6.25; 100 lbs. This Clover originally came from the little Province of Alsike in Sweden. One of the hardiest varieties known: is perennial and does not winter kill: stands, alike drouth or wet. We know of many who have used Alsike Clover to sow in boggy land, making this land produce a crop or pasturage and at the same time enabling it to be driven over, as the mass of roots make a heavy sod. Favorite with bee-keepers. Flowers with sweet. agreeable odor. Sow 8 to 10 lbs. to the acre. CLOVER—(White Dutch). (Lb. postpaid, 50c): 25 lbs. \$9.00

Excellent for pasture, and when mixed with Kentucky Blue Grass, makes the finest and most nutritious food for sheep and cows; used universally for lawns in the United States. Sow 5 to 8 pounds to the acre, alone for pasture; for lawn, 1 lb. to 400 square feet. CLOVER—(Crimson Clover). (Lb. postpaid, 35c); 25 lbs.; 100 lbs..... An annual variety in common use in Italy and south-

ern France for feeding green. Also grown largely in this country in Virginia, where it is called "German Clover," and we think would do well in our western Clover," and we think would do well in our western states. Two or four weeks earlier than the Red Clover and for that reason is more desirable. Immense yielder of fodder. Commences to grow at once after cutting, and continues to do so until frost. Height 1½ feet; roots nearly black; blossoms long and of deep carmine color. Makes good hay.

CLOVER—(Sweet White Blossom). (Lb. 35c, postpaid):

100 lbs. As Sweet Clover can be grown under conditions which are unfavorable to most forage or grazing crops, it is destined to become quite popular in our non-irrigated pasture lands. This fact has caused our Agricultural Colleges to recommend it very highly. There have been more inquiries for Sweet Clover Seed in the past few weeks than in all our years in business in Montana.

CLOVER—(Esparsette or Sanfoin). (Lb. postpaid, 30c): 10 lbs. \$2.50; 100 lbs.....

A leguminous plant with many stems. 2 to 3 feet long. Perennial, roots hard and woody; flowers in July. Same family as Alfalfa. Adapted to light, chalky soils. sands, gravels and barren regions deficient in rainfall and without irrigation advantages. Shorter lived plant than Alfalfa. but will last from 8 to 10 years, according to soil, by judicious too dressing of manure. It is excellent for cows, increasing flow and quality of Would advise early and heavy seeding. Follow milk. with roller. Sow seed 2 inches deep, and from 30 to 40 lbs. per acre.

(Prices Quoted are F. O. B. Helena) Subject to change.

TIMOTHY

TIMOTHY—("Peerless"). (Lb. postpaid, 20c); 25 lbs. \$2.00; As a crop for hay, Timothy is probably unsurpassed by any other grass. It is greatly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is not suited for a permanent pasture, as it will, in the course of a few years, run out. It is, however, well adapted to early spring grazing, as it starts up quickly in the spring, and in favorable weather can be pastured in the autumn as well. The largest crops of hay are raised on rich land. It is not suited for light, sandy soil so well as some other grasses. The most important point in the growing of Timothy is the selection of good seed. Poor seed, besides containing weed seed, will not all grow. That which does germinate is weak and produces few stalks and seed heads. It should not take an intelligent farmer long to figure the wisdom of investing his time and money in reliable seed, and that means Peerless brand. Only ten pounds of this grade required to the acre when sown alone.

TIMOTHY—(No. 1). (Lb. postpaid, 20c); 25 lbs. \$1.75; This grade, like the above, is the plump native grown seed, unequaled by the stocks of most eastern firms. If you use large lots, write for special price, stating quantity you expect to use.

TIMOTHY—(Alsike Clover and Timothy Mixed). postpaid, 30c); 25 lbs \$4.00; 100 lbs..... Where Alsike Clover and Timothy are grown together, and the seed is saved therefrom, it is impossible in cleaning to make a complete separation of the two. On this account we purchase the seed for less money and we can sell it for less money than would be the case if a perfect separation could be made. Those desiring to sow Alsike and Timothy together can save considerable money by buying the seed of these two varieties together as originally harvested. This makes a splendid mixture for hay or pasture, with just enough Alsike Clover to make splendid hay for horses or dairy cows. Sow about 8 to 10 lbs. to acre.

RED TOP
RED TOP—(Solid Seed). (Lb. postpaid, 40c); 25 lbs. \$7.75 A valuable grass for moist soils. It is a good permanent grass, standing our climate as well as any other, and consequently well adapted to our pastures, in which it should be fed close, for if allowed to grow up to seed, the cattle refuse it. On moist, rich soil it will grow 2 feet, and on poor gravelly soil, about half that height. It has been grown successfully even on "alkali" bottom lands, where other grasses failed. We do not handle the chaffy grade of Red Top, and offer only the clean seed. Sow 15 pounds to the acre.

BLUE GRASS

BLUE GRASS—(Kentucky Peerless). (Lb. postpaid 40c) 10 lbs. \$3.00; 100 lbs.\$18.00 We wish to call particular attention to the cleanliness of our Blue Grass. As usually sold by most seedsmen it weighs 19 to 20 lbs. to the measured bushel. Our seed is so thoroughly recleaned that a measured bushel

weighs 25 lbs.

BLUE GRASS—(Kentucky. Fancy Recleaned). (Lb. postpaid, 30c); 10 lbs. \$2.00; 100 lbs. \$15.50 Used extensively for lawns and parking streets; also makes excellent pasture or hay.

We can make good use of Parcel Post on small machinery such as grass seeders, sprayers, garden tools and repairs. They take regular zone rates which you can figure from the Zone Table. Some day may be the seeds, bulbs and plants will be counted in with other merchandise and if you hear that has been done, you can have them sent at zone rates.

BROME GRASS

BROME GRASS—(Bromus Inermis). (Lb. postpaid 30c); 25 lbs. \$4.00; 100 lbs. \$15.00 A wonderful drouth resister. A grass for the stock raiser. All cattle like it. Will drive out Russian Thistle, also Black Mustard. Drouth defying, frost resisting. Yields enormous crops of splendid hay and affords early and abundant pasturage. We have seen some very fine crops of Brome Grass and Alfalfa. some very fine crops of Brome Grass and Alfalfa mixed, which makes an excellent hay for horses and cattle. Try it. These both mature and cure at the same time. Our Peerless grade of this magnificent grass is unequalled for purity and high germination, and less seed is required to the acre than any other grade. From good seed, good crops grow. If sown alone, 20 lbs to the acre.

ORCHARD GRASS

ORCHARD GRASS—(Lb. postpaid, 30c); 25 lbs., \$4.75; 100 A valuable grass for pasture or hay land, and on account of its earliness is very valuable for a permanent pasture. It furnishes the first green grass in the spring and until late in the fall. When closely cropped it grows up very quickly and is ready for grazing again in ten to twelve days. When grown for hay, more than one crop can be obtained in one season, and when only one crop is cut the aftergrowth is very heavy and gives splendid and rich pasture till late in the fall. It will stand drouth and is hardy. It grows in tufts, and is therefore best sown with Red Clovers, rye grass, etc. It is well suited for shady places, such as orchards and groves. Sow 22 lbs. to the acre when alone or proportionately with other grasses.

RYE GRASS

PERENNIAL RYE GRASS—(Lb. postpaid 25c); 25 lbs., \$3.00; 100 lbs.\$11.00 A strong-growing, hardy perennial grass, valuable both for grazing and hay. Also makes a fine lawn and does not require the close care that Blue Grass does, as it will flourish better under trees or in shady locations. For field crop sow 40 to 50 pounds to the acre.

MILLETS

MILLET, GERMAN—(Tennessee Grown Seed). (Lb. postpaid, 20c); 25 lbs. \$1.75; 100 lbs..... In the North Millet is sown almost altogether for hay, and for that purpose Southern grown seed is much the best. It grows taller than does that from Northern seed, and that means more hay. It is finer than that from Northern seed, and that means better hay. In fact, it is our judgment, based on an experience of many years that a farmer had better, from the standpoint of profit alone, pay \$2.00 a bushel for true Southern grown German Millet than to sow the best Northern Millet as a gift. Millet seed produced in the North, even from Southern seed, becomes what we call Common Millet. Not only does the plant change in character, becoming coarser and much more dwarf, but the seed itself shows a change and is readily

distinguished by those experienced in handling it.

MILLET, HUNGARIAN—(Dark Seed). (Lb. postpaid, 20c) Millet, as it is about one week earlier and requires less moisture. The hay is fine and of excellent feeding value. It is specially valuable on account of its requiring such a short season to make a fine crop. It can be sown as late as the 4th of July with good results in ordinary seasons. Hungarian Millet does not grow so coarse as some other varieties, but still yields quite heavily, from two to four tons of hay to the acre being an ordinary crop. Hay is quite leafy, of very fine quality.

146

MILLET, SIBERIAN OR KURSK MILLET— (Lb. post-paid, 20c); 25 lbs. \$1.75; 100 lbs. \$6.00 This variety was first introduced into the United States from Kursk, Russia, in 1898. Extensive experiments were conducted at both the South Dakota trial stations which demonstrated the superiority of this new variety. As both a hay and seed producer it ranks very high. In dry seasons the weight and quality of the hay have been far ahead of German or Hungarian Millet. In favorable years the difference has not been so great, but the results have always been in favor of Kursk Millet. In a moist soil and under favorable conditions the German Millet usually gives a little larger yield. We have a fine supply of excellent quality

MILLET, HOG OR BROOM CORN—(Lb. postpaid 15c); 25 Millets are sown, but makes inferior hay unless cut very young. It, however, yields enormously of seed, even 60 to 70 bushels to the acre, and this seed is very advantageously used for fattening swine and other stock, and is of special value for this purpose in sections where corn cannot be safely or cheaply grown. seed also makes very fine feed for poultry or young chicks. It is very similar to the Early Fortune Millet, except that the seed is yellowish-white in color. It will mature in about two months from sowing the seed.

MILLET, JAPANESE—(Improperly Called "Billion Dollar Grass"). (Lb. postpaid 25c); 10 lbs. \$1.00; 100 lbs. \$10.00 Entirely distinct from all other Millets. It grows from 6 to 9 feet high, stands up remarkably and yields enormous crops. When cured it makes good hay and in quality is superior to corn fodder. It is relished by all kinds of stock.

FIELD CORN

CORN-(Rustler White Dent). Lb. postpaid, 20c); by ex-

This Early White Dent (14 to 18 rows) was obtained from a few in kernels the 1885 autumn of Dakota $\mathbf{b}\mathbf{y}$ \mathbf{a} farmer who stated that he had matured it that state forseven successive years; that it was the only corn in his section that could show such ${f record}.$ For a early ripening. great yield and compact growth of ears, it is one of the best; ad-mirably adapted adapted to a northern climate. Average height of stalk, 8 feet; average distance base of ear ground, 3 from feet inches. Those wishing a first class White Dent Corn will find in the Rustler a hard corn to

match.

CORN—(Triumph, Extra Early Yellow Flint). Lb. post-paid, 20c); by express or freight, lb. 15c; 10 lbs, paid, 200); by express or freight, ib. 150; 10 lbs, 85c; 50 lbs. \$3.00 ls a very early flint variety, very bright yellow in color, maturing in from 90 to 100 days from day of planting, according to soil and season. Ears average about 11 inches in length and are 14 and 16 rowed. Occasionally a twelve-rowed ear is found. The kernels are large and the stalks are of good height. The gars are large and the stalks are of good height. The ears average two to a stalk, growing well up so as to readily admit being cut by the harvester. The stalks grow very tall and leafy and make superior fodder.

Directions for Planting—The habit of this corn allows of close planting. The largest crops of both corn and fodder will be secured by planting in rows, dropping the kernels one at a time one foot apart. If it is desired to cultivate both ways, plant in hills about 3 feet 8 inches apart.

CORN—(Minnesota No. 23, or White Cap Yellow Dent).
(lb. postpaid, 20c); by express or freight, lb. 15c; 10 lbs. 85c; 50 lbs _______\$3.00
The wonderful new corn. Highly recommended by the Agricultural Colleges.

CORN—(Early Northwestern Dent). (Lb. postpaid, 20c); by express or freight, lb. 15c; 10 lbs. 85c; 50 lbs....\$3.25 This corn is in a class by itself, being a yellow capped red Dent variety and is one of the most largely grown varieties in North Dakota and the northern part of Minnesota. It is extremely early and quickly adapts itself to new soil and climatic conditions. It gives pest results on a fairly rich soil. Under ordinary conditions the average height of stalk of this corn is 7 feet 8 inches; average distance of base of ear from ground, 3 feet 5 inches. The ears bear 10 to 14 rows. Our supply of seed of this variety usually runs out early in the season, consequently send your orders

CORN—(Minnesota No. 13—Extra Early Yellow Dent). (Lb. postpaid, 20c); by express or freight, 15c; 10 lbs. 85c; 50 lbs. \$3.25
The commanding points of excellence which place Minnesota No. 13 Corn at the head of all Yellow Dent varieties for northern planting are: Its earliness, its enormous productiveness, its adaptability to a great variety of soils and climates. The ears are of handsome appearance, bearing 16 to 30 rows of bright, rich, yellow, smooth, wedge-shaped kernels packed closely on the cob from butt to tip. The ears average eight inches in length and are borne usually two on a stalk. No corn excels in quality the Minnesota No. 13; the cobs are well filled and the individual kernels plump and of good color. Minnesota No. 13 thoroughly matures in 90 days when planted on favorable soil and in good location, but 95 to 100 days places it out of danger under average conditions. A variety of corn which will show such valuable characteristics is an acquisition on any farm, especially for planting in the Northwest where early frosts are common.

CORN—(Sanford White Flint). (Lb. postpaid, 20c': by ex-

Growing Corn in Montana—You can safely take any of the varieties listed here and, with fair treatment, success will attend your efforts. Corn yields high returns per acre, and so is a profitable crop to grow. It is high in fat and starch which feeds, coupled with the splendidly cured alfalfa and clover of Montana, give an almost ideal ration. A second point not to be overlooked in the value of corn is crop rotation. Being planted in rows, it permits of inter-tillage, which helps to keep the weeds down, bringing about best possible plant food conditions. Weeds are a troublesome pest in many sections of this state, and any crops that can be profitably handled and yet reduce the ravages of weeds ought to have a place in the rotation.

SORGHUM OR SUGAR CANE

Kaffir Corn.

Note the wide range of uses to which Sorghum may be put, and its great value in each case. As a soiling crop, Sorghum will always prove of great value, since at least two crops can be obtained from one sowing. Milch cows are exceptionally fond of Sorghum -it is excellent for milk production and a given area furnishes a large quantity of succulent food. As a pasture crop for cattle, sheep and swine it has no superior. As a fodder crop it furnishes \mathbf{a} n enormous amount of feed; utilized as a pasture, as a soiling and fodder crop, it may be made to furnish feed nearly the whole year round. Sorghum can be profitably grown in all tillable portions of the United States that will

produce corn, and will withstand drouth better than corn. The quantity of seed to be sown to the acre depends on climatic conditions and upon the mode of planting. If sown broadcast, or even with a grain drill, all tubes in use, 50 to 60 pounds of seed to the acre will usually suffice. When grown in single rows with a space between them, a less quantity of seed than above stated will suffice, depending upon the distance between the rows.

CORN—(Kaffir Corn, White Seeded). (Lb. postpaid, 20c); by express or freight, lb. 10c; 10 lbs. 75c; 100 lbs....\$4.25 An excellent fodder plant, yielding two crops of fodder during the season. It grows 4 to 5 feet high, making a straight upright growth. The stem or stalk bears numerous wide leaves. The stalks are brittle and juicy, not hardening like other varieties of Sorghum. It makes excellent fodder, either green or dry, which is highly relished by cattle and all kinds of stock. The seed crop is also heavy, sometimes 50 to 60 bushels to the acre. For grain, sow in rows 3 feet apart, 3 to 5 pounds of seed to the acre. For fodder, sow ¾ to 1 bushel, either broadcast or in drills.

POP CORN (White Rice)

chosen and tested for seed purposes.

Its Profitable Uses—1st. It yields of shocked corn of the very best feeding value at the rate of 8 to 10 tons an acre. 2nd. The small ears which mature early are very valuable for pigs, calves and young stock generally, especially during the fall and winter months. 3rd. The yield of ear corn to the acre is quite equal to any of the larger and later varieties.

PEAS

"Peas could be made to bring more nitrogen to the soils of this country every year than is now purchased annually by the farmers at the cost of millions of dollars."—Year Book of the U. S. Department of Agriculture. The above statement, coming as it does from a reliable source, gives the progressive farmers of this great Northwest something to think about. Grain has been grown year after year on many farms, sapping the life and fertility of the soil. Here is a crop which is not only profitable, but will return to the land the much-needed nitrogen. Peas are second only to clover in their soil-enriching properties and can be grown under almost any conditions of soil or climate. There is always a ready market for peas, or they can be profitably ground and fed to stock. The vines make rich, nutritious hay. If fed to milch cows, when in a green state, pods, vines and all, the flow of milk will be almost doubled. Peas are a paying crop and can be profitably planted in many ways. When sown alone about three bushels are required to the acre. They can be matured and threshed when dry. The yield will vary from 30 to 60 bushels an acre.

PEAS—(Canada). (Lb. postpaid, 20c); 25 lbs. \$1.50; 100 lbs.\$4.00

PEAS—(White Marrowfat). (Lb. postpaid, 20c); 10 lbs. \$1.00; 100 lbs. \$4.00. Write for samples and price in ton lots.

These large handsome Peas are equally as profitable to grow as a field crop and on account of their size are saleable at all times at the top of the market, as well as providing the table with an extra good pea during summer. Very heavy yielder, producing from 40 to 60 bushels per acre; these peas being softer than the Canada Pea, are preferred by hogs or stock. Many growers are increasing their acreage of these peas, considering this variety the best and most profitable.

VETCHES

WINTER VETCH

VETCHES—(Sand or Winter Vetch, Vicia Villosa). (Lb. postpaid, 25c); 10 lbs. \$1.30; 100 lbs..... called Hairy Sometimes Vetch. This is a very valuable forage plant and is rapidly becoming popular each year as the farmers are learning more of its great value for forage and fertilizing purposes. It succeeds well on nearly all soils and thrives surprisingly on poor, light land and well stands extreme of drouth, heat and cold. It improves the soil, being a great nitrogen gatherer. It belongs to the pea family, but the vines are much longer and the foliage is more abundant. May be sown with about half bushel of rye or oats for support. It grows rapidly and is particularly valuable in sections where clover does not thrive. The Department of Agriculture estimates the value of an acre of this Vetch plowed under, equal to commercial fertilizer at the rate of from

MILO MAIZE

MILO MAIZE—Lb. postpaid ________20c
A non-saccharine sorghum useful for the large amount
of foliage, green feed or cured fodder that it furnishes
and for its grain. Sow in spring, using 6 to 8 lbs. per
acre.

SOJA BEAN

SOJA BEAN—Lb., postpaid _______25c Valuable as a forage crop or green manure. Also as a green fodder and silo plant. Sow 30 pounds per acre after danger from frost is passed.

WHIPPOORWILL PEAS

FLAX

SALT BUSH

AUSTRALIAN SALT BUSH—Pkt. 10c; (lb. \$1.00 postpaid)
Thrives on Alkali—The many thousands of acres of alkali lands of the West may be made productive and profitable by planting salt bush. Cattle, horses, sheep and swine eat it and thrive on it. It flourishes where grasses and other forage plants will not grow and furnishes enormous quantities of nutritive food for stock. From 10 to 20 tons of green fodder have been harvested from one acre. Single plants grown on the worst alkali land have reached a diameter of 16 feet in one season. It succeeds everywhere, and there seems to be no question but that it will in time eliminate alkali from the ground, rendering it suitable for other crops. One lb. of seed will plant an acre.

Directions for Planting—Sow 2 to 3 lbs. of seed to an acre in the spring before a rain if possible, or irrigate well on well pulverized soil and cover it lightly (about one-eighth of an inch) with a light harrow or brush. The plants may also be grown in boxes or garden bed, covering the seed lightly, and planting the seedlings where desired, when from 2 to 3 inches high, 6 to 10 feet apart. If the weather is dry when transplanting, supply a little water to each plant.

SEED GRAINS

Hulless Barley.

Hulless Barley.

BARLEY—(White Hulless). (Lb. postpaid, 15c); 100 lbs., \$2.60

Its Valuable Properties—It is hulless; it is beardless; it is very early; it weighs over 60 pounds to the measured bushel; it yields well on poor land; it yields enormously on good land; it makes better pork than corn; the straw makes good hay; it is of inestimable value to every one who feeds stock. It is often grown for hay, coming very early and providing rich food. It should be cut just before it becomes ripe and while the straw is green. In this condition it is relished by all kinds of stock. The straw is stiff and straight, and seldom if ever does it lodge. Use 50 lbs. of seed to the acre if sown on dry land for a grain crop.

SPELTZ OR EMMER—(Lb. postpaid, 15c); 100 lbs......\$2.75

Facts About Speltz—It resists drouth; it thrives on poor lands, in stony ground, in forest regions, on the prairies; it makes a crop with almost any condition of soil and climate; endures a great deal of frost; is not readily damaged by harvest rains; is not susceptible to rust or smut; yields more than oats; yields more than wheat; yields more than barley; makes better feed than barley; the straw is used for fattening stock; the stubble makes good fertilizer; stock eat both grain and straw. Ripens very early.

WHEAT

on large quantities.

Maudlow, Montana, Oct. 25, 1913.

STATE NURSERY CO., Helena Mont.

Gentlemen—As you asked in regard to Club Wheat, will say that I have raised Winter Club Wheat for the last five say that I have raised Winter Club Wheat for the last five years and the lowest average has been 30 bushels per acre on dry land, and have raised as much as 45 bushels per acre. Ninety-three acres average 40 bushels per acre this year and it is not a good even stand.

I sow from four to five pecks per acre, and consider from August 10th to September 1st the best time to seed.

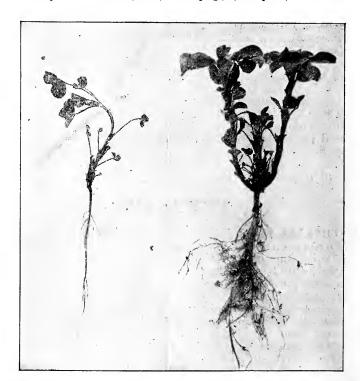

Yours respectfully,

B. O. HATFIELD,
Per Watkins & Carleton

INSECTICIDES, Etc.

The Plant on the Right Shows the Results of Using Mulford's Nitro-Germ.

THE MULFORD NITBO—GERM—Follow Nature's own plan of increasing the fertility of the soil by growing leguminous crops. Stimulate their growth and increase their yield by using The Mulford Nitro—Germ. It forms nodules on the roots of leguminous plants. These nodules will convert nitrogen from the air into nitrates, suitable as food for the plants. Available nitrates help the growth and development of legumes and other plants, and increase the yield. Legumes enrich and renovate the soil and are rich in food value for man and beast. The cost of seed or soil inoculation with the Mulford Nitro—Germ is small—the returns are large.

The Mulford Nitro-Germ is supplied for inoculating the fol-The Mulford Nitro-Germ is supplied for inoculating the following legumes (a specific strain of bacteria for each different legume): Alfalfa (Lucerne); Crimson Clover; Sweet Clover, White Clover, Bed Clover; Alsike Clover; Mammoth Clover; Burr Clover, Yellow Clover; Berseem Clover; Cow Peas; Soy Beans; Canada Field Peas; Peanuts; Spring Vetch; Winter Vetch; Horse Beans; Velvet Beans; Perennial Peas; Sweet Peas; Garden Peas; Garden Beans; Lima Beans; Lupins; Sanfoin, Beggar Weed, and others. The Mulford Nitro-Germ for the different legumes listed above in heavy-face type can be shipped immediately from stock. The others will be prepared to order and can be supplied in a few days. Easy to use; requires no special knowledge, no previous experience, no special implements. Three sizes: Garden size, (1/4 acre), 50c; 1 acre size, \$2.00; 5 acre size, \$9.00

Is uniform in strength and quality protects the crops always.

THE SIMPLEX SPRAYER

This is without question
the most economical machine of its kind on the
market. It is the first and
only Compressed Air
Sprayer maintaining a only compressed Air Sprayer maintaining a high pressure in the tank, regardless of the amount of liquid contained therein. of liquid contained therein. The pumping is done while in operation; thus replacing pressure as fast as the liquid is being used. The only way this can be obtained is by making the pump in a portable relation to the tank. This is one of the most important featthe most important features in the "SIMPLEX" sprayer, because the presure is under perfect control at all times. One tube brings the air into the tank and the other forces the solution to the Nozzle. This is why the "SIMPLEX" sprayer is so convenient and easy to operate.

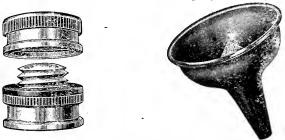

3 gallon Galvanized Tank, complete, (postpaid)......\$6.00

The double Nozzle is for spraying two rows of potatoes or similar shrub at once, as fast as a man walks. Variation in width between the rows is regulated by raising or lowering the pump. Price, each

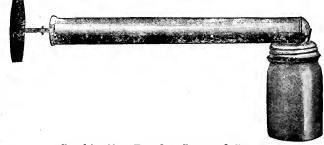

lifetime.

SIMPLEX GLASS JAR SPRAYER.

Combination Powder Gun and Sprayer.

Being a simple fruit jar sprayer which does the work of both powder gun and sprayer, and costs less than either. The tank never rusts and never requires cleaning.

You can have a separate jar for each powder or solution—any pint Mason jar can be used with this sprayer. The pump tube is made of heavy tin 1½ inches in diameter and is 15 inches long. The pump leather is treated so that it always remains soft and pliable—is always ready for use. All sprayers are securely packed.

SPRAYERS—(Continued)

Rubber Sprayer.

RUBBER SPRAYER-For the house plants.

strong pump, automatic shut off nozzle, legs under tanks. Can be used for whitewash-ing, disinfecting and cleaning ons, districting and cleaning chicken houses, and is very desirable for large gardens, etc. It is built of galvanized steel or brass as ordered. Holds one gallon.

Galvanized steel tank, complete \$2.75

Misty.

Daisy.

Description—The tanks are made of heavy brass or galvanized steel and will not rust or corrode. Are tested with four times more pressure than used for spraying, and will not burst. Filler plug and connections are made of brass. The shoulder strap and body rest make it easy and convenient to carry. Capacity, 3 gallons.

The Pump has a brass air reservoir in the plunger, making it easy to operate and a check valve for the air to pass through on return stroke, doubling its capacity.

The Nozzles are made on a new principle and work with a combination of liquid and air which produces more force with 7 lbs. of pressure than others do with 100 lbs., giving a fine mist-

like spray which is sent out with such force that clogging is impossible.

No. 2 "Brandt" galvanized steel tank, 3 gal. complete \$5.25 No. 3 "Brandt" brass, 3 gal., complete.....\$6.50 A 1-Quart Funnel with brass wire strainer accompanies above Sprayers for use in filling.

Selaginella 22 Sensitive Plant 19	Vinca	Balsam, Apple 54 Balsam, Pear 55		LAWN GRASS AND
	Yucca 36	Balloon Vine 55	Thunbergia 64	LAWN FERTILIZER, (Pages 96–97).

The presence of a select library of standard agricultural books in the home of a farmer lends a certain air of distinction and refinement and at once stamps the owner as alert, active, progressive and abreast of the times.

We present herewith a partial list of the best books treating on every phase of agricultural and rural life. They have been prepared by the most eminent authorities on their respective specialties, and are thoroughly practical, while at the same time scientifically accurate. To the progressive faimer who desiles to keep posted upon the latest investigations of his chosen business these books are invaluable, and there is no investment that will pay such big returns as a few books that will give you the information you need just when you want it. The prices are exceptionally low, when you consider their high character and the excellent manner in which they are printed, bound and illustrated. (Postpaid).
